Silver State Invitational, UN, Reno, 4 shooters, Winter Quarter	184.50	22.00	180.00	386.50
Match Fees for intercollegiate postal matches shot on a weekly basis		155.00		<u>155.00</u>
			TOTAL	<u>\$1578.50</u>

2. During the course of the school year, the rifle club will provide wholesome recreation and entertainment with a unique competitive challenge to 50 to 60 University of Montana students. This challenge is first a personal challenge to improve yourself and secondly the challenge of doing well in the competitive environment of a shoulder to shoulder match. More than 50 students have already expressed interest in joining the club for this year.

3. In addition as many as 200 spectators including students and local residents watch the various matches.

4. The rifle club fields the University's rifle team to participate in inter-college competition. A team should consist of two-four man men's teams and one-four girl team for a total of twelve. During the school year 1970-71, the rifle team dominated the Montana State Outdoor International Matches; Won our 2nd Montana Senior Championship in the last 3 years; Placed 3rd out of 32 teams at the Silver St. Invitational; Placed 2nd in the Cheney Invitational; Placed 2nd in the Bengal (ISU) Trophy Match; Swept the Evergreen Conference Champ; Placed 2nd in the National Sectional Collegiate Champ at Cheney, Washington- Resulted in a 14th Place National Ranking.

Subject: UM Soccer Club Team Travel & League Fees Budget Request.

TO: ASUM

1. The following request outlines the absolute minimum number of matches in which the U of M Soccer team participates in order to receive League recognition and classification. The team takes 19 players to away games.

<u>Away games already scheduled by League</u>	<u>Travel</u>	<u>Food &amp; Lodging</u>	<u>Total</u>
Oct. 16 U of M at Notre Dame (Canada)	--	--	--
Oct. 17 U of M at Selkirk (Canada)	\$150.00	\$330.00	\$480.00
Oct. 24 U of M at Idaho	72.00	170.00	242.00
Nov. 6 U of M at WSU	--	--	--
Nov. 7 U of M at Gonzaga	102.50	220.00	<u>322.50</u>
		Travel total	\$1144.50
		League fee	<u>40.00</u>

Total request: ~~\$1184.50~~ 860

2. The Soccer Team performs an important service to the University here insofar as it gives every student a chance to join and play. Foreign exchange students in particular appreciate this opportunity to play a sport they are familiar with. Participation since last year has skyrocketed considerably. Last year we had some 30 interested people show up to join, this year we have had over 50. In fact the interest this year seems so great that we could easily field an A team and a B unit if adequate funds were available.

3. Spectator interest also has increased. Last spring home games drew about 100 people for morning games and some 200 for afternoon matches.

4. Radio and TV are also interested in covering our games and last spring in particular Cable TV offered to televise our game with Idaho, which as you probably know, never went through due to lack of cooperation from the Physical Plant people.

## HOUSING RESOLUTION

Approximately two-thirds of the students at the University of Montana live off-campus within the community of Missoula. It is believed that because of the lack of decent housing and existing high rents, students are compelled to live in substandard housing thus contributing to health problems for them and for the entire community.

In recognition of the need for housing in Missoula and in recognition of the need for more reasonable rentals, we, the Central Board of ASUM, express our support for the proposed Public Housing Authority and request the Missoula City Council to reconsider its action of Monday, September 28, when that proposal was indefinitely tabled. We call upon the City Council to bring the matter back to the floor and submit the proposal on the November ballot to the voters of Missoula.

## USE OF UNIVERSITY FACILITIES

University facilities exist to accommodate the regular academic program, and, to the extent that they are not inconsistent with that program, the extracurricular activities of students, faculty and staff of the University. The following regulations are applicable to the use of all University facilities in order that they may be used to the best advantage for the purposes for which they are intended by the students, faculty and staff:

1. No use of any University facility or area which will in any way interfere with the normal academic functions or operation of the University is permissible.

