August 13, 1947

1. A meeting of the faculty was held at 4:10 P.M. on call of President James A. McCain. Dean J.W. Maucker presided.

Present: Ames, Atkinson, Arnold, Berg, Buck, Bue, Carleton, W.P. Clark, Davison, Ford, Haines, Haskins, Haynes, Lommasson, Merrill, Maucker, Platt, Shallenberger, Shoemaker, G.H. Smith, Leo Smith, T.H. Smith, Sorenson, Struckman, Suchy, Teel, Thomas, Van Duser, Webb, Whitney, Wilson, Wolfard.

Accounted for: Hoffman, Miltz.

2. The candidates for degrees and certificates (List No. 33) August 22, 1947, were submitted to the faculty by Dr. W.R. Ames, Chairman of the Committee on Admission and Graduation, subject to the provisions that all requirements for the respective degrees and certificates be completed in accordance with the faculty rules. The candidates were unanimously approved by the faculty.

CANDIDATES FOR DEGREES AND CERTIFICATES

List No. 33

at close of Summer Quarter, August 22, 1947

submitted to Faculty, August 13, 1947

subject to provision that all requirements for the respective degrees and certificates be completed in accordance with faculty rules.

RECOMMENDED BY COMMITTEE ON ADMISSION AND GRADUATION, AMES CHAIRMAN

Recommended for graduation with honors since they were certified by the Registrar as having a "B" average at the beginning of the last quarter of residence and were recommended by the chairman of the major departments.

3. The candidates for Master's Degrees were submitted to the faculty by the Committee on Graduate Study, Dr. W.P. Clakr, Chairman. The candidates were unanimously approved by the faculty. (See list above.)
4. Announcements.
 - (a) Dean Maucker announced that final grades are due in the registrar's office before the faculty members leave the campus. Classes are scheduled to run through Friday, August 22, 1947. Examinations are ordinarily held during the last sessions.
 - (b) Dr. Merrill reported on probable registration for the fall quarter and stated that a breakdown of acceptances would be mailed to the department chairmen the week of August 18.
 - (c) Mr. Atkinson announced that the Commencement Exercises would be held Thursday, August 21, at 8 P.M. and that seats would be reserved for the faculty and their families.
5. Dean Maucker asked for comments on whether the summer session should be shortened. Opinions were expressed that for at least the next two years we offer a full summer session because of the veterans who wish to do a full quarter's work during the summer.
6. Dr. Ames, in the absence of Dr. Jesse, Chairman, submitted the report of the Committee on Admission and Graduation Enlarged for Administrative Action on exceptions to faculty rules granted during Summer Quarter, 1947.
 1. Regarding Gretchen Utterbach: Mrs. Utterbach requests permission to be allowed to count 50 credits in correspondence work instead of 45 towards a Bachelor of Arts degree. Considerable difficulty has been encountered in evaluating her credits since a school that she attended in Nebraska burned, including the records. Mr. Utterbach is a mature student, has had 3 quarters and 4 summer sessions at Montana State University. Most of her work is "A" or "B" level.
 2. Regarding Sam A. Roberts: Major Roberts requests a partial waiver of residence requirements. He attended MSU from 1937 to 1941, missing winter quarter of 1940 and lacks 20 credits of the total required for graduation in Business Administration. His request to return to Missoula was disapproved by the Air University of the Army Air Forces since no army field is near. Arrangements have been made with the Registrar of Texas Christian University, near his home air field to take the courses required for completing his degree. Credits would be transferred to MSU. (This plan was suggested by the Civilian Education Officer at the Air University as the only possible scheme for obtaining his degree under prevailing conditions.)
 3. Regarding John R. Lovelace: Mr. Lovelace requests permission to be allowed to present 71 credits in Education for his B.A. in Education instead of the allowed 65. Mr. Lovelace is principal of a junior high school in Wallace, Idaho. He does not teach any subjects. He wishes to take Educational and Vocational Guidance and other education courses that will have a direct application to his work.

4. Regarding Esther M. Anderson: Mrs. Anderson requests that 21 credits in Spanish and 12 credits in German be allowed to complete her language requirements for an A.B. degree. She transferred 14 semester hours of Spanish and 8 semester credits of German from the University of Wisconsin. (These credits in languages satisfied requirements at the University of Wisconsin).
5. Regarding Mr. Neal D. Nelson: Mr. Nelson requests that he be granted a degree in Forestry after this summer and three more quarters of intensive work in Forestry. Mr. Nelson started out to major in Forestry in 1922 at the University of Idaho. He changed his major to Education and received his B.A. from Idaho in 1926. He taught 5 years in high schools. In 1932 he was employed by the Government in blister rust control work and rose to position of P-3 Associate Pathologist, passing that examination. He later transferred to the Forest Service and is now assistant supervisor. He feels that his lack of technical forestry training is a bar to advancement. In the past 15 years he has demonstrated considerable ability as a forester. Dean Davis feels that if the man demonstrates ability to handle the major forestry courses during the next academic year and that if he does considerable directed outside reading, he should be granted the degree. The staff of the school of Forestry is in agreement on this.
6. Regarding Louis Harbrecht Jr.: Mr. Harbrecht requests that his science requirement be satisfied with the following credits.

