# MONTANA KAIMIN

STATE UNIVERSITY OF MONTANA, MISSOULA, MONTANA

TUESDAY, JANUARY 10, 1928. VOLUME XXVII. NUMBER 24.

## DORR SKEELS RETURNS FROM BOZEMAN MEET

### REPRESENTS MONTANA AT COUNTY CONCLAVE

### Learns What Types of Windbreaks Farmers of West Need. Nursery to Distribute Half-Million Trees.

Professor Dorr Skeels of the Forestry school has returned from a meeting of the county agents at Bozeman last week-end. The agents work under the extension department at the State College.

Mr. Skeels' purpose in representing the University was to perfect details of trees, their kind, and number desired by the county agents. These trees are grown by the Forestry school nursery.

### Applications Made Through Agents

"All applications of farmers for trees should be made through county agents to the College at Bozeman, although shipments of trees are made from the University to the farmers," says Mr. Skeels.

The Forestry school nursery is preparing to send out one-half million trees this spring to be used as windbreaks and shelter helps for the farmers of Montana. A year from this spring the number of trees sent out will amount to more than a million.

### Species Sent Out.

The species of trees which are sent out are: Box elder, Russian olive, green ash, northwestern poplar, golden willow, caragana, Colorado blue spruce, Black Hills white spruce, cotton pine, jack pine and western cedar. All these species are especially hardy in drought and cold, and are rapid-growing trees. They are sent out when they are from one to three feet in height.

"The windbreaks should be made up of several different species," according to Mr. Skeels. "They should be planted in parallel rows. These rows should be planted wide enough apart to permit of cultivation. The little trees have to be cultivated several times a year, to keep down the weeds and grass that might compete with them, until they are capable of shading the ground."

"The outside rows are generally made up of caragana, which form dense, compact hedge four to twelve feet in height according to the size of the owner in pruning it."

"The confers, such as spruces and firs, are generally planted in the interior rows, where they get a certain degree of protection. It is advisable to delay planting the confers until the hardwoods have been planted so they will receive the additional protection."

### Spruces Best Species.

"The spruces seem to be the best species of wind breaks, because they are a dense, compact wall almost impervious to the wind. The shelter value and wind holds are not only a help in protecting farmers' houses, barns, and stock yards, but are used as a good deal for holding the drifting snow across garden plots and orchards, thus giving increased moisture to the soil during the summer."

### "The county agents report that farmers are very enthusiastic about trees, and expect to be swamped with orders during the coming months. The farmers' wives are particularly pleased with the trees, as they beautify the farms to a considerable extent."

"The farmers are given quite close supervision by the county agents in the planting of the trees, and if the farmer follows the directions of the agent and loses some of his trees he will be given replacements for them."

### FORESTRY SCHOOL SHOWS INCREASE IN ENROLLMENT

According to figures received from an analysis of the Forestry school, there has been an increase of 10 per cent in the enrollment of the school for the winter quarter.

A majority of the students are from Wisconsin, and as the University of Wisconsin has an excellent forestry school, the enrollment speaks well for the high reputation of Montana's Forestry school.

### ART GALLERY TO OPEN

New York City (AP)—Said to be the first gallery for contemporary art in America, the gallery devoted principally to the work of living artists will open in New York City at New York University.

## INTERNATIONAL CLUB GUESTS AT BANQUET

Judge John E. Patterson was toastmaster at a banquet given to the International club by the Men's Brotherhood of the Methodist church last Friday evening. Ira B. Fee, superintendent of Missoula schools, gave the address of welcome.

Various members of the International club addressed the gathering, speaking on problems to be found in their own countries. W. L. Young, head of the department of religion, spoke on "Foreign Students in America."

After the banquet a regular meeting of the organization was held at which R. O. Hoffman, associate professor of foreign languages, talked briefly of his observations in Europe during his trip last summer.

After the meeting Mr. Hoffman was initiated into the International club. The next meeting of the organization will be held at the home of Mr. and Mrs. E. R. Sanford, 626 Eddy avenue, Feb. 3. Mr. Sanford is associate professor of Business Administration.

## BECKWITH TEACHING AT OHIO UNIVERSITY

Radcliffe Beckwith, a former University student, is now a teacher of geology at Ohio State University at Columbus. He left Montana as a Rhodes scholar and went to Oxford. On his return he studied geology at Ohio State and received his master's degree.

Mr. Beckwith was a member of the last Asiatic expedition under Roy Chapman Andrews, which went in search of fossils. The expedition was broken up by internal disturbances in China.

## "Big Lou" Returns; Plays in South-West Game in California

"Big Lou" Vierhus, 1927 Grizzly football captain, returned Sunday from Los Angeles, where he played in the West-South all-star game during the holidays, which the South won, 8-6.

Vierhus played for three-quarters of the game and was given credit in the California papers for a consistent game at tackle. The game was played in three inches of water at the Los Angeles stadium, both teams fumbling frequently because of the slippery ball. The western team was to have been coached by Pop Warner of Stanford but he was forced to spend his time preparing his players for the Pittsburgh clash.

Vierhus says that despite the fact that both teams were made up of the pick of their respective sections and brilliant players were numerous, the game was played raggedly because of the limited time for practice.

While in Los Angeles, "Big Lou" was the guest of Lee Merrill, a student in the Forestry school here, who returned last week. Vierhus stopped on the way home to visit his mother in Portland. Lou was presented with a seventy-five dollar wrist-watch in appreciation of his playing.

