VOL. XXII.

STATE UNIVERSITY OF MONTANA, FRIDAY, JANUARY 5, 1923.

NO. 23

## PILL PUSHERS' ANNUAL BALL TONIGHT

### MELVIN A. BRANNON OF BELOIT ACCEPTS CHANCELLORSHIP OF GREATER UNIVERSITY

Prominent Research Worker and Educator Takes Position Left Vacant by Resignation of Edward C. Elliott Last Spring.

Dr. Melvin A. Brannon, formerly, President of Beloit College, has accepted the Chancellorship of the Greater University of Montana. Dr. Brannon's decision reached the state officials yesterday evening. The state of Montana is indeed fortunate in having a man of Dr. Brannon's ability at the head of her educational institutions. The new Chancellor will assume his duties on January 14.

#### Is Indiana Man.

Dr. Brannon was born near Lowell, Indiana, September 11, 1865. At the age of twenty-four he was graduated from Wabash College, taking his master's degree the following year at the same institution. The following four years (1890-94) were spent as teacher of sciences in the Fort Wayne, Indiana, high school. Later he worked with the Harvard and Yale Universities in the world famous Marine Research Laboratory at Wood's Hole, Mass. This laboratory, it might be said in passing, is second only to a similar laboratory at Naples, Italy.

In the course of time Dr. Brannon was elected Dean of the College of Medicine at the University of North Dakota, in which capacity he served for three years. At this time he was promoted to the office of Dean of the College of Arts, which position he held until elected president of the University of Idaho in 1914. Two years previous to this date (1912) the University of Chicago conferred the degree of Doctor of Philosophy upon him in recognition of research work in regard to plant tissue submerged by the Salton Sea.

#### Prominent Research Worker.

In research work Dr. Brannon has been very prominent. In addition to the Marine Laboratory and Salton Sea investigations he is a member of the Carnegie Research staff in the study of the action of water on vegetable tissue. He has studied the relation of lower plants to the separation of the salts in solution in lake waters. He has conducted a special line of studies with regard to the physical and chemical changes in the storage of vegetables and fruits. While at North Dakota he, also, had charge of experiments in acclimatizing fish to the saline and fresh lakes of that state. On the 6th of April, 1914, he became president of the University of Idaho and remained there in this capacity until July, 1917. Since that date he has been president of Beloit.

#### TWELVE ASK ADMISSION TO SCHOOL OF PHARMACY

Twelve students have applied for registration in the School of Pharmacy this quarter. Because of the fact that all courses in Pharmacy begin in the fall these students were forced to enroll in other courses. The unusually large number of applicants is perhaps due to the prospective passage of the new pharmacy law which will require that all Montana pharmacists before being able to register will have to have at least a two year degree from a recognized school of Pharmacy.

Kappa Alpha Theta announces the pledging of Katherine Roach, of Anaconda.

### NATIONAL FRATERNITY HONORS LOCAL CLUB

Phi Sigma Kappa Absorbes Iota Nu, Founded in 1908.

Iota Nu fraternity was granted a charter by Phi Sigma Kappa, national fraternity, at the convention held in Washington, D. C., December 27-30. J. Arthur Mattson represented the local body at the convention. No date has been set for the installation.

Iota Nu is one of the oldest fraternities on the campus, having been founded January 15, 1908. Since the founding of the fraternity members have taken an active interest in all University affairs. It is especially proud of its athletic representation, having had 15 captains, seven in football, five in basketball, two in track and one in baseball. Fraternity members have won 94 athletic letters.

The fraternity owns its home at 1011 Gerald avenue. A quarterly paper, the Iota News, is published by the chapter for the alumni. Among the prominent alumni are Thomas Spaulding, Harry Adams, Carl Dickie, Fred Thieme, Burton Smead, Christian Bentz, Chas. Hickey, Steve Sullivan, James Murphy, Raymond Nagle, Ernest Prescott, G. Otis Baxter, and Clarence Hanley.

Phi Sigma Kappa was founded in 1873 at Massachusetts Agricultural College. It now has 31 chapters.

### SCHRIEBER ANNOUNCES REGULATIONS FOR GYM

The new gymnasium will be available for a few of the larger all-University dances, according to Professor W. E. Schreiber, director of athletics.