General Botany	5 credits
Physics	6 credits
Mathematics	7½ credits (7½ instead of 8 in one)

7. Regarding Wesley A. Wendland: Mr. Wendland requests that his social science requirement be satisfied with 7 credits in Economics instead of 8. He took the first quarter of Economics at Bozeman where the course was 3 credits. He took Econ 14b at MSU. (4 cr),
8. Regarding Katharine Brockman: Miss Brockman, an elementary school teacher requests that her science requirement be satisfied by the following credits:

Geology S11a - General Geology	3 cr.	1940
Geology S16 - Geog. & Nat. Resources of Montana	3 cr.	1941
Rocks and Minerals, U. of Oregon	3 cr.	1946
Gen. 1001 - Conservation of Natural and Human Resources in Montana	3 cr.	1947 (Summer)
Botany 11a - General Botany	5 cr.	1947 (Summer)

She wishes to complete her degree this summer. Geology is not offered this summer.

9. Regarding John T. Vance: Mr. Vance requests that his science requirement be satisfied by the following credits.

Geol. 11a - General Geology	5 cr.
Physics 20a (Army, Oregon State)	4 cr.
Chem. 13a (Army, Oregon State)	3 cr.

Mr. Vance wishes to graduate summer 1947 and must complete his language requirements. He returned here spring quarter after a year at George Washington University.

10. Regarding John P. Burg, Jr.: Mr. Burg requests that his English Composition requirement be satisfied by 8½ credits in English Composition taken at Drake University. A transcript issued to Mr. Burg in 1942 shows 6 semester credits in English Composition. The transcript just received shows one semester of English formerly valued at 3 semester credits as 2½ credits. During the past year, Mr. Burg has been employed by the U.S. Bureau of Reclamation as a report writer. His duties included the writing of narrative style reports and news releases.

11. Regarding Bernard Gayle Anderson: Mr. Anderson requests to be allowed to present 20 credits of the last 35 in residence by correspondence work. His work in the Indian Service makes it impossible to get leave long enough to do the work in residence. He has 160 credits at MSU.
12. Regarding Jean C. Walbridge: Mrs. Walbridge requests permission to receive her Bachelor of Arts degree with a shortage of two credits in subjects outside of her major, Physical Education. She will graduate with 198 credits. Shortage is due to excess credits in her major (12). She has taken 10 credits outside of her major in excess of requirements.
13. Regarding Dan Yovetich: Mr. Yovetich requests permission to fulfill his language requirement by taking a placement test in either Serbo-Croat, Bulgarian, or Russian. This would allow Mr. Yovetich to graduate in June, 1948.
14. Regarding Pauline Frederick: Miss Frederick requests permission to satisfy her restricted elective requirement in science with the following courses:
Biological Science 13a and 13b and Mathematics 25
15. Regarding William J. Pattison: Mr. Pattison requests that his restricted elective requirement English 12c be waived. English 12c is not offered this quarter when he wishes to graduate. At registration time last fall, his adviser told him that since he had 9 credits of English on his transfer record that was somewhat comparable to English 12ab and since he had received better than average grades in advanced composition, he thought that the English requirement would be satisfied. (Since Pattison's credentials were not evaluated at registration time, he took his original transcripts with him, including statement that English 12c should be taken.) Mr. Pattison is majoring in Creative Writing in the English Department. He did Public Relations writing in the army and has sold articles to magazines.
16. Regarding Erling Voldal: Mr. Voldal requests the following:
- That 19 credits of Norse (U. of Minnesota and Concordia), 9 credits of French (U.N. Dakota), and one high school unit each in Latin, German and Norse, be allowed to satisfy his language requirement.
 - That 40 credits in residence and $5\frac{1}{2}$ credits by correspondence satisfy his residence requirement.

Mr. Voldal has attended MSU four summers (including 1947). 1930 summer session was nine weeks. He has found it impossible to attend more than six weeks other summers because of duties as a school administrator. He will have a total of 234 credits and wishes to return next summer to start on a Master's degree.

17. Regarding Jack Sweeney: Mr. Sweeney requests that the following courses be allowed to satisfy his science requirement:

Radio Electronics	5 cr.	B
Radio Rectifying Systems	5 cr.	C
Circuit Analysis	3 cr.	C
Electronic & Magnetic Physics	5 cr.	C

These courses part of science requirement at Utah State College. Mr. Sweeney is a veteran. Would need an additional quarter if this petition not granted.

The meeting was adjourned.

Leo Smith
Secretary
