- Helen Formos 46
 B.A., Montana State University, 1940
 Thesis: Theory and Practice in the Drama of William Butler Yeats.
- Joseph L. Keller 55
 B.A., St. John's University, 1937
 Thesis: William Morris's Theories of Art as the Basis of His Socialism.
- Robert Powers Struckman *30
 B.A., Montana State University, 1933
 Thesis: Sun Dance and Other Stories

HISTORY

- Frank J. Busch 52
 B.A., Montana State University, 1942
 Thesis: The Achieving of Philippine Independence.

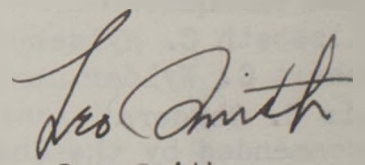

II. For the degree of Master of Science.

PHARMACY

- Gordon Henry Bryan 47
 B.S. in Pharmacy, Montana University, 1940
 Thesis: Chick Embryo Method for the Assay of Cardiotonic Drugs.

*Part of credit on old basis.

9. The following new members of the faculty were introduced:
- Gil Porter, Graduate Manager in Athletics,
 Major Joseph A. Shoemaker, Staff Member in the Department of Military
 Science and Tactics.
10. The quarter out-of-residence plan was discussed by the faculty.
11. Dr. Gordon B. Castle presented the report of the Budget and Policy Committee. This report came as a result of the faculty questionnaire on nine and twelve month contracts. A summary of the results of the questionnaire sent to the faculty on April 28, 1947, was distributed to each member and it was discussed by Dean Davis.
- It was moved by Dr. Browman and seconded by Dr. Lowell that the report of the Budget and Policy Committee be accepted as a recommendation to the administration.
- A substitute motion that the report of the Budget and Policy Committee be mimeographed and distributed to the faculty was made by Dr. Clark, seconded by Dean Ford, and carried.
12. The meeting was adjourned.

 Leo Smith
 Secretary

ls:mf

June 5, 1947

1. A meeting of the faculty was held at 4:00 P.M. on call of President James A. McCain who presided.

Present: Ames, Armsby, Armstrong, Arnold, Atkinson, Bennett, Berg, Bischoff, Blaesser, Briggs, Browman, Brunson, Carleton, Castle, Clapp, W.F. Clark, Clow, Cogswell, Coleman, Crow, Crowder, Davison, Dugan, Ely, Emblen, Ephron, Fenton, Ferguson, Ford, Frankenstein, Freeman, Gilliland, Golden, Hertler, D.M. Hetler, Hoffman, Hook, Jeppesen, Jesse, Kuehlke, Leaphart, Line, Lommasson, Lovless, Martell, Marvin, Mason, Maucker, Merriam, Merrill, Miller, Miltz, Moore, Morris, Noble, Phillips, Platt, Sappenfield, Severy, Shallenberger, Sherman, L. Smith, T. Smith, J.B. Speer, Struckman, M. Swearingen, Tascher, Teel, Thomas, Toelle, Van Duser, Varneck, Wolfard. Present May 27, 1947, Mrs. Ephron.

Accounted for: F. Clark, Fetter, Davis, Harvey, Ramskill, Sorenson.

2. The Minutes of the meeting of May 27 were approved.
3. Announcements.
 - (a) Dean J.W. Maucker, Director of the Summer Session, announced that 664 students have registered in advance and that regular registration for the summer session will be held on Monday, June 16. Among the special features to be held during the summer session, there will be twelve conferences on the campus and a series of lectures on Wednesday evenings. There will also be a Commencement Ceremony at the end of the session.
 - (b) Professor E.A. Atkinson, Chairman of the Commencement Committee, announced that the faculty will sit on the platform during the Commencement Exercises as usual.
 - (c) Professor A.S. Merrill, Director of Veteran's Education made the following requests:
 1. If any veteran is absent five days in succession, he is to be reported to the training officer on a special report.
 2. If veterans are to take athletic trips away from the University, they must report to the veteran's training officer to get authorization in advance.
 3. Report all veterans' absences whether they have been excused or not on the grade cards which are turned in to the Registrar's Office at the end of the quarter. Report absences of all veterans enrolled as regular students and as refreshers..
4. The Secretary of the faculty read the following communication from the Budget and Policy Committee, submitted by Gordon B. Castle, Chairman:

February 1, 1947

Secretary of the Faculty
Campus

Dear Sir:

The problem of blocking out certain sections in some courses for particular schools or departments has been brought to the attention of the Budget and Policy Committee.