The swimming pool will be opened to University students as soon as the diving board has been installed. Lockers will be assigned the members of the physical education classes next week. A deposit of one dollar will be required, and students may furnish their own padlocks or use the combination locks furnished by the department.

No smoking will be permitted in the building except in the club room on the first floor. Rules for the use of the tank will be posted in the locker rooms. Street shoes will not be allowed on the basketball floor. All the equipment has arrived and is being installed as rapidly as possible.

#### NOTICE!

There will be a call meeting of the Montana Masquers Tuesday evening, at 7:30 in the auditorium. Mr. Williams will read Galsworthy's Loyalties.

Kappa Kappa Gamma announces the pledging of Carol Phillips of Dillon.

### CALENDAR

Jan. 5—Pharmacy Ball at the Union hall.  
Jan. 6—Masonic dance for University students, Elks Temple.  
Jan. 12—Freshman dance, at Union hall.  
Jan. 13—Alpha Phi pledge dance, at Alpha Phi house.  
Jan. 13—Loyal 100 dance, at Union hall.  
Jan. 19—Art League Ball, at Union hall.  
Jan. 20—Kappa Kappa Gamma pledge dance, at Kappa house.  
Jan. 26—Bear Paw dance, at Union hall.  
Feb. 2—Sigma Phi Epsilon Installation Ball, at Elks Temple.  
Feb. 9—Co-ed Formal.  
Feb. 16—Forresters' Ball.  
Feb. 17—Alpha Phi dance.  
Feb. 23—Inter-fraternity Formal.  
April 7—Pan Hellenic Formal.

### BASKETBALL SQUAD IS PREPARING FOR TRIP

Coach Stewart Issues Call for More Men to Turn Out.

Coach Stewart is driving his basketball squad to have them in shape for their western trip next week. There are only a few men out for places on the team. The coach wants any men in school who have played basketball to turn out at once.

The candidates are practicing every day in the new gymnasium. Captain Tick Baird, Ronnie MacDonald, Ed Thoreson, Kirk Badgely, John Shaffer, Gordon Tanner, Gil Porter, Sid Kent, Buck Stowe, Harvey Elliott, Boggs Wheeler, Oscar and Jiggs Dahlberg are some of the men who are scrapping for places on the Varsity quint.

The schedule this year is the hardest ever made for a Grizzly basketball team. Over twenty games in about 40 days will keep the team on the move.

### TWO STAFF VACANCIES SAYS SENTINEL EDITOR

"Work on the Sentinel is not progressing very fast for the staff is handicapped by the vacancies made by Harry Houle and Al Shack and little encouragement in the form of subscriptions is coming in at the business office," stated editor Nat McKown, yesterday.

The Junior and Senior pictures have been taken and are at present in the hands of the photographer, ready for mounting. A new sports writer and feature editor will be appointed not later than this week end.

Do you know where you can beat this? Sheridan's six-piece orchestra; refreshments; favors for the ladies. All for One Dollar at Union Hall, this evening.

Delta Sigma Chi announces the pledging of Lois Ferguson of Missoula.

### UNIVERSITY DRUGGISTS WILL ENTERTAIN WITH MAMMOTH MIXER IN UNION BALLROOM

Six-Piece Orchestra Will Juggle the Harmony While Those Who Survived the Quarterly Examinations Will Hop Again; Good Pharmacy Punch Served.

### SCABBARD AND BLADE INSTALLED AT MONTANA

Lieutenant Colonel Tolman Directs Ceremony Before Christmas Holidays.

Scabbard and Blade was installed in the University of Montana December 22, 1922. The ceremony was directed by Lieutenant Colonel Robert G. Tolman of the Society of Scabbard and Blade, and who is also assistant to the Dean of Men of the University of Illinois.

The eight charter members who petitioned the military fraternity and Major George Smith and Captain Jack Howard, now stationed with this unit, were initiated, the two latter as honorary members. Oakley Coffee, Cadet Major last year, Lloyd Malsen, Frank C. Finch, Francis H. Cooney Jr., and Omar W. White, Cadet captains in 1921-22; and Carl Beall and Francis Peterson, both officers in the Cadet Corps this year, were the charter members initiated.