## CORBIN HALL GIRLS ENTERTAIN AT TEA

Corbin hall girls were hostesses Sunday afternoon at the first of a series of teas which are to be given by members of the residence halls.

Mrs. W. K. Turner and Helen Goff were in charge of the affair. Next Sunday, South hall residents will entertain at Corbin hall. Norvald Ulvestad, Rodney Zachary and Margaret Maddock will be in charge. Teas are to be given each Sunday throughout the year.

Guests at the teas will include residents of the different dormitories, faculty members and other guests invited by the group giving the tea. The faculty guests and town guests Sunday afternoon included Miss Lucia Mirrieles, Mr. and Mrs. J. E. Miller, Dean A. L. Stone, Mrs. Mildred Stone, Miss Alberta Stone, Mrs. Theodore Brantley, Miss Anne Platt, Mrs. D. D. Smith and Mrs. Edna Palmer.

Mrs. Turner was assisted in receiving by ten Corbin hall girls. Refreshments of sandwiches and tea or cocoa were served in the banquet room. Miss Mirrieles, Miss Stone, Mrs. Brantley and Mrs. Miller assisted at the tea tables. About 220 guests called.

## Girls' Basketball.

Open hour for girls' basketball will be held in the women's gymnasium on Mondays, Wednesdays and Fridays from 5 to 6 o'clock in the afternoon.

## Men of Senior Class to Choose Novel Garb

Men members of the senior class met yesterday afternoon at 4 o'clock in Main hall, to discuss the wearing of a distinctive garb during the rest of the school year.

Novelty hats, sweaters, and other apparel were suggested but nothing definite was decided. Milton Brown, class president, appointed Dan Harrington and Dave MacLay as a committee to investigate possible new insignia for this year's outgoing class. The committee will report its findings next Monday, when the class will meet again at 4 o'clock in Main hall.

It is hoped that several Missoula merchants will appear before next Monday's meeting and suggest their ideas of what the class should wear to identify itself, Brown says.

## MATH CLUB TO MEET

The Mathematics club will meet Wednesday evening in the Physics laboratory. William Trippet will give a talk on "Chinese and Japanese Contributions to Mathematics."

## FORESTERS PLAN ANNUAL DANCE

Ball to Be Given Feb. 17 in Men's Gym. Vierhus in Charge

Forestry club members held their regular meeting Wednesday evening in the library of the Forestry school. Plans were completed for the annual Foresters' ball, which will take place Feb. 17, in the men's gymnasium.

Those appointed on the different committees were: Manager, Vierhus; assistant manager, Dix; programs and tickets, Fritz and Merrill; orchestra, Averill; food, Ernst, Park and Markham; decorations, Yochelson, Rouse and Matthews; finances, Emerson, Dahl and Ramskill (adviser); Ranger's Dream, Davis and Flock; boughs, Nelson and Luer; barroom, Connell and Jackson.

Arrangements were also made for the coming meeting with the journalists. This joint meeting will take place soon.

Entertainment for the meeting consisted of musical numbers by a trio composed of Luer, Staat and Pierson. Luer played the saw, Staat the piano and Pierson sang. Nelson Fritz told jokes.

## FRANK FRANCIS INJURED

Frank Francis was seriously cut about the hand and arm, by flying pieces of glass and metal, yesterday afternoon when a vessel in which he was heating chemicals exploded in the Chemistry laboratory.

Francis has been in charge of the Chemistry storeroom for the past four years.

## LAST GROUP PICTURES TO BE TAKEN TONIGHT

Group pictures of the following will be taken tonight for the 1928 Sentinel. This is the last time groups can be taken.

Newman Club	7:20
Debate Union	7:30
Junior Garb Committee	7:40
Senior Men's Garb Committee	7:50
Senior Quads Committee	7:50
Fresh Painting Committee	8:00
Yell Squad	8:30
Sigma Alpha Iota	8:40
Home Economics	8:50
Band	9:00

## HOME EC AUTHORITY VISITS UNIVERSITY

Miss Gudren Carlson, director of home economics of the Institute of American Packers, visited the University campus Friday. Miss Carlson lives in Chicago. She spoke to the Home Economics majors on the possibility of positions for the girls who follow this line of work, and also told them of her experiments with meat.

## Press Association to Meet

The fifth annual meeting of the Rocky Mountain Intercollegiate Press association will be held at the Colorado Agricultural college Feb. 3 and 4, according to a communication received here from the secretary of the organization.

The letter pronounces last year's convention, held at Greeley, Colo., a "howling success," and urges the Kaimin to send one or more representatives for the coming convention. The Kaimin is not a member of the association.

## CAST CHOSEN BY ANGUS FOR ONE ACT PLAY

### KESTER AND GILLETTE TO DIRECT PLAYERS

Masquers' Major Production for Winter Quarter Has Not Been Selected Due to Casting Difficulties.

Casting for "The Dear Departed," a one-act farce to be given by the Montana Masquers Feb. 1, has been completed, according to Prof. William Angus, director of the Little theater.

The parts assigned are as follows: Mrs. Slater ..... Frances Elge Mrs. Jordan, her sister.....

Dorothy Norton Henry Slater ..... William Orlan Ben Jordan ..... Ronald Miller Abel Merryweather ..... Dean Gillespie

### Kester and Gillette Directors

Billie Kester and Arnold Gillette will direct the play, under the supervision of Professor Angus. Another one-act play which has not yet been selected will also be presented during the afternoon and evening of Feb. 1. Invitations to the matinee will be given out, but there will be a small admission charge for the evening performance.

