September 27, 1932

1. The first meeting of the faculty for the year 1932-33 was held at 3:00 P. M. on the call of President Clapp, who presided.

2. The following members were present: Allred, Ames, Ammer, Asendorf, Atkinson, Bateman, Bennett, Bischoff, Bunch, Carey, Clapp, Clark, Cogswell, Coleman, Cook, Crowder, Deiss, Elrod, Eminger, Fitzgerald, Freeman, Gleason, Groff, Hawkins, Hewitt, Hitchcock, Hoffman, Housman, Howard, Jesse, Kast, Keeney, Leaphart, Lennes, Line, Little, Lowman, Maclay, Maddock, Mason, Merriam, Merrill, Mirrieles, Mollett, Nickey, Parker, Phillips, Platt, Richards, Riedell, Rowe, Sanford, Scheuch, Sedman, Severy, Shallenberger, Allen Smith, DeLoss Smith, F. O. Smith, George Smith, Snell, Speer, Stone, Suchy, Sughrue, Monica Swearingen, T. G. Swearingen, Teel, Yoelle, Turney-High, Waters, A. H. Weisberg, Flora Weisberg, Wells.

The following members were accounted for: Daughters, Miller.

3. The Committee on Admission and Graduation, Ames, Chairman, reported that all the candidates for degrees and certificates whose names appeared on the lists sent to the faculty on August 19 completed requirements for their respective degrees and certificates with the exception of the following:

I. For the degree of Bachelor of Arts:

<u>Name</u>	<u>Major</u>
McBride, Alexander	Chemistry
Fleming, Helen Margaret	English
Houston, John Waters	English
Morris, Catherine	English

II. For the degree of Bachelor of Arts in Business Administration:

Armstrong, Frances Allene

III. For the degree of Bachelor of Arts in Education:

Christoffersen, Flossie Davies

IV. For the degree of Bachelor of Arts in Journalism:

McLemore, Felicia

V. For the degree of Pharmaceutical Chemist:

Honnald, Thomas Lee

VI. For the University Certificate of Qualification to Teach:

Briggs, Dorothy W.
Christoffersen, Flossie Davies
McBride, Alexander

4. The Enlarged Committee on Admission and Graduation, Jesse, Chairman, reported the following exceptions to faculty rules granted during the preceding spring quarter:

1. Re: Raymond Calkins: Mr. Calkins was granted permission to satisfy the major department requirement for the degree of

Master of Science in Forestry by offering 15 rather than the required 20 credits in forestry. This action was taken in view of Mr. Spaulding's statement that any courses taken in the department of Botany can and should be recognized as major work in forestry, because forestry is applied botany.

2. Re: Chester Jackson. Mr. Jackson was granted permission to satisfy the major department requirement for the degree of Master of Science in Forestry by offering 15 rather than the required 20 credits in forestry. This action was taken in view of Mr. Spaulding's statement that any courses taken in the department of Botany can and should be recognized as major work in forestry, because forestry is applied botany.

3. Re: Victor Vadheim. Mr. Vadheim was granted permission to graduate offering 186 credits in his major department, Business Administration. He was allowed to offer in his major field 3 credits in excess of the number allowed by faculty rules when no excess credits for the degree are offered. This action was taken in view of Dean Line's statement that he believed Mr. Vadheim would be most likely to be successful in accounting; and since he was, therefore, specializing in that field, he particularly needed the second quarter course in auditing, which gave him a total of 68 credits.

4. Re: William E. McConnell. Mr. McConnell was granted permission to satisfy the residence requirements for graduation by earning 11 of the last 45 credits toward the degree by correspondence study and therefore, offering only 34 rather than the required 35 of the last 45 credits in residence. The reasons for this action were that Mr. McConnell was employed full time and found it difficult to attend regular classes and because he was able to complete the work as outlined above at a cost considerably less than if the work had been completed entirely in residence.

5. Re: Felicia McLemore. Miss McLemore was granted permission to satisfy the residence requirements for graduation by earning 13 of the last 45 credits toward the degree by correspondence study, and by offering, therefore, 33 rather than the required 35 of the last 45 credits in residence. This action was taken in view of Miss McLemore's excellent record during the winter quarter, during which she earned 23 credits and 48 grade points.