The installation and initiation was held in the Sigma Phi Epsilon fraternity house. After the ceremonies were over a banquet in honor of Lieutenant Colonel Tolman was held down town.

The main purpose of Scabbard and Blade is to promote and foster the Reserve Officers Training Corps in the universities and colleges. The society consists of 41 companies which are divided into battalions and regiments. The local company is Company "E" of the 4th Regiment.

Lieutenant Colonel Tolman returned to his home in Illinois the next day.

### GLEE CLUB WILL MAKE STATE TOUR IN MARCH

According to Professor De Loss Smith, the University Glee Club will make its annual tour of the state at the end of this quarter. The tour will last about ten days and will include, as it has in the past, the larger cities of the state, as Butte, Great Falls, Billings, and Anaconda.

The Glee Club concerts under the direction of Professor Smith have always been among the University's most successful activities. Last year's club especially made a fine sounding. With many of the old members back and some very promising new material an excellent season is again assured. This year's club will probably be larger than it ever has been.

#### NOTICE!

Scabbard and Blade, actives and pledges, will meet this afternoon at 4 P. M. in the Military Office. FRANK C. FINCH, Captain.

Come to the Pharmacy Hop and see the pill rollers demonstrate the Diphtheria Dip.

The first University Dance of 1923 will be given by the Pharmacy School tonight at Union hall, with Sherilan's six-piece orchestra furnishing the music. The committee in charge has stated that the decorations will be something entirely new and will transform the hall into a veritable fairyland. They have exacted a promise from the Foresters to the effect that the lumberjacks will leave their plugs of Climax at home. Hence the usual "Do not spit on the floor" signs will be conspicuous by their absence. However they have stated that in case the well known member of the Business Office, Ritchey Newman, wishes to attend a special dispensation will be made.

In addition to the unusual decorations and the superb music other attractions hitherto unknown to University functions, will be offered. The favors ordered from the East last month have arrived and are even more desirable than was expected. Their exact nature has not yet been divulged by the committee. The punch, the ingredients for which have been imported from Canada via the airplane express, is expected to add very much to the life of the party. While we guarantee its purity and no cases of blindness are expected to develop yet to play on the safe side we have arranged with the leading undertaker of the town for special rates for anyone who may succumb.

After hearing the foregoing details of the dance, some of the members of other departments have become so enthused as to offer to put on solo dances for us. "Blushing Bill" Cogswell, who may be seen at any band practice hiding behind the big bass horn, has graciously offered to execute the Linotype Limp while Dean Swords of the Law School will show us how they do it "back in Iowa." As a fitting climax, Francis Cooney has offered to return and give us his interpretation of the Military Schottish.

All of these features are offered to the student body at the price of one dollar. Never before has such an evening's entertainment been offered at such a low price. If you have not already done so call up your girl and get a date for tonight at the Union hall at nine o'clock. The dance will be formal for women but taxis and flowers will be out of order.

### MANY STUDENTS DROPPED BECAUSE OF SCHOLARSHIP

Thirty-three men and nine women students have been notified to remain at home because of poor scholarship during the past quarter. Eleven men and eight women have likewise been placed on final probation and advised that their work was of such low caliber that they should cease their work at the University.

Although these figures seem rather large the number of students dropped from the local institution is small as compared to the usual number dropped from other colleges and universities of like enrollment.

Commenting on the above figures, Dean Jesse says that as the attendance at the University grows, more students will be dropped from year to year.

### OUR UNIVERSITY WILL PROSPER

Truly 1923 is beginning with the brightest of prospects for the University of Montana. One need only glance back a single year to find our Alma Mater occupying, but five mediocre buildings and several small wooden shacks.

Today, the fondest hopes of even the most optimistic of last decades' dreamers are beginning to materialize. Of course we still have the same old buildings and shacks and they all must continue to be used to help accommodate the rapidly growing student body. But in addition to the above nucleus our University now includes or is about to include six magnificent new structures second to no similar group of buildings in the entire Northwest.

Our student body is now nearing the 1500 mark, and in a very few years hence we shall pass the 2500 mark. The constantly increasing stream of students will call for more space and additional new buildings must inevitably follow. Our Alma Mater is taking her place among the foremost educational institutions of the great Northwest. Truly the beginning of this new year must inspire us all to maintain our University's ideals, namely intellectual attainment, democracy, good sportsmanship, etc.