"The Dear Departed" was written by Stanley Houghton. It is a farce which involves a quarrel between two middle-class families, caused by a difference of opinion between two sisters. The sisters have avoided each other for several years and are brought together after their father's death only to disagree again over the settlement of the estate.

### Stanley Houghton Author

The author of the play, Stanley Houghton, was a young Englishman who had given promise of literary merit and had written a number of plays, essays and criticisms by the time of his death at the age of 32 in 1913. His best-known play is "Hindle Wakes," one of the earliest of the sex-problem plays of his generation. "The Dear Departed" is included in a number of one-act plays he wrote for the Little theater of Manchester, England.

The Masquers' major production for the quarter, which is to be presented here Feb. 22, 24 and 25, has not yet been chosen because of casting difficulties, according to Professor Angus.

## Carnival Bolsters Funds for Debate

"Proceeds from the 'Night in Monte Carlo' carnival were almost \$200, and the affair was a complete success," said Sid McCarthy, debate manager, speaking of the carnival held Saturday evening.

Part of the receipts will be used to defray expenses, and a share will be given to Delta Psi Kappa, women's physical education fraternity, whose members acted as co-producers. The remainder of the fund will go into the treasury of the Debate league and will be used to send the debating team on trips to other colleges.

The outstanding feature of the carnival was the announcement that Marie Neely was the winner of the Beauty Queen contest. Rhea Traver and Marian Hall placed second and third in the contest, which was characterized by Mr. McCarthy as a close race between the three highest candidates. "Queen Marie" Neely received a scarf and necklace donated by Barney's and the B. & H. Jewelry.

Dancing formed a major part of the entertainment. "The Hottentots" lived up to the first part of their name, and the space allotted to dancing was filled with couples most of the time. Showdances also were a source of amusement. Some of the campus blackface artists donated their services for the minstrel show, and numerous co-eds consulted "Alexander the Great" for predictions of their future.

The Casino was another attraction. Many exponents of the science of manipulation of the pasteboards tried their luck at cards, but it is thought that the management outwitted every campus gambler. Few students who essayed to go through the "Crazy House" were able to accomplish the feat with nonchalance.

Facsimiles of certain members of the faculty were ruined in short order by accurate throwing of students, who used the nigger baby both as a means of revenge. Cartoons of the faculty, drawn by Arnold Gillette, were used as targets.

## Selects Committee for Scribes' Fest

Every year the students of the School of Journalism journey to Bonner, and at a festive banquet held in honor of Dean Stone celebrate the triumphs of the past year. This year the banquet, held under the auspices of the Press club, the oldest organization on the campus, will be held the evening of Jan. 20.

Under the direction of Curtis Brittenham, president of the club, a committee consisting of Frank Wilson, Dutch Corby, Geraldine Wilson, Elizabeth Maury, and Florence Montgomery are in charge of tentative plans for what they promise is going to be a glorious celebration.

Following the custom laid down at previous banquet, "The Incinerator" will be one of the major amusements of the evening. This razz sheet is noted for some of its marvelous untruths, according to former students who have charge of its publication.

The committee in charge is issuing invitations this week to various prominent men connected with the newspaper field. Tickets will also be on sale soon.

## RIEDEL TALKS ON ART EXHIBIT

Explains Style, Design and Relation to Phase of Life, of Pictures

Prof. Clifford H. Reidell, in his discussion before University students and Missoula people yesterday afternoon, regarding the \$25,000 collection of oil paintings now on exhibition in the Art department in Main hall, gave several criticisms of the various pictures as to style, design and their relation to different phases of life. Professor Reidell will give other critical talks on the exhibit this afternoon and tomorrow afternoon at 4 o'clock. Captain Triechler of Fort Missoula, whose paintings were exhibited during the early part of the Fall quarter in the Art department, will talk Thursday afternoon and President Clapp will talk Friday afternoon.

### Work of 24 Artists.

This collection contains work of 24 artists of national and international fame, which is being sent through the country by the American Federation of Arts. The paintings were selected by MacLure from those found in the MacBeth Art galleries in New York City. Nine of the pictures are valued at \$16,000. One picture alone is valued at \$2,000. Professor Reidell, chairman of the Fine Arts department, stated that this is the finest art exhibit that has been on display at the University in three years.

Tickets to the exhibit are being sold by all art students for 25 cents each and one ticket is good for all the lectures. The display will be open through Sunday.

## CULVER TO ADDRESS STUDENT FELLOWSHIP

Dr. Raymond B. Culver, regional secretary of the student Y.M.C.A., will be on the campus Thursday and will address a meeting of the Student Fellowship that evening. Dr. Culver is returning to his home in Portland, Ore., after attending the Student Volunteer convention at Detroit. Though Dr. Culver's home is in Portland, he is traveling constantly throughout the Northwest in the interests of the student movement.

## ARNOLDSON RECEIVES CARD FROM SCHELL

Mrs. Louise Arnoldson, assistant professor of French, has received a card from Prof. Frank Louis Schell, who spoke here in 1922, expressing his pleasant memories of his visit in Missoula.

Prof. Schell gave a talk on international relations before members of the University club. While he was in Missoula he also addressed the members of the French department.

For the last five years Prof. Schell has been the American representative of the Champion publishing house in Paris. At present he is in charge of publications of the League of Nations at Geneva.