Except for regular academic or University sponsored programs, sound amplification equipment may only be used by faculty, staff, ASUM, or registered student organizations and use thereof must be confined to the practice fields east of the Field House, the Clover Bowl, Dornblaser Field, and within the University Center, at such times and in such a manner as to preclude interference with the normal operation of the University.

2. Neither any area on the campus nor any University facilities may be used for commercial, personal, or private financial gain. No non-University sales of goods or services or solicitation of funds are permissible on the campus unless done by students, faculty or staff for educational, charitable, or on campus organizational purposes. Normally such activity should be confined to the University Center and should be conducted in a manner consistent with the University Center policies.

3. University facilities may only be made available to faculty, staff, ASUM, or registered student organizations for events related to their duties, University activities, or the stated purposes of the organization. Under exceptional circumstances and at no additional cost to the University, the University facilities may be made available upon approval by the President for community, charitable, or civic purposes.

4. Requests for use of University facilities should be submitted sufficiently in advance to facilitate accommodation of any necessary preparations. Any individuals as well as all of the individual members of any organization requesting use of a University facility thereby assume responsibility for (1) the sponsoring and supervision of the use of the facility for the purpose and by the persons for which the facility was requested; (2) any violation of University regulations or applicable laws or damage to the property or facilities; (3) any rents, costs of special arrangements requested by the user or increment to the University's operating or overhead expenses imposed by use of the facility.

5. In keeping with city ordinances and long-standing campus policy, open burning on the campus is prohibited; nor may any persons sleep in or inhabit or use any facility or area not specifically provided by the University for that purpose.

6. Only University personnel or students may distribute written materials on the campus and such materials must be free of charge, non-commercial and distributed in a manner consistent with orderly conduct of University affairs and with a sincere effort to avoid littering the campus. Distribution through the University mail of materials unrelated to normal University business is prohibited. Posting of signs or notices should be confined to the University Center, kiosks, bulletin boards, and other areas designated for that purpose.

STATEMENT: All people, including students, are directly dependent upon the supply of utilities. The cost of utilizing such utilities as gas and electricity is inescapable in a modern society and may well work an economic hardship upon students operating with limited financial resources. The cost of utilities provided in university dormitories is directly carried by students, and any increase in utility costs will result in increased costs for students to attend the university.

The Montana Power Company has requested the Montana Public Service Commission to authorize increased rates for gas and electricity and to approve a price adjustment clause which may result in future rate increases, all to the financial detriment of students as students.

The Montana Power Company currently has profits on net income of 22 percent. The Montana Power Company currently has an effective return of 10 percent. Most states limit utilities to a 6 percent return.

The Montana Power Company does not now need increased rates and granting a price adjustment clause would work future economic hardships on numbers of peoples who would thusly be deprived any right of protest.

Therefore, the Central Board of the Associated Students of the University of Montana does hereby express its opposition to the Montana Power Company's requested rate increases and its request for a price adjustment clause, and a copy of this resolution shall be forwarded to the Montana Public Service Commission with the request that said commission deny the requests of the Montana Power Company, and the further request that said commission investigate the need and justification to initiate rate reductions for gas and electricity provided by the Montana Power Company.

STUDENT GIFT-PAX  
25 Hempstead Drive  
West Hempstead, New York 11552

Dear Mrs. Gasman:

The University of Montana would like to inform you that we have received the STUDENT GIFT-PAXS and they are being distributed at registration this week.

The STUDENT GIFT-PAXS are being given to each student when he or she has their I.D. cards validated for the upcoming academic year. The lack of space and manpower make it unable for us to have each student sign the receipt cards when he receives his GIFT-PAX and these cards in turn are just being collected by authorized personnel. The women who have signed below are personnel employed by the University of Montana and can guarantee you that each student receives only one GIFT-PAX with the remaining pass to be returned to you.

If you see any problems with this method of distribution, please feel free to contact me immediately. My phone number is (406) 243-2352 or (406) 243-2451.

Sincerely,

John Christensen