Let us get out and boost as we have never boosted before; let us get behind every University financial measure that comes up; let us support every movement along scholastic or athletic lines. Let us not permit Coach Stewart to wonder from day to day whether he will have enough men to practice basketball or not. Let us all who have any athletic ability report for practice and those of us who lack that ability let us do the next best thing and root, yes, ROOT for MONTANA.

### GREETINGS!

In this annual venture of the Pharmacy School into the realms of journalism we attempt to bring a Kaimin full of news and New Years greetings from the Pharmacists.

We wish to extend New Year's greetings to all who are back this quarter and best wishes for those who of necessity are not back, with hopes that they will be with us again next quarter.

Now we realize what a big job Cogswell and his corps of journalists are up against twice a week. All of them must have abnormal constitutions and iron-like nerves. The only thing that keeps us at our task is the knowledge that we only have to do it once a year.

### TOTAL REGISTRATION NOW REACHES 1,444

The total registration of actually attending students has reached 1,444, according to the Registrar J. B. Speer. The present registration figures include students who enrolled during the autumn quarter as well as new students who have registered thus far. The total registration at the end of this quarter will easily exceed the 1500 mark.

## The Grist

"The mills of the gods grind slowly, but they grind exceedingly fine."

GALILEO SEZ

Roll your pills and come to the Pill Rollers' ball.

Oakley: "I don't like these photos at all. I look like an ape."  
Mr. Paschal (With a glance of lofty disdain): "You should have thought of that before you had them taken."

### HERE'S ANOTHER.

Dean Jesse: "We'll expell you."  
Rorabeck: "What's wrong?"  
Jesse: "Distance between your ears."  
Rorabeck: "How far?"  
Jesse: "One block."

It is rumored that in one of the courses in the School of Law 6 As, 4 Bs, 4 Cs and 2 Ds were given. And yet the lawyers say that all other courses are pipe courses!

### Royal Order of Kerosene Burners:

The guy who thinks a pill roller likes to roll pills.

We see that round shoulders are coming into fashion—we wonder if it is on account of the long skirts.

The main reason for women not smoking pipes is that it interferes with the proper use of their tongues.

"What makes the butterfly?"  
"The cocoon."  
"Wrong; the coon cook."

Dates with co-eds all remind us  
We must spend full many a dime;  
And departing hear behind us,  
"Thanks, I've had a terrible time."

A Freshman from the Amazon  
Put, nighties of his Gramazon,  
The reason's that  
He was too fat  
To get his own Pajamazon.  
—Oakley Coffee.

Outside there's rain and snow and sleet.  
But I sit here alone, unheeding.  
I'll tell my Prof., when next we meet,  
That I couldn't do my outside reading.

Man (in drug store): "I want some consecrated lye."  
Druggist: "You mean concentrated lye."

Man: "It does nutmeg any difference. That's what I camphor. What does it sulfur?"

Druggist: "Fifteen scents. I never cinnamon with so much wit."

Man: "Well, I should myrrh, myrrh. Yet I ammonia a novice."

Sixty-one Rah Rahs received their outside degrees at Doc Jesse's mid-quarter commencement.

Suchy, in Drug Analysis: "Name three articles containing starch."

Harshfeld: "Two cuffs and a collar."

Old Timer: "I once knew a man who stayed home with his wife every night for thirty years."

Old Timer's Wife: "Ah, that was true love!"

O. T.: "Oh, no, it wasn't; that was paralysis."

### OUR GIRL:

She wore mistletoe in her hair during the holidays.

Florine: "I won't marry a man who cannot look me straight in the eye when he is talking to me."

Chlorine: "Then wear 'em longer, dearie!"

We invite all faculty members, students, and former students to the Pharmacy Ball, tonight, and guarantee a good time for all.

