FOR IMMEDIATE RELEASE

Applications for admission to Montana State University fall quarter are up 15 per cent from the same time last year, according to Registrar Leo Smith.

The 1960 fall-quarter enrollment broke all previous records, and the present increase in advance applications over those of a year ago would seem to indicate the University is headed for another record registration this fall, he commented.

Figures released today show 1,402 students accepted to date, or 186 more than at this time last summer. Of these, 1,103 are freshmen, compared to 937 in August 1960. So far, 299/^{new}students have been accepted for advance standing, compared to 279 a year ago.

Of the 1,103 incoming freshmen accepted, 823 are from Montana. The 299 applicants for advanced standing are about evenly divided between Montana and out-of-state students. Total acceptances include 900 men, giving them a comfortable lead in numbers over the 502 women accepted.

Applications are accepted up to the opening of fall quarter Sept. 22, Smith noted, but he urged prospective students to apply as soon as possible.