### Alpha Phi House Reopened.

Members of the Alpha Phi fraternity have reopened their chapter house at 404 Keith avenue. It has been closed since the beginning of the quarter because of a broken boiler. The girls moved back into the house Saturday noon.

## KUOM TO BROADCAST THROUGHOUT JANUARY

According to Professor Edward Little, who is in charge of the University radio station, KUOM will be allowed to broadcast for another month. Although all radio licenses were to have expired at the first of the year no action was taken by the national board of directors, so that the stations will be able to broadcast until Feb. 1, at which time they will have to apply for their 1928 licenses.

Thursday's program includes: "Rain Ho! Mr. Piper" (Curran), by Miss Elizabeth Silver, soprano; English reading, Fred Stewart, senior in English; "A Brown Bird Singing" (Haydn-Wood), Miss Silver; "Evolution and Heredity," talk No. 1; Science Service; Weather Chat; Primer for Town Farmers; Farms News Digest; Mirrors in the Home; Color Talk, and Business.

### WOMEN MUST SIGN UP

All freshman women who have not taken their physical examinations must sign up at once on the bulletin board in the Women's gymnasium.

## HARKINS WINS FAME FOR ATOMIC WORK

Dr. William D. Harkins, first department chairman of Chemistry at Montana, has merited distinction by being the first man to separate an element into its constituent atoms. A picture of Dr. Harkins with his apparatus appeared in the Chicago Tribune of January 1. He is now located at the University of Chicago. This information was contained in a letter to the Kaimin from Mand Burns Hoefer, '06.

## Plans Complete for Pharmacists' Dance Next Friday Night

Plans are complete for the annual formal dance of the Pharmacy club which will be held at the Winter Garden, Friday night, Claude Brittel, chairman of the committee, announced yesterday. Sheridan's band will furnish the music.

Through the courtesy of the Missoula Drug company, special favors will be given to the women attending the dance.

Tickets are now on sale by students of the Pharmacy club.

## EVERY OREGON ATHLETE NAVIGATES GRADE CURVE WITH UNUSUAL SUCCESS

University of Oregon, Eugene, Ore. (Special)—Every athlete out for basketball has his grades last term and is eligible for the 1928 season, Earl M. Pallett, registrar, has announced. Howard Eberhart of Eugene, varsity center, was on the honor roll. Ray Edwards of Milton who alternates at center with Eberhart, missed the honor roll by a fraction of a point. Incidentally, Eberhart and Edwards are the only members of the 1926 team that played California for the conference championship at Oakland, who are on the 1928 quintet.

## W. F. WOOD WEDS HARRIET GRAHAM

Harriet Graham instructor in the Physical Education department, was married to Willis F. Wood on Dec. 28 at her home in Grand Rapids, Mich. Mrs. Wood will continue teaching at the University, and she and Mr. Wood are making their home in Missoula.

## MRS. JESSE WILL TALK BEFORE HOME EC CLUB

Mrs. R. H. Jesse will speak at the Home Economics club meeting Wednesday evening at 7:30 o'clock in the clothing laboratory of the Natural Science building. The subject of Mrs. Jesse's talk will be "Budgeting the Housewife's Time," and will include something of the schedule on which she manages her home. Refreshments will be served.

## BOTANY PROFESSOR TO ASSIST MAGAZINE

Prof. J. W. Severy of the botany department, has agreed to act as a collaborator in the publication of biological abstracts for the Biological Abstracts Journal.

Prof. Severy is abstracting some of the botanical publications in English and translating others from the French and German. The journal plans to treat about five thousand publications.

## HI JINX GANG SETS DATE OF RAZZ SESSION

### LEADING LADY NOT YET CHOSEN

Cast of Men to Be Selected This Week-end; Committee Warns Co-eds With Fasts to Leave Town.

Figures shrouded in the shadows of darkness met and consulted with a special Kaimin reporter and with surroundings similar to those used by Lon Chaney in his latest production, "London After Midnight," divulged the secret information that the date Jan. 28 has been officially set for the 1928 razz session. The Wilma theater has been obtained for the revival of the old Hi-Jinx tradition, the committee stated.

Members of the secretive committee seemed especially desirous of announcing that a caste of 60 male individuals will be chosen within the coming week to carry out a plot which has no conclusion until the final curtain drops on a grand climax which has in no way been discriminating against the fairer sex.

"Death to the Traitor." A whistling co-ed caused the committee to draw deeper into the shadows and although the reporter accompanied them he did so with reluctance, as the band's open motto is "Death to the Traitor."

When communication had been established again with the almost invisible band it was learned by the reporter that the leading lady for the coming production has not been chosen as yet although there have been several burly males considered.

As the committee were about to depart they gave final instructions to be passed on that every co-ed on the campus who has at any past time stepped over the border, playing false with her sisters, told white lies to her friends, or in any way had a guilty conscience, had better leave town before the show is produced as not a bit of choice scandal has been overlooked.

### Mystery Band Withdraws.

When the mysterious individuals had given the reporter final instructions and had sworn him to secrecy they pulled the beaks down on their caps, tucked their collars snug around their throats and vanished into the fog behind the ROTC building. As their figures became dim in a short distance a silvery laugh floated back accompanied with the words, "Remember there will be a dance at the Elite immediately after the one and only show during the evening."

## W. P. CLARK WRITES OF EXPERIENCES AT CHICAGO UNIVERSITY

In a letter received recently from W. P. Clark, professor of foreign languages, now on leave of absence working for a Ph. D. degree in Chicago university, he wrote "Our Montana students compare favorably with these highly selected students in this choice university." He said he had found none who surpass our highest honor students, although there is a more serious atmosphere owing to the larger percentage of graduate students.