## Battle of Bay Rum Takes Place Noon Every School Day

Did you ever stroll around the campus in a pensive mood and then have your reverie suddenly disturbed by a loud crash from the inside of Old Science Hall? If you walked in you would undoubtedly see Doc Jesse come frowning down the stairs. No, it isn't an explosion. While lawyers, artists, pre-medics and all the others go about the happy process of food ingestion at midday the pharmitic remembers his duty and fights the gas attacks of the chemists with reverberating sounds. Books fly, chairs fall, windows rattle and laughter surmounts them all. No wonder the Dean frowns. No chemist can go absorbing hydrogen sulphide and knowledge, too, if he can't see the joke. Now, allow me to let you in on it

You know that most pharmitics only stay two years in our venerable institution. During that time they are expected to absorb the knowledge which the average student takes four years to get. If they are doing four years of fun and flourish in two. Ergo, the thing is just like a problem in oxidation, the amount of noise is the same as the other schools but the time is less and the concentration is greater.

### DEENEY PRESIDENT OF NEWLY ORGANIZED OFFICERS CLUB

At a meeting of all commissioned and non-commissioned officers of the R. O. T. C., held December 15, Roger Deeney was elected commander of the newly organized Officers Club. George Whitcomb was chosen Adjutant; Custer Keim, Quartermaster, and Frank Wiley, financial officer.

The constitution was adopted and plans made for winter activities. A dance and smokers were planned.

# THIS Sale Event CASH

## We Have Three Requests

### 1st. Do not ask for credit

This sale is cash to everybody. We are losing enough without waiting for what little we get for these garments. We don't want to invoice the goods and MOST certainly not, any charge accounts at these figures.

### 2nd. Buy quickly

Our buyer goes east next week and we absolutely are going to clean our racks of Coats, Suits and Dresses regardless of cost.

### 3rd. Do your own altering if possible

Our altering department will be busy and employing only experienced people here as we do, again our force will be limited. We will alter garments as much as possible and have them for you just as soon as first class altering can be done.

## COATS AND DRESSES

# 1/2 PRICE

## SUITS ALMOST NOTHING

We will be busy. We employ only experienced salespeople, consequently our sales force is limited.

# MONTANA LEGISLATURE TO TAKE ACTION ON NEW PHARMACY BILL

## Proposed Bill Will Insure Qualified Pharmacist Serving Public.

There is now before the legislature of Montana a new pharmacy bill, the most important provision of which, is that a candidate to be eligible to take the state examination for pharmacists must be a graduate of a school or college of Pharmacy giving a course of instruction acceptable primarily to our own state, and to the majority of states having prerequisite laws.

The medical profession, druggists, and the public which pharmacy serves, should be interested in the passage of this bill, as it will insure to the public, pharmacists qualified by appropriate training and study, as well as practical experience, all of these being necessary to the efficient discharging of the duties of a first class pharmacist.

### Bill Has Undergone Careful Study.

The proposed law is the result of many years of observation, study, and experience of states in which it has been in force. This work has been carried on by the National Association of Boards of Pharmacy, an organization which has done much to make state examinations more uniform and through which pharmacists licensed in one state may register in others having like requirements.

The fact that twenty-one states require graduation and others are now contemplating it, makes it imperative that Montana should for self-preservation also adopt this law.

### Provisions of Bill.

Provision is made for those who have already entered pharmacy as apprentices so that a reasonable time is allowed them to acquire the experience and to fit themselves to take the examinations under the present law. In this way no hardship is worked on any one who has thus began his pharmacy career, but it will make it necessary after a certain fixed time that all candidates for examination must have obtained the degree of a Graduate in Pharmacy, and in addition must have acquired the required amount of practical experience before a license is issued.

There are no valid arguments against the prerequisite as is shown by a survey of the states which have passed such laws many years ago. The opponents of the requirement at the time of its adoption become practically unanimous for it after it has been in force for a number of years.

### Will Insure Competent Men.

The arguments for it are many; we will mention only a few—First: The public is entitled to the services of well trained pharmacists and this training can only be given to the best advantage in a college of pharmacy. This training combined with practical experience, which will still be required is essential in the making of a first class pharmacist. The older generation of pharmacists obtained their qualifications through practice only, and while we may be proud of them and their attainments they would have accomplished more in a shorter time, and with less effort had they had a background of college training.

Second: The prerequisite of a college graduation furnishes a most acceptable and equitable basis for reciprocity between the states.

