Suggested comment to be recorded for Radio Station KSEN - wants two statements.

This is Mike Mansfield, and I want to take this opportunity to extend my personal congratulations to KSEN on their increase in power to 5000 watts. KSEN has been a great public service to the people of northern Montana for over twenty years, and this additional power will make it possible for expanded services. As your Senator, I have always enjoyed working with the staff of KSEN.

This is Mike Mansfield, and I would like to take this means of congratulating KSEN on their increase in power to 5000 watts. As your Senator, I am well aware of the important role of radio in keeping the people of Montana informed in these most complex and changing times. KSEN has done a good job and will provide better service with this additional power. This is Mike Mansfield extending my personal good wishes to KSEN and the good people of northern Montana.