Among the ex-Montanans Professor Clark met in Chicago are Arthur Carstens, whom, he states, has a good position in the bureau of labor statistics, and Jack Stone, son of Dean A. L. Stone. Mr. Stone is working on the Chicago News. "It was a joy to see him and his wife, who was Miss Angeline Maris, a graduate of the University of Montana, and their handsome son," said Professor Clark.

Albert Blumenthal, well-known alumnus of Montana, and Claude Stimpson, former instructor of economics of the State university, are also studying at Chicago.

The Clarks find recreational pleasures in the concerts, theaters and churches of Chicago and in the special privileges incident to such a university. Professor Clark expressed special delight in Edna St. Vincent Millay's reading of her own poetry before the poetry club of the university.

### Symphony Rehearsal Wednesday.

Rehearsal of the University Symphony orchestra will take place Wednesday evening at 7:30 in Main hall auditorium. The orchestra is preparing for a concert which will be given this quarter, and will appear at convocation the latter part of this month.

### Legitimate Fun

WE WELCOME to our campus the coming of a permanent celebration of the Carnival, so well put on Saturday night. Started last year and repeated this year with improvements, this added fun-feature should be retained and made constantly better. We agree with Shakespeare or Mother Goose or some big mind that "all work and no play makes Jack a dull boy." Whatever the throne and the power behind the throne admit as legitimate fun should be made the most of and the best of by the students. With Hi-Jinx restored and the Carnival enlarged and fixed here, a good deal of abnormal psychology will be spared the stu-

dents of Montana University whose unrelieved mental tension was beginning to take on a serious phase.

### We Need More "Rah-Rah" Stuff

NOW that everyone has talked and written a great deal about Montana spirit and the lack of it, it's time that there were a few more tangible suggestions for the development of such spirit.

The Kaimin's first suggestion is an organized cheering section. Before this, cheering at the University has been carried on in a more or less spasmodic fashion. It has no doubt been interfered with by fussing and other activities.

Further, there is no doubt that there are enough men and women in the school interested in cheering to make a good rooting section. If necessary, the fussers could be segregated into a section of their own. Everyone could be happy.

Seriously speaking, Yell King Fritz could find plenty of students to yell. It would certainly improve school spirit.

—S. G.

The person who has been singing all summer, "I Wonder How I look When I'm Asleep" will have an opportunity to find out when the 1928 Sentinel comes off the press. Yes, we are referring to flashlight pictures.

What's in a name? Could we say that the University debaters, Lake and Pool, are all wet?

"Blind dates" are now in order for the co-ed who has the pink-eye.

## Maybe 'Tis ??? May be Taint!

### THINGS WE HAVE YET TO SEE

A cat scampering away at the bark of a tree.

A lone prospector digging up the hills with a tooth-pick.

A boxing match trying to ignite.

An architect designing the duplicate of the spinal column.

Water-lilies growing in the bed-springs.

The insect that supplies antennae for radios.

Green elephants and pink lizards.

We asked the little sister to tell us about the new boy-friend. "Gosh," she sighed, "he's big and blond and wonderful—but he's too good-looking to be true."

### COMPARATIVE VALUES

With perfume at \$25 to \$35 an ounce, it is more expensive to smell good than to feel good at \$2 a pint.

### NOTHING COULD BE MORE SIMPLE

Suggested outline for Remus sanity hearing: Question: "Did you choose to be tried by a jury of your peers?" Answer: "Yes." Verdict: "Sane."

—New York Sun.

Dancing school isn't such a bad idea for the collegiate youths who cause huge annual damages on feminine footwear.

### PAGING LON CHANEY

Have you noticed the well-known professor who came back after Christmas holidays with a Vandyke beard, and has since been passed up, unrecognized, by both students and faculty?

### DURING OUR CHILDHOOD CHRISTMAS DECORATIONS WERE REMOVED ON TWELFTH NIGHT

We noticed on this evening of January 9 that the Christmas tree in front of Main hall was all lit up. Could it possibly have been a hang-over?

### UP IN THE CLOUDS

These last few foggy days have been dreams almost come true. Did you ever want to live up in the clouds? Well, here's your chance to live right in a cloud, so make your best of it. And did you ever wish the University would simply disappear from the face of the earth? Maybe not. But cloud-enveloped as we were the other morning, it was impossible to see next door, let alone as far as school. Agreed. It was a wonderful excuse to ignore classes altogether, and to sleep in. Getting back to reality is a less pleasant matter.

Life is not a monotonous thing\*\*\*  
If it were\*\*\*  
People would not be so sad\*\*\*  
And then so gay\*\*\*  
But then there are things that\*\*\*  
Are very queer\*\*\*  
I took in the campus the other day\*\*\*

And I say\*\*\*  
Many students sitting in chairs\*\*\*  
In a big hall\*\*\*  
Some were biting their pencil ends\*\*\*  
Others just stared\*\*\*  
At the walls and looked around\*\*\*  
This struck me queer\*\*\*  
But then it isn't after all\*\*\*  
For there were\*\*\*  
Others who wrote to beat the band\*\*\*

Just as if\*\*\*  
Well—they knew it all\*\*\*  
But then\*\*\*  
What struck me queerest about it is\*\*\*  
Is that I noticed\*\*\*  
Walking around amidst the student crowd\*\*\*

Tall men and women too\*\*\*  
Like the prison guards who strut up and down on stone walls\*\*\*  
Now this is queer\*\*\*  
That in this world of ours\*\*\*  
Man can not trust men\*\*\*  
Even though there are no iron bars.