Third: The young men or women entering pharmacy today without a college training will be greatly handicapped in years to come when brought into contact with the college trained pharmacists, hence a real service is rendered by the acquirement of a pharmaceutical education.

Fourth: The general establishment of prerequisite laws will add greatly to the professional standing of pharmacists; will make them better citizens and more successful members of communities.

Fifth: College training furnishes the foundation for qualifying pharmacists as expert dispensers, compound-

ers and analysts, thereby adding more to their chances of success, both from the professional standpoint and from the commercial side of pharmacy.

Convincing arguments can be advanced for a college training, each one a sufficient reason for every citizen to urge his representatives in the state legislature to aid in the passage of this law.

## CORRESPONDENCE WORK TAKEN BY MANY STUDENTS

The Correspondence department reports a large enrollment. Students receiving "absent treatment" through this department are 284 in number, of whom 175 are women and 109 males of the species. A total of 76 different subjects are offered by correspondence. Courses most popular with correspondence students are those extended by the Department of Education, with courses in Economics and Business Administration following.

The largest group of those thirsting for information are teachers who are doing work on certificates, though many "fireside" students are doing work for degrees, and resident students indulge in correspondence during the wletry months of vacation. Also a number of pastors of "the little brown churches in the wild wood" study while tending their flocks, and married women find time for university work between feeding times for hubby. Eight out-of-state students find Montana University work superior to that offered in their own states.

This department is entirely self-supporting and is not in any way responsible for the state's ultra modern debt, fees charged for the courses paying the expenses incurred. Mr. W. E. Maddock is director of the Correspondence department and Miss Gertrude A. Zerr, secretary.

## WOMAN'S PHARMACY FRAT MAKES APPEARANCE HERE

Among the newest national honorary fraternities to take their place on the campus is Kappa Epsilon, Women's Pharmacy fraternity. The Delta Chapter was granted to the local organization, Iota Phi Epsilon, in June of last year. The latter was founded in 1920 by four pharmacy women who became its charter members. These were Dorothy Lattrell, Ida Sylvester, Olive Gnose and Maud Campbell. Since then its number had increased so that when the national charter was granted there were seven active members and five alumni members. Of these ten were initiated into the national fraternity last June.

Kappa Epsilon has chapters in Minnesota, Iowa, Nebraska and Montana, and is therefore essentially a western organization. Its standards are among the highest of the Pharmaceutical fraternities in the country.

The following were pledged by Kappa Epsilon last quarter: Ruth MacFarlane, Ruby Westby, Elizabeth Miner and Dorothy Chapin.

Tiny Cahoon, once a member of the Grizzlies and now one of the stars at Gonzaga, is a visitor on the local campus.

### NOTICE.

An informal get-together dance will be given by the Missoula Masons for Masons, Eastern Stars, Sons or Daughters of Masons only, attending the University at the Elks' Temple, Saturday, January 6, 1923, at 8:30.

Admission by invitation only. If you do not receive one by mail, see Ralph K. Neill and secure one.

## Heavy Casualties Result of Contact With Blank Forms

Did you serve in the last war—the war of registration and matriculation? It is said that medals will be given for the bravest exploits therein. Many a brave son, undaunted by the World War packed up his old kit bag, said goodbye to Maw and to Paw, to advance upon our Registrar only to go down to utter defeat. General Sherman's idea of war would coincide with registration except those were mild days in the General's time and there was no need for forcible language. Horrors of Hunish Vandalism pale into insignificance alongside the long-suffering student's privations. Many are suffering from influenza contracted from exposure to the cold shoulders and icy glances in Room No. 103. Barb wire entanglements of red tape have taken toll of our mental labor battalion. Barrages of hot air fail to penetrate the enemy's fortifications of case-hardened intolerance. The axiom of "fighting it out along this line if it takes all winter" is the only salvation. When "your right wing is crushed, your left defeated, and your center broken, advance all along the line." Casualties from flat feet gotten by running down **THE DEAN** at office hours are exceeded only by mortalities from heart failure during the zero hour of advance.

The first battle of registration is dragged out over two whole weeks—long enough for an entire campaign, or eleven successions of Mexican presidents. Development battalions, twice the size of ours, are slaughtered in two days. Is this due to the inefficiency of the local volunteers or is there something wrong with the "General Office?" A prize of three yellow slips will be given to the student with the most accurate answer.