This problem has arisen because of the inability of the current staff and physical plant to handle all students desirous of entering certain courses. Due to the complex registration procedure which prevails in some departments and schools, it was thought advisable to block out certain sections in order to insure that all sections would have approximately the same registration.

While the Committee does not believe that it is in a position to make a specific recommendation on this problem; it does believe, however, that it is a situation that should receive some faculty consideration. The consensus of the Committee is that there should be no advanced blocking off of any section for any particular department or school of courses required of all students (English Composition,, but that in courses designed primarily for certain schools or departments advanced blocking off is a practical convenience in registration and is not objectionable as long as there is advanced agreement among the schools and departments involved.

Very truly yours,

Gordon B. Castle,
Chairman
Budget and Policy Committee

GBC:ND

5. Reports of Committees:

- (a) Dr. W.R. Ames as Chairman of the Committee on Admission and Graduation reported that all candidates on List No. 32, accepted at the meeting of the faculty held on May 27, 1947, have completed requirements for their respective degrees and certificates with the following exceptions:

I. For the Degree of Bachelor of Arts with a Major in Law.

Jerome Anderson

II. For the Degree of Bachelor of Arts with a Major in Zoology.

Dolores Lorraine Fellows

III. For the Degree of Bachelor of Arts in Business Administration.

William R. Anderson
Albert LeRoy Solander

IV. For the Degree of Bachelor of Arts in Education and the Secondary State Certificate to Teach.

Andrew Harrison Grubbs

V. For the Degree of Bachelor of Arts in Journalism.

Norma Lee Jellison

- (b) Dean Clark, Chairman of the Graduate Council, reported that all candidates for Master's Degrees on List No. 32 have completed the requirements.
- (c) Dr. R.H. Jesse, Chairman of the Enlarged Committee on Admission and Graduation, submitted the following report of exceptions to faculty rules granted for winter and spring quarters:

WINTER QUARTER 1947

1. (a) Regarding Robert Louis Dow. Mr. Dow requests a waiver of the residence requirement for the following reasons:

He was in residence 9 quarters before entering the navy. He was assigned to a V-12 unit at Carroll College during the war and was forced to take 24 college credits. He returned to the University upon release from service and can graduate at the end of March if released from the ruling on residence. At that time he will have earned in two quarters 24 credits or 11 less than the 35 required. He is eligible for the examination for graduation with honors.

- (b) Regarding Robert Louis Dow. Mr. Dow requests that the high school requirement in U.S. History and Government be satisfied by one year of high school Civics.

2. Regarding Barbara Van Horn. Miss Van Horn requests permission to take 8 additional credits in her major field, making a total of 73 credits in Business Administration and to receive credit toward graduation because the two courses offered at the University, Retail Stores and Retail Store Management, are required at New York University for the course in retail merchandising. She plans to enter New York University in the fall of 1947.
3. Regarding Helen Lee Atkinson. Miss Atkinson wishes to count 75 credits in philosophy and psychology towards graduation. Courses in Psychological Testing and Counseling Laboratory are offered which were not offered during the war.
4. Regarding Beverly-Ann Bradner. Miss Bradner wishes to count 70 credits in psychology and philosophy towards graduation. Courses in Psychological Testing and Clinical Psychology are to be offered which were not offered during the war.