6. Re: Sister Theresita Bandmann. Sister Theresita was granted permission to satisfy the restricted elective requirement in science or mathematics by offering 10 credits in Botany Fallab earned at the State University and 6 credits in General Inorganic Chemistry earned at Gonzaga University. No credit toward a degree was granted for the chemistry since the year's work in the course was not completed.

7. Re: Agnes Burton Wiggernhorn. Mrs. Wiggernhorn was granted permission to satisfy the foreign language requirement by offering 4 units in high school Latin without taking the placement (achievement) examination. The reason for this action was that Mrs. Wiggernhorn completed her training in Latin in 1909.

8. Re: Dalton Simmons. Mr. Simmons was granted permission to satisfy the major department requirement in mathematics by offering 38 rather than the required 40 credits. The reason for this action was that Mr. Simmons had earned 4 units in mathematics while in high school, including College Algebra and Trigonometry, and his attainment was equal to that normally required of mathematics majors.

9. Re: Mary Agnes Young. Miss Young was granted permission to satisfy the course requirement for graduation by offering 61 rather than the required 65 credits in non-freshman courses earned since her entrance to the second period. Miss Young would have been able to satisfy the course requirement for graduation if she had not been

forced because of ill health to carry a limited schedule during the year 1931-32.

10. Re: Georgia Mae Metlen. Miss Metlen was permitted to receive her degree offering 195 credits on which 194 grade points had been earned. Miss Metlen offered for graduation 9 excess credits in English which were taken to gain a broader knowledge of her major field and not for the purpose of making grade points.

11. Re: John H. Lewis. Mr. Lewis was permitted to receive his degree offering 190 credits and 188½ grade points. The reason for this action was that a grade slip issued to Mr. Lewis by the Registrar's Office showed an incorrect number of grade points because grade points had not been deducted for a grade of "F".

12. Re: Everett E. Logan. Mr. Logan was permitted to receive his degree offering 186 credits and 185 grade points. The reason for this action was that a grade slip issued to Mr. Logan by the Registrar's Office showed an incorrect number of grade points because grade points had not been deducted for a grade of "F".

13. Re: Arce Moser. Miss Moser was granted permission to earn 15 of the last 45 credits toward the degree by correspondence study. This action was taken in view of Miss Moser's excellent record in this institution and because she will have been in residence at least six summer sessions before receiving her degree.

14. Re: Horace Warden. Mr. Warden was granted permission to satisfy the non-freshman course requirement for graduation by offering 60 rather than the required 65 credits. The reason for this action was that Mr. Warden had planned his work allowing for the satisfaction of the rule, but due to a misunderstanding regarding the effect of a removal of an incomplete grade, he considered himself in the second period one quarter before he completed the work of the first period.

The Enlarged Committee on Admission and Graduation reported the following exception to faculty rules granted during the summer quarter:

1. Re: Alice McCracken. Miss McCracken was granted permission to satisfy the foreign language requirement for her degree by offering 3 units in high school Latin without taking the placement examination. The reason for this action was that Miss McCracken completed her training in Latin in 1910.

5. An oral report of the Faculty Affairs Committee showing a balance of \$14.93 was made by Professor Carey. On motion of Rowe, the faculty unanimously voted to continue the annual assessments of \$100 for the committee.

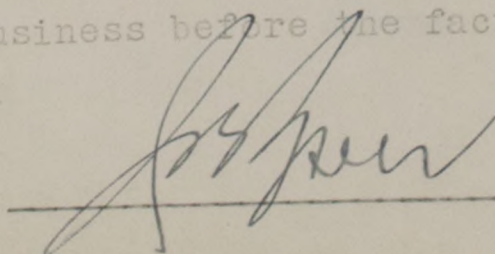

6. The following recommendation from a special subcommittee of the Curriculum Committee was made by Professor Shallenberger:

That the faculty approve a new course entitled "Introduction to Physical Science Fl2", 15 credits, continuous course, no pre-requisites, to satisfy restricted elective requirement of science or mathematics.

The recommendation was unanimously approved.

7. The President announced that election of members of the Budget and Policy Committee and the Service Committee would be held at the next meeting of the faculty.

8. There being no further business before the faculty, the meeting adjourned.

Secretary