### Mrs. Parsons' Death Mourned by Students

The sudden death of Mrs. Homer Parsons Tuesday morning, December 28, came as a shock to all who knew her. Mrs. Parsons was a special student in the department of music in the University the past year. She was an active member of the Music department of the Woman's Club of Missoula. In 1918 she graduated from Park College, of Parkville, Missouri. While connected with the University here Mrs. Parsons made many friends among the students and faculty, who miss her presence on the campus.

### WE'LL BET IT WAS PHILLIPS.

Dean Skeels and Professor Phillips spent a portion of their vacation up the Bitter Root in quest of the elusive duck. They succeeded in bagging a fine specimen of the Anatidae species. The Kaimin reporter failed to find out, however, which of the two hunters killed the bird.

### IN CONTRAST.

Oh, come with me to the Pharmacy Dance—  
We'll see the latest fancy prance.  
The Lawyers were the bunk you know,  
They were so awful slow.  
The Journalists were just as bad,  
The dancing Frats are quite a fad.  
But if with me you'll come  
I'll show you lots of fun,  
For I've a prescription  
To the Pharmacy c'nription.

"Scotty" Andrus, in the St. Patrick's hospital, is convalescing after a minor operation. He is making a rapid recovery and will be in school again in a couple of weeks.

Paul L. Mitchell, '09, the first graduate of the Pharmacy School, is one of the stockholders of the Miller Hunter Oil Company of Kansas City, Missouri. Mr. Mitchell is also sales manager for the concern.

## Dope Column

Five letter men from last year's squad are turning out for basketball. They are Doc Tanner and Captain Tick Baird at guard, and Gil Porter, McDonald, and Badgley, forwards. The pivot position left vacant by Ahren will be a hard place to fill. Thorsen, a sophomore who played one game for the freshmen last year against Stevensville, and center on the Sigma Phi Epsilon fraternity, is turning out. John Shaffer, the big guard on the football team this year, is also turning out for the center position. Shaffer played a star game for the Miles City high school in the tournament in 1918 when they took second place in the state. However he has not played much since then and will have a hard time to get into shape.

Oscar Dahlberg, star guard and the captain of the Frosh team last year is turning out for a guard position. Oscar was not in school the first quarter but has kept in shape by playing at the high school in Butte. He will give Tanner and Baird a hard race for their positions.

An urgent call for more basketball men was issued by Coach Stewart last night. "We have only eleven men turning out at present," said Mr. Stewart, "and need about twenty more. Practice has only been held for one week and every one will have an even start if they turn out now."

Coach Stewart returned from the east last Friday and the first practice was held Saturday. Rudiments of the game in shooting, pivoting and floor work are being given. With two games with the last year conference champions, University of Idaho, and two with W. S. C. only one week away, the situation looks bad.

All these teams have been practicing

for a month and have been on several barnstorming trips. The Varsity on the other hand with only one week's practice and only a few men turning out will not be in good shape to play for another two weeks. The Deer Lodge Ramblers have cancelled their game with the Varsity for tonight so that the Varsity will start the season without a practice game.

Last year's freshman squad is furnishing only two men, Dahlberg and Guthrie. The rest of the squad is either ineligible or for some unknown reason not turning out. "Every man is welcome," said Coach Stewart, "only turn out now."

Let's go, Montana, let's go!!

Sid Kent and Maudlin are two men turning out every afternoon. Guthrie, last year's forward on the Frosh team, joined the squad for the first time Wednesday.

Harry Adams, freshman coach, is

trying to arrange a game with the "Old Timers," most of whom are former Varsity players, for Saturday, but no definite time has been set as yet.

Captain Tick Baird stayed in town for basketball practice during the holidays and faithfully called practice every afternoon at 3 o'clock. Tick says it's kind of lonesome on the new, big floor all by himself.

### PHARMACISTS WILL ENTERTAIN AT ANNUAL BALL

Dance at the Union Hall promises to be the most noteworthy event on this year's social calendar. Sheridan's six-piece orchestra, punch and favors will feature this year's entertainment.

Pianos, Victrolas, Sheet Music  
and Teaching Material