5. Regarding Bernard W. Thomas. Mr. Thomas requests to be allowed to graduate with 33 instead of 35 of the last 45 credits earned in residence. He now holds the degree of Bachelor of Laws and desired to secure also the degree of Bachelor of Arts in Law to qualify for graduate study. He lacks 12 credits in mathematics. It is not now possible for him to take these courses in residence so he would like to take them by correspondence.
6. Regarding William B. Barbour. Mr. Barbour requests permission to satisfy graduation requirements in English composition with two quarters work total 8 credits in lieu of normal requirements (three quarters and 9 credits or two quarters and 10 credits). He completed English 11a in the fall quarter of 1941, at which time the course was given for 3 credits, and Language in Action 11b this quarter, which course has since been put on a five credit basis.
7. Regarding Charles T. Burgess. Mr. Burgess requests a grant of 1/2 credit in mathematics to make up a high school deficiency, since he has had one semester of physics at Western Michigan College of Education.
8. Regarding Frank E. Flaherty. Mr. Flaherty requests permission to waive the residence requirements. Not being aware of the residence requirement he attended summer school in his home town of Great Falls with the idea of reducing living expenses. He has attended MSU winter, spring and fall quarter of 1946. Since he expects to go into the Great Falls Paper Company as a junior partner with his father this winter it will be impossible for him to return to Montana State University to complete the 3 credits required for graduation.
9. Regarding William S. Mather, Jr. Mr. Mather requests that 5 credit hours of Latin 13a be waived for requirement for a Bachelor of Arts degree with a major in Law for the following reasons:
- An excess of credits and grade points are submitted in lieu of this requirement. The 12 military credits accumulated are not being used by applicant. Applicant intends to attend MSU until LL.B degree is received in March, 1948. Request that 18 months practical contact and experience in French and German be applied in lieu of this Latin requirement. This practical experience came as a result of work in combat: also as a member of Military Government during occupation working directly with civilians of those countries.
10. Regarding Norman N. Greene. Mr. Greene requests permission to graduate with a Bachelor of Arts in Political Science without the required 8 credits in one science. He was granted 18 3/4 credits in science for work done under Army auspices in the ASTRP and at Shrivensham American University as follows:
- | | |
|----------------------|--------|
| Chemistry (-11a) | 4 |
| Geography (-10) | 2 |
| Mathematics (-10,13) | 5 |
| Physics (-20a) | 4 |
| Botany (-11a) | 3 3/4 |
| | 18 3/4 |
11. Regarding Douglas S. Robson. Mr. Robson requests that 1/2 credit of literature or philosophy, which he lacks in fulfilling restricted elective requirements, be waived from his required courses. He has taken a three credit course in philosophy and will apply for war service credits to take the place of the remaining 1/2 credit.
12. Regarding Curtis Custer Cook. Mr. Cook requests that the foreign language requirement for a Bachelor of Arts degree be waived. He has had no foreign language since his high school graduation in 1934, at which time he had completed two years of Spanish
13. Regarding Cyril N. Molloy. Mr. Molloy requests that his 2 credit deficiency in Laboratory Science be waived, or that his horticulture course be combined with Botany to fulfill the requirement. He had at the University of Connecticut:
- | | |
|-------------------------|------------------------|
| 1 semester botany | 6 |
| 1 semester zoology | 4 1/2 |
| 1 semester horticulture | 3 |
| | 13 1/2 quarter credits |

14. Regarding Jean Glenn Walbridge. Mrs. Walbridge requests that the foreign language requirement be waived. At the University of California at Los Angeles she majored in Physical Education (1938-1942) where she fulfilled the language requirement. At the University of Washington (spring semester 1946) her previous credits of one year of high school French and ten semester credits of Spanish, taken at the University of California, fulfilled the requirement. In the last portion of her senior year she would have to take either five quarters of French or Intermediate and Advanced Spanish, and it would be exceedingly difficult for her to enter the latter as 8 years have elapsed since she had any language whatsoever.
15. Regarding Michael Papich. Mr. Papich requests to be permitted to offer reading knowledge of Serbo-Croat in lieu of the language requirement. He was permitted to attend Provost Marshal General's School in the United States Army because of his knowledge of the Serbo-Croat Language.
16. (a) Regarding Robert L. White. Mr. White requests to be exempt from Modern Language 15 - Advanced Spanish as it will enable him to graduate in June. It has been 7 years, including 40 months service in the Marine Corps, since his study of Spanish and he doesn't feel that he could handle the course. All his other requirements for graduation are in order and he will be graduating with well over 200 credits. He intends to start Law School as soon as he receives his B.A. and plans on taking 15 hours of work in history, all numbered over 100, spring quarter, so that he will not have enough time to devote to the Spanish course and feels that several more lost months would be added onto the already lost months were he to take this course and postpone his graduation.