Necessity is also the mother of cribbing.—(Purdue Exponent.)  
Edith: What are you going out for this year?  
Virginia: I think I'll go out for the fullback.—(Sou'wester.)

A century ago the college student was looked up to; fifty years later he was admired; twenty-five years ago he was respected; today he is tolerated. —(Idaho Argonaut.)

Some of these restaurant men who advertise home cooking must have terrible bringing up.—(Buckteite Akron.)

Rabbi Wise said recently, "There isn't a student in the world where the student body counts for less than in America." That must be why the country is all right.—(The Dartmouth.)

There was a young man named Lew Who thought no one knew what he knew,  
But he talked in his sleep—  
Told his secret so deep—  
Now his buddy goes out with her too. —(Kent Stater.)

### THE PERENNIAL SENIOR SAYS "ONLY THE YOUNG DIE GOOD."

Mrs. Laura Corby and daughter Dutch, were dinner guests at the Kappa Delta house Sunday.

Frances Buttleman was a dinner guest at the Kappa Delta house Sunday.

Marie Kirwin of Deer Lodge was a dinner guest of Kathleen Mulcahy Sunday at the Kappa Alpha Theta house.

Marjory Chapple of Billings, and Ruth Taylor of Kansas City were dinner guests at the Kappa Alpha Theta house Sunday.

Virginia Phillips of Butte, and Thora Phalen of Butte were dinner guests at the Alpha Phi house Monday.

Phi Delta Theta actives and pledges enjoyed a sleigh ride Saturday night, followed by dancing at the Orchard Homes country club. Sheridans orchestra provided music and about 25 couples were present. Professor and Mrs. R. L. Housman and Mr. and Mrs. Paul Brown were chaperones.

Thora Phalen, Martha Winchester, Lucretia Archibald and Gertrude Jacquith were dinner guests at the Kappa Kappa Gamma house Sunday.

Delta Delta Delta pledges entertained the actives at fireside at the chapter house Friday evening.

Professor and Mrs. B. E. Thomas, Mable Smith, Marian Heiskell, Thelma Williams, Helen Maddock and Dorothy Cummings were dinner guests at the Delta Sigma Lambda house Sunday.

William McGrath, Anaconda; "Scout" Luke, Great Falls; and Claud Johnson, Harlowtown, new students this quarter, were dinner guests at the Sigma Phi Epsilon house Sunday.

Mr. and Mrs. Gilbert Porter and Bill Hodges were guests at the Sigma Chi house this week.

P. of. and Mrs. Brasil Fitzgerald and daughter were dinner guests at the Sigma Nu house Sunday.

Alpha Tau Omega members were hosts at a fireside at the chapter house Saturday evening. Prof. and Mrs. G. D. Shallenberger chaperoned the party and about 35 couples were present. Sheridans three-piece orchestra furnished music for dancing.

Charlotte Ralls, Maud Fryer, Elizabeth Frye, Martha Winchester and Muriel Dickson were guests at the Delta Gamma house this week-end.

Dorothy Davis was a dinner guest Sunday and Jean Graham a Friday dinner guest at the Alpha Chi Omega house.

Ethlyn Parsons and Marie Neeley were guests of Lee Merrill and Chad Shaffer at dinner at the Phi Sigma Kappa house Sunday.

Gladys Scully, Ruth Taylor and Marjory Chapple were pledged by Kappa Alpha Theta Sunday.

Mary Rose Murphy and Ruth Lacy were dinner guests of Edwina Deane Sunday.

Delta Gamma announces the pledging of Charlotte Ralls, of Wallace, Idaho.

## On the Campus

Kappa Sigma announces the pledging of William Orr, Dillon.

Janet McKenzie has withdrawn from the University because of eye-trouble. She has returned to Havre.

Ray James, Hamilton, has returned to school this quarter.

Emily Stewart of Helena has left to attend the University of Washington.

Eldred Mulvihill has been ill during the past week with a cold.

Lydia Maury is in the Corbin hall infirmary due to a severe cold.

Mrs. Alberta Rayner has returned from Butte, where she spent the holidays. She is housemother at the Alpha Phi house.

Katherine Morris has moved into the Alpha Phi house.

Elizabeth Peterson, ex'26, left Missoula Friday for Berkeley, Cal., where she will enter upon a post-graduate course in physical education.

Word has been received of the marriage of Isabel Hutchinson of Whitefish, a former University student, to Lloyd R. Christman, of Whitefish. Mrs. Christman is a member of Alpha Chi Omega.

Hildegard Weisberg has returned to Seattle where she will take a post-graduate course. She spent the holidays in Missoula.

Sylvia Murray, a student at the University during the fall quarter, will take a position as teacher in the Lambert high school.

"Flip" Fehlhaber, '27, is visiting with friends on the campus. He has been working in Twin Falls, Idaho, on the Times staff.

Mrs. C. P. Thomas of Dillon spent Sunday afternoon with her son, Douglas, en route to Spokane.

Edith Keating of Great Falls has returned to school after being absent the fall quarter.

Kappa Sigma fraternity announces the pledging of William Orr of Dillon.

Burns Jackson of Moccasin, Robert Clifford of Spokane and Howard Rice, Deer Lodge have returned to the University. They are members of the Kappa Sigma fraternity.

