There will be a mimeographed copy of Ken Tolliver's report available next week. Comments about the manuscript during the meeting were: Brown remarked that the manuscript was an excellent job, and the Central Board shouldn't mind waiting until Fall quarter for the publication. Tolliver said the booklet is law as exactly as they could get it. It will hopefully be readable for freshman students. He asked if there would be some student government people who would read and discuss the manuscript with its writers some time. They deleted the section on the Traffic Board because they have a thorough pamphlet they put out themselves. There are two ways for the pamphlet to be published: a) by the student government through the University press, at which chance there would be no charge; b) by Tolliver and he would probably charge a price.