(b) Regarding Robert L. White. Mr. White petitions exemption from fulfilling requirement of completing the last 35 credits in residence, as he was assigned to Western Michigan College when in the service and completed three semesters of work there. Prior to that he attended the University for two years and would have continued here had the war not interrupted. By June he will have completed 28 credits of the required final residence total, plus 12 service credits.
17. Regarding Jean Claire Livdahl. Miss Livdahl requests permission to count toward graduation 5 excess credits in applied music, as these credits were taken before the music curriculum was changed and represent music electives within the maximum of 65 credits toward a music major within the Bachelor of Arts Degree.
18. Regarding John J. Lyon. Mr. Lyon requests that the semester of French 51 taken at Los Angeles City College be disregarded and that the 15 credits of French taken at the Northern Montana College be allowed to stand. Unless this petition be granted the 15 credits allowed for a year of French at Northern Montana College will be eliminated and he will have only $7\frac{1}{2}$ credits for his work at Los Angeles remaining. The course enrolled in was a repetition of work taken at Northern Montana College but he did not realize it for there was no transcript of his record and the adviser decided from what he had told him of the course taken at Northern Montana that it would not be repeat work formerly taken.
19. Regarding Mrs. Helen J. Olson. Mrs. Olson requests waiver of the 2 of the last 35 credits required in residence. She earned the last 33 in residence and formerly earned 31 other credits at MSU as well as 4 credits in correspondence. She has met all departmental, entrance and restricted elective requirements. It would be a hardship to earn the 2 credits in residence.
20. Regarding Charles R. Brady. Mr. Brady requests credit for Physical Science 17a. He completed Physical Science 17a before the war and as they no longer teach this course, he requests that 5 credits for said course be granted towards graduation.
21. Regarding Donald H. McKenzie. Mr. McKenzie requests that he be excused from taking the additional 2 hours required credits of mathematics necessary to complete the restricted elective requirement of 12 credits of mathematics or science. He has been out of school since the spring

quarter of 1931, and it has been 22 and 21 years, respectively, since he had high school algebra and geometry. He completed the courses, Survey of College Mathematics, and Statistics, the winter and spring quarters of 1931. Except for "everyday" use of arithmetic, he has no contact with mathematics in the intervening period. With the aid of 14 war service credits he hopes to graduate in June. At present he is behind 7 grade points and were he to make up the mathematics he does not believe it would be possible for him to obtain a passing grade in any mathematics course he would be eligible to take for credit.

22. Regarding Maus S. Volk. Miss Volk petitions (a) to have residence requirements for a degree from Montana State University at the close of summer session 1947, satisfied by 35 credits earned in residence and 33 credits by extension, the latter taken between 1937-1941 and taught by regular instructors in evening classes on the campus. She is a teacher in the Missoula City Schools and has held this position since Sept. 1928. In courses taken at the several universities, she has better than a "B" average. (b) to satisfy restricted elective requirements in science by 10 credits earned in physics at Des Moines University and 6 credits in general science at Drake University. The general science was taken for two semesters and involved both field and laboratory work.

23. Regarding Raymond L. Parker. Mr. Parker requests permission to have the last two quarters of his language requirement waived in order that he may receive his B.A. degree June 1947. In winter quarter 1943 he started fulfilling the language requirement by taking German 11a, however, when returning to school after 3 years in the service in the fall of 1946 he found 11b not given and audited German 11a fall quarter and started 11b winter quarter. At the end of spring 1947 he will have completed German 11a, 11b, and 13a. Will have 180 credits counting service credits exclusive of Physical Education credits. All requirements will be completed with the exception of 2 quarters of German. Completing requirement will reduce benefits of GI bill eligibility and retard completion of education as he desires to obtain MA in Geophysics and it will be necessary to transfer to another school. In working toward MA degree he will take Spanish inasmuch as probable employment after completion of education will be in Spanish-speaking countries.

24. Regarding Roy A. Davidson. Mr. Davidson petitions that the residence requirement which states that 35 of the last 45 credits offered for graduation be earned while in residence be waived and that he be granted a Bachelor of Arts degree in Geology. The following quarter credits of grade "C" or better are offered. 168 Quarter credits earned at the University of Montana, plus 9 unassigned quarter credits granted as war service credits, 12 topographic computing, from the U of Ky. while in the armed services, totaling 189 quarter credits.

