The meeting was called to order by President Mockleby at 6:15.

Collective Bargaining—Thurs., May 15 there will be a meeting in Helena with the Coordinating Council, which will include funding and grant proposal by students. Mockleby asked if there were any students interested in writing the grants. O'Grady, and Jordan.

Faculty Senate—Wednesday, May 21, at 3 p.m. there is a faculty senate meeting which is very important for students to attend. The important issues are: Women's studies which has the support of the student body, faculty evaluation.

CB vacancy—The appointments committee will be taking applications and making a recommendation to Mockleby for this position. The vacancy is advertised in the Kaimin to give everyone an equal chance to apply. Three people will be recommended of which Mockleby will probably appoint the first choice.

Collective Bargaining—A person is needed to be active on the state level in collective bargaining. Mockleby asked that it be one of the CB members, but anyone else who is interested is encouraged to apply and will be considered for the position.

Executive Committee—The Executive committee needs to meet with President Bowers to discuss university budgeting. This meeting is Monday, May 13.

Proposal of changes in registration—Wicks suggested that CB go on record of favoring this proposal. Warren moved to support the proposal. Beaudette seconded. The main idea of the proposal is to drop the pre-registration and go right into the fieldhouse and register. This should minimize people being upset about not getting into certain classes. Strobel said he preferred the pre-registration to the "fieldhouse gamble." Wicks moved to amend the resolution to strike #7. Elliott seconded. Motion failed.

P. Mockett moved to amend #2 to have pre-registration included. Strobel seconded. Motion failed. Warren moved the previous question. Steffens seconded. Motion carried. Vote on main motion to endorse the proposal as a whole: Motion carried.

Ribi did a projection of the budgeting deficit. Allocations up to this point total—$352,545. The rest of the requests according to the executive recommendation total—$22,929. With $354,937 to allocate, there is a deficit of $20,437.

COMITTEE REPORTS

Faculty Advisory—Hahn went to Helena for the faculty advisory council to observe. She said that three points should be considered: the council is not very well respected by the board of regents, all schools in Montana are represented equally, and not by size, the meetings are disorganized. Hahn felt that these meetings are important to attend because of the reciprocal communication involved. This is a by law change.

OLD BUSINESS

R75-11 (summer activity fee)—To pass this resolution it will take a 2/3 majority. Mockett said that this resolution would be transmitted to the administration with a cover letter. Publications, fine arts and campus recreation all make request early in the spring so they can hire personnel for this program. The main issue is that every thing spent from this must directly benefit the summer school students. O'Grady moved to send this resolution to the administration. Steffens seconded. Bowen moved to strike the last sentence. No second. Vote on main motion: Motion carried.

Faculty Policy Committee—President Nockleby gave a report on his statement to this committee. The Faculty Policy Committee is a re-enactment of the University Goals Committee, composed of 7 members. The goal is to define the mission of the university. Nockleby said that in his report he stated that the university will never be liked, but at best can hope for respect or tolerance, and mostly tolerance. Nockleby felt that the purpose of the university is to teach people to think. He wanted to go for quality education in faculty and research. Interest groups ought to be involved with shared governance, but flexible to change in structures. He spoke on grades, well-rounded education and not just a job-training program. Athletics are extremely important, almost as important as academics. The university gives students an opportunity to fulfill their potential. Entering freshmen do not know what is expected of them, and the university needs a transition from high school to college, to increase maturity. This could be brought about with better faculty advising on how to advise students. He ended with stating what the most important things students have: spontaneity, optimism, idealism and originality. These points should be preserved.

Murray stated that he and Nockleby agreed in spirit on this statement.

Gilt Edge is requesting $1000.00 for unanticipated printing and typesetting costs. 

- #519 is for the payment of secretaries who did the typing and typesetting.
- #521 is for supplies for the layout of pages.
- #548 is for cover stock and supplies for silk screening the cover of the books.
- #562 is for 500 copies of a negative plate printing for 68 pages of an 8 1/2 x 9 1/2 perfect bound book.

Cost for mailing books to other cities in Montana for display and sales are included in #631. 

- #681 is for soliciting materials for publication and sales.
- #910 is for rental of an IBM Selectric typewriter.

**TOTAL REQUEST - $1000.00**

Gilt Edge, a University of Montana women's literary magazine is in urgent need of additional funding due to unanticipated printing and typesetting costs. Because of these increased costs, we are now several weeks late in the production of our publication.

Presently, our staff is preparing for layout, which should be finished by Monday, May 19. Our next step relies on this funding board: If funded the University Press can begin printing the publication upon receipt of the layouts. The publication would then be out for distribution by the end of May. This, again, is an even more marginal date for distribution but since school would still be in session, it would be adequate.

As for the increase in our request, state printing procedures necessitate our change from an independent printer to the University Press, which is union. However, along with the extra cost comes certain qualitative improvements, specifically negative plates and a perfect bound edition.

This is our reason in asking for funding at such a late and hurried date. We certainly need this extra funding just as urgently as we needed the balance of the initial request. We have no other recourse presently, but to ask for this special allocation.
