Charles Wad, Foreign student advisor requested $2,000 for a Foreign Student Hospitality project. The committee suggested other means of getting the money such as through student loans, therefore the request was denied. If the other possibilities do not work, the request may be considered. Firman Brown requested $2700 to send students back to a Yale Drama Festival. The committee decided that not enough students would benefit from the trip, therefore they denied the request. Forestry Club requested $15 to send a forestry member to a range society meeting in Seattle. The request was denied as it was felt that the additional money could be gotten from other sources. A member of Forestry Club spoke to Central Board saying that Montana has done extremely well in district meets and that the publicity would in all probability bring more students to our School of Forestry. KITZENBERG MOVED $50 BE ALLOCATED FOR THE PURPOSE OF SENDING ONE DELEGATE TO THE MEETING. SECONDED BY NOREEN. DYE MOVED A SUBSTITUTE MOTION TO ALLOCATE $15. SECONDED BY HAARR. BEHAN YIELDED THE CHAIR. Behan said that Central Board would be setting a dangerous precedent by allocating money to a particular group or school.
Benan said he felt that by not starting this practice we would be doing ourselves a favor in the long run. Noreen said we should be proud of the school and the balance of the funds needed for the trip should be allocated. Kitzenberg said a president need not necessarily be set as all of the money did not need to be spent for the trip. Tate said that $15 didn't seem too much to allocate. Teel introduced Mr. Hal Fullerton who explained the current financial status of the ASUM. Mr. Fullerton explained that $14 of activities fees goes into a holding fund. One half of this goes to Athletics and the other half goes into Associated Student on Campus Reserve Fund from which all allocations are made. Mr. Fullerton explained that one of the reasons the budget is tighter this quarter is that registration was down about 400 students from the projected number. Moore asked why the investment fund was so high and for so long a period. Mr. Fullerton stated that he has no policy control over this, that the fund has built up over the years and it would take action by ASUM to change the policy.