Requirement of 40 or more credits in Geology as his major subject has been met. All other requirements have been met. Waiver of attendance requirement requested because 168 credits were earned during 4 years residence at the University, but attendance at this time is impossible. BA degree in Geology is requested at this time because further advancement in Civil Service position with United States Coast & Geodetic Survey is contingent upon a degree and impossible without it.

25. Regarding Russell C. Gates: Mr. Gates requests to count 5 credits in Oceanography Survey towards satisfaction of restricted elective requirement in Science and to have 2 credits in science waived in order to graduate spring quarter of this year, 1947. (Has also had 5 cr. in Botany) Reason: It has been nine years since Mr. Gates had his work at the University of Washington. (4 years on job in Alaska and three years from 1943-1946 in U.S. Navy) It will be financially impossible for Mr. Gates to continue school and it is now impossible for him to pay back bills for hospital, etc., and live on GI allowance without working in the afternoons. (Mr. Gates works as a meat cutter in the afternoon and sometimes goes out railroading week-ends).

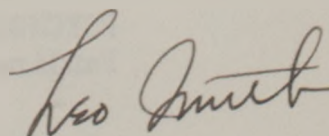

26. Regarding Dolores Fellows. Miss Fellows petitions to substitute 2 years (21 credits) of Norwegian for her language requirement. She entered as a transfer student with two years of Norwegian and expects to graduate from Montana State University in Zoology, Spring 1947, and her remaining time is filled with required courses in Zoology.

27. Regarding James W. Holley. Mr. Holley requests a waiver on two of the twelve credit mathematics or laboratory science requirement for a degree in Business Administration. A veteran whose education was interrupted for 3 years, he desires to finish his education as soon as possible and in order to graduate in June 1947 he must carry 20 hours spring quarter. He has had several technical courses (radio) in the army and believes they would take the place of the 2 hours in mathematics or laboratory science.
28. Regarding Mrs. Roberta Myrick Orwig. Mrs. Orwig wishes to be allowed to receive her degree from the University by completing the last 7 credits at the University of Washington. Her husband, a veteran, is continuing his law course at Washington and they have made their home in Seattle, which would not make it practicable for her to complete her work at the University of Montana. She has fulfilled all the requirements in the Home Economics field, but does need 7 elective credits to be able to enter her application for graduation. Although the work could be completed through correspondence, she believes the attendance of classes would be more advantageous.
29. Regarding Richard William Swanson. Mr. Swanson requests permission to waive one-half ($\frac{1}{2}$) credit of social science. He has met all requirements for graduation and will complete those requirements by the end of the spring quarter by taking 17 credits per quarter in Business Administration. Thus it would not be possible for him to make up one-half ($\frac{1}{2}$) credit in social science before the time of graduation. Mr. Swanson served four years in the Marine Corps.
30. Regarding Aileen Hogan Roberts. Mrs. Roberts wishes to count 1 quarter (5 credits) of social science toward her restricted elective requirements so that she may graduate in June 1947. A summary of restricted electives received October 29, 1945 stated that she lacked three (3) credits of Social Science to complete the requirement in that field. In order to complete the requirement she took United States History (4 credits) in the spring quarter 1946. However, this quarter she received notice that she was 4 credits short in Social Science. Further investigation showed that the general course, Introduction to Social Science, did not count toward fulfilling the restricted elective requirement unless she completed three quarters. She had completed one quarter (5 credits) in the Autumn Quarter 1943, and wishes to count these 5 credits of Social Science toward the requirement. As a senior her schedule has been made up for the remainder of the school year and she could not take any more Social Science.
31. Regarding Robert M. Oswald. Mr. Oswald petitions to count 12 hours of Spanish taken at the University and an intermediate Spanish course taken under V-12 program at Kalamazoo, Michigan, count toward satisfaction of the language requirement. When registering for the Spanish course at Kalamazoo he was informed that this course would be the same as Modern Language 15, and would fulfill the Spanish requirements. He served $3\frac{1}{2}$ years in the Marine Corps and hopes to graduate at the end of Summer Quarter to take a job in the fall.
32. Regarding Curtis C. Cook: Mr. Cook requests that the "n" be removed from the credit in Business Administration 22a-Cn. He was inducted into the army so did not take the second quarter. The registrar told him at that time that this could be done.

