FEATURES ADDED TO UM'S ONLINE STUDENT/EMPLOYEE DIRECTORY MISSOULA-

One of the most-requested online features has been added to the UM Web site. The new Phone/E-Mail Directory allows people to search for students' e-mail addresses and phone numbers and for employees' e-mail addresses, campus addresses and phone numbers. It also offers the ability to search for staff, faculty members and administrators by department.

The Phone/E-Mail Directory is accessible from a link on the UM home page at <http://www.umt.edu> or by going directly to <http://www.umt.edu/Search/EmailSearch/>.

Previously, only e-mail addresses were available from the online directory. However, e-mail addresses still are limited to those with the umontana.edu alias. Employees who wish their e-mail addresses to be included in the searchable database must activate their umontana.edu alias in Cyberbear. Instructions are available at <http://www.umt.edu/it/cis/support/helpdesk/email/>.

The improved directory also allows first-name and wild-card searches in addition to last-name searches. Instructions and additional information are available by following the directory's "Search Help" link.

The directory was developed by UM's Information Technology Office.