Miles Johns of Conrad and Andy Anderson of Roundup will not return to school this quarter.

Alpha Tau Omega announces the pledging of David Roberts of Hamilton and Richard Gould of Helena. Gould attended the University of Nebraska last year.

Phi Delta Theta announces the pledging of Glen Lockwood, Missoula, and Henry Lonsue, Helena.

Bill McGrath, Carl Johnson, and Robert Lucas were dinner guests at the Sigma Phi Epsilon house last Sunday.

Carl Rippe of Great Falls has returned to the university this quarter after being away for a year. He attended the University of Detroit last year. Rippe is a member of Sigma Phi Epsilon.

John Drumm, R. Worthington, Elizabeth Langham, Jane Friend, Arnold Olsen and Leonard LaRoux were dinner guests at the Alpha Tau Omega house Sunday.

Martha Winchester has withdrawn from school and returned to her home in Butte. She withdrew because of conflicts in her course and will return to school at the beginning of the Spring quarter.

Guests at Sunday dinner at Corbin hall were Dorothy Earl, guest of Sara Earl; Isabelle Healy, guest of Esther Edward; George Tippet, guest of Janet Hobbs; Jack Curry, guest of Elizabeth Frye and John Alley, guest of Margaret Flickinger.

## CALENDAR

### CALENDAR FROM JAN. 10 TO JAN. 14.

Tuesday, Jan. 10—

Exhibits of \$25,000 collection of oil paintings from the American Federation of Art, Room 302, Main hall, from 2 to 5:30 and from 7:30 to 9:30 every day until Monday, Jan. 16. Talks given each day at 4 o'clock. Tuesday and Wednesday, Professor Riedel; Thursday, Captain Treichler; Friday, President Clapp.

Mortar Board meeting, North hall, west parlor, 7:15 p. m.

Phi Sigma meeting, N. S. hall, 7:30 p. m.

Central Board meeting, Main hall, 5 o'clock.

Beginning of \$1 fine for each change of enrollment.

Wednesday, Jan. 11.

Mathematics club meeting, Room 102, Craig hall, 7:30 p. m. Mr. Trippe will talk on "Japanese and Chinese Contributions to Mathematics."

Home Economics club meeting, Home Economics department, 7:30 p. m.

Bear Paw meeting, Room 107, Main hall, 7:15 p. m.

Orchestra rehearsal, Main hall auditorium, 7:30 p. m.

Last day on which candidates for degrees, at the end of the spring quarter, may file application.

Thursday, Jan. 12.

Sigma Alpha Iota meeting, Music house, 7:15 p. m.

WAA meeting, women's gym, 7:15 p. m.

Swimming meet, sophs vs. senior-junior team, men's gym, 5 o'clock.

Radio program, KUOM, 8 p. m.

Miss Silver, soprano; Fred Stewart, English reading; Evolution and Heredity; Science service; Weather chat; Primer for Town Farmers; Farm News digest; Mirrors in the Home; Color talk; Business reports.

Friday, Jan. 13.

Pharmacy ball, Winter Garden.

Saturday, Jan. 14.

Basketball game, Montana vs. Washington State, men's gym.

Emmett Buckley of Helena, has returned to school this quarter after being out for a year. Buckley is a member of Phi Sigma Kappa.

Lydia Maury is confined to the Corbin hall sick room with a cold.

### NEW INDIAN RACE FOUND

Washington, D. C.—(IP)—A race of "long-headed" Indians, who lived as much as two thousand years before Columbus arrived, laid the foundation for the rich Pueblo civilization in the southwest, according to discoveries made by a recent expedition of the Smithsonian archeology department.

The race was not Pueblo, those on the expedition said, because the heads were undeformed, while the Pueblos made a habit of deforming the heads of their children.

### Failed to Figure on Co-eds

Seattle, Wash.—(IP)—When the business manager of "Columns," a University of Washington undergraduate publication, offered a \$5 Ben Wade K. P. pipe to the man who turned in the most subscriptions he failed to figure on the co-eds.

Melanie Peterson took him up, turned in the most subscriptions and claims that the pipe is hers regardless. She is keeping it on display.

## To smoke wisely and well, choose Camels

THERE'S an irresistible reason for choosing this famous cigarette. Not for its popularity alone, but for that superior quality that produces it.

Camel wins its prestige with modern smokers by forthright value. It is rolled of the choicest tobaccos that money can buy, and its blending is the taste and fragrance triumph of tobacco science.

The Camel smoker is tobacco fit. He has the best, with no scrimping or denial of cost. There are no four-wheel brakes on Camel; no brakes at all. It is full speed ahead, straight for quality.

Select Camel for smoking pleasure and you'll join distinguished company. Particular, modern smokers have elected it on the principle of superiority.

"Have a Camel"

R. J. REYNOLDS TOBACCO COMPANY, WINSTON-SALEM, N. C.

## Other Campuses

**Amherst, Mass.—(IP)**—In rather heated editorial, the Amherst student argues that the employing of a campus watchman who also spies on students, is not in accord with the honor system supposedly in force at the college.

**Ames, Iowa.—(IP)**—Although the freshmen living in the new men's dormitory at Iowa State college were given practically a free hand in drafting the dormitory rules under which they would live, the boys voluntarily decided to start their evening study 30 minutes earlier than do Iowa state co-eds, whose rules are prescribed by the college.

**Eugene, Ore.—(IP)**—Word was recently received that two of the University of Oregon around-the-world club members, Avery Thompson, and Benoit McCroskey, were arrested in Nagasaki, Japan, on the charge of photographing a fortified city.

