- **Everyone who experiences the Flathead Valley is awed by its pristine waters, larger than life landscapes, and raw wilderness.**

- **For 35 years, we've worked to protect this outdoor treasure.**

- **Ladies and gentlemen – we are making progress.**

- **Today, we have:**

- **a new partnership with Canada;**
- **consensus legislation to preclude future oil and gas/mining, AND.....**
- **the largest leaseholder in the North Fork, Conoco Phillips, voluntarily relinquishing their share of leases covering 169,000 acres in the North Fork – 71% of the leased acres in the watershed.**

● Conoco Phillips should be commended for its stewardship of this very unique, special place.

● I want to recognize Mr. Red Cavaney, Senior VP, and Mr. Jim Ford, VP, at Conoco Phillips and thank them, and Jim Mulva, the CEO of Conoco Phillips who I spoke with about this in March, for their work on this initiative.

- In 1975, I introduced the bill to designate the Flathead as a Wild and Scenic River – it took one year and I began a lifelong effort to protect the North Fork.

- At that time I said:

“A hundred years from now, and perhaps much sooner, those who follow us will survey what we have left behind...let us leave the Flathead as we found it. Let us prove that we care about those who will come after us.”

- **We proved it today.**

- **Together, we will ensure that every Montanan, every American, and every Canadian who follows us will have the opportunity to survey the North Fork and share our feeling of awestruck wonder that such a place still exists.**

- **Thank you.**