SPRING QUARTER 1947

1. Re Arthur C. Jacobson: Requests for removal of "n" from Chem. 13ab in order to receive 10 credits for Chem. 13ab and to be allowed to use these 10 credits plus a major portion of Chem. 13c to satisfy the science requirement for graduation. Jacobson was called into the army April 30, 1945 and dropped all subjects except chemistry in order to try and complete it, but did not get all of the work finished. Now majoring in marketing and salesmanship. (See exhibits attached to petition as evidence that more than half of Chem. 13c was completed.)

2. Re Charles Jacobson: Requests for removal of "n" from Chem. 13ab in order to receive the 10 credits. Enrolled in Chem. 13ab as pre-induction course, 1942-43. Now wishes to study law. Enrollment in Chem. 13c would make it impossible for petitioner to take other desired courses before the end of sophomore year. If not allowed the 10 credits, will need to take another quarter to achieve junior standing to enter law school.
 3. Re James W. Hall: Requests to be allowed to present 28 instead of 35 of the last 45 credits in residence for B.A. in history. Attended MSU before being called to active duty in Navy V-12. Other requirements will be completed by June 1947. Wishes to have degree before entering law school summer quarter.
 4. Re Howard Leroy Fogelson: Requests permission to apply 12 war service credits and 10 credits in Business Administration to be taken by correspondence to satisfy requirements for B.A. in Business Administration, and to be granted partial waiver of residence requirement. Now has 168 credits and 185 grade points earned at MSU. Education was interrupted as follows: 1927-1939 Farming; 1939-1943 Working for U.S. Department of Agriculture; 1943-Oct. 1946 Army Engineers. Now with U.S. Dept. Agric., Bozeman.
 5. Re Lois Virginia Benson: Requests permission to be allowed 70 credits in major field, Econ.-Soc. Fifteen credits of in-residence training spring quarter at Warm Springs will bring total credits in major to 70. Wishes to take advantage of this program.
 6. Re John R. Wedum: Requests permission to be allowed to present 30 instead of 35 of the last 45 credits in residence. Interrupted education due to service in the army.
 7. Regarding William H. Wade. Mr. Wade requests that 14 War Service Credits previously granted be applied to satisfy the residence requirement, or that he present in residence only 27 of the last 45 credits needed in residence. Mr. Wade has completed approximately 168 credits at Montana State University and has been granted permission to finish his degree by correspondence. Dr. Ely has waived senior examination.
 8. Regarding Ruth Ann Sackett. Miss Sackett requests to be allowed to graduate with 39, instead of 40 credits in Bacteriology. She was unable to take Bacteriology 122 as she previously planned since it was not offered Winter Quarter.
 9. Regarding Lyle Kincaid Miller. Mr. Miller requests permission to present 51 credits in Business Administration instead of 53. He states that due to conflicts he is able only to complete 51 credits in Business Administration. He expects to graduate at the end of the summer session, 1947.
 10. Regarding Lois Patricia Nelson. The registrar requests waiver of the rule making it necessary to cancel credit for a course duplicated. Due to a duplication of course not being noted in registrar's office, Miss Nelson was notified that she was eligible to graduate with honors. The honors examinations were passed with a "B". The duplication was noted on a final check of the record which made Miss Nelson two grade points short of honors. The waiver on cancellation for duplication gives Miss Nelson the required average.
- (d) Dr. Andrew Noble, Chairman of the Committee on Student Preparation in Mathematics, submitted a progress report of the work of that Committee.
- (e) Dr. Donald J. Emblen, Chairman of the Faculty Club, submitted a progress report. He announced that a questionnaire will be sent out to the faculty to get ideas from the members concerning the Faculty Club.
- (f) Dr. Gordon B. Castle, Chairman of the Budget and Policy Committee, submitted the End-of-Quarter Report. He announced that the Annual Report of the Committee will be distributed to the faculty within a week or ten days.
6. President McCain extended to the faculty best wishes for the summer and expressed his personal gratitude for the fine cooperation extended to him by the members of the faculty.
7. The meeting was adjourned.

Leo Smith
Secretary