**Seattle, Wash.—(IP)**—Their checks failing to arrive from home on time, two University of Washington students set out to pawn a revolver, they considered this a very safe and easy way to help them over their financial crisis. But it landed them in police court.

As one of the students was presenting the gun for inspection at a shooting gallery, a passing patrolman used a holdup and hailed the youths to court on an open charge. Upon confirmation of their examination, the two suspects were released.

**Montreal, Que.—(IP)**—According to Otto Klineberg, distinguished graduate of McGill university, who recently returned to Montreal after conducting an extensive study of Indian life, the Indian may be a slower worker than the white man, but he does work much more accurately.

**Greenville, S. C.—(IP)**—After being without fraternities since 1898, it just recently allowed by the trustees of the college to have them once more, undergraduates at Furman are up in the air following the action of the South Carolina Baptist convention, which required that the trustees again abolish the frats. One fraternity already had been replaced on the campus, and several were about to be.

**Wellesley, Mass.—(IP)**—Wellesley college freshman found themselves rugging with their classmates instead of combatting the sophomores, when the second-year girls invaded their election early one morning before dawn recently.

The freshmen had met secretly and had elected their president when a band of sophomores climbed the stairs and broke in the door. The candles which provided the illumination went out. Unable to locate the new president and carry her off as planned, the sophomores stood aside and listened gleefully to the rumpus which ensued, as the freshmen, thinking they were being attacked by the upper-classes, fought among themselves in the dark. No severe casualties resulted.

**Moscow, Idaho.—(IP)**—After having had the heaviest football team in the Pacific conference, the University of Idaho expects its basketball five to be the smallest in the association. The biggest man on the squad weighs 100 and is five feet ten inches tall. The others all are in the "runt" class.

**Madison, Wis.—(IP)**—The editors of the Wisconsin Literary magazine were given the privilege of tearing from the binding of each number of the last issue one page, because that page had on it a satire on Sherwood Anderson which the faculty censors believed was an insult to the well-known author.

The story which offended the censors, according to the Daily Cardinal, was an introspective study of the thoughts of the author while buying and eating some fish of common color and unmistakable deadness.

**Princeton, N. J.—(IP)**—The Graduate Council of Princeton, an alumni organization, has pledged itself to raise two million dollars for a fund to be used in raising the salaries of the university faculty.

**Hanover, N. H.—(IP)**—That the club system should be substituted for the national fraternity system at Dartmouth is the belief of the Dartmouth, undergraduate daily, which has been carrying on a campaign for reform in the fraternities on the Dartmouth campus. Says the Dartmouth: "We do not think that membership in a national fraternity is doing anyone any harm, but we do think it is useless and foolish. If the fraternities in this college were to return their national charters, it would make little, or no, actual difference to anyone. There would still be the house for social purposes. There would be a party organized at Carnival for the club. There would be the opportunity for friendship, which, in the end, is all that a fraternity can provide. It is absurd to presume that any organization can guarantee friendship."

**Salt Lake City, Utah.—(IP)**—The undergraduate publications of the

**COLUMBIA RECORD**  
RUTH ETTING  
Sings "The Song is Ended—(But the Melody Lingers On.)"  
No. 1196  
**SMITH'S DRUG STORE**

University of Utah are forbidden by the University Board of Regents to run tobacco advertisements in their columns.

**Portland, Ore.—(IP)**—Alumni of the University of Oregon recently followed the example of Ohio State alumni and gathered to discuss the question of poor athletic records at Oregon. The Daily Emerald, undergraduate publication, censured the graduates for their action.

At a meeting of the presidents of all the fraternities and sororities on the W. S. C. campus it was voted to abolish all favors and corsages for school dances. The total expenditures per person is not to exceed \$10 for the year.

A new plan is being instituted at the University of South Dakota for debates. Instead of having the debaters seated on the platform they will be scattered throughout the audience. The question for debate will be announced from the audience and at the close of the debate the question will not be voted upon.

A new dramatic club is organized at Gonzaga. The first play to be given will be "A Night Off," or a "Page from Balzac."

The student body of the San Bernardino Union college unanimously voted to adopt student government. The power of the school will be in the hands of the Student Court and this body will have full charge of all matters pertaining to the action of the students on the campus.

The women's physical education department at W. S. C. is giving a course in social dancing for men who live off the campus. The cost of the lessons will be \$2.50 for 10 lessons.

The student association of the University of Denver has a tradition known as the celebration of Adam and Eve. The custom originated when one of the University presidents informed the organization that although the ill of mankind began

with apple eating they may also be cured by the same procedure. Each year the association treats itself to apples and calls it Adam and Eve day.

Twenty-one students from the University of Missouri obtained passage to Europe last summer by acting as escort for a shipload of mules.

The home economics department at Colorado Agriculture college is so constructed that cooking may be done at both high and low altitudes. The mechanism of the laboratory is the result of many years of experiments until it is now perfected.

The students at Jamestown college, North Dakota are to have roller-skating in Memorial gymnasium once or twice a week. Music for the occasions will be furnished by students.

A group of Farmerettes at the Utah Agricultural school is sponsoring a car contest and there are no limits as to the kind of car entered or the manner of decoration. The contest will be judged both for originality and applause from the sidelines.

Left to choose between the glory of an "H" in a task that is one of the most cherished in Cambridge, and an "A" in his studies, the football manager of the Harvard team chose his studies. Some of the students laughed at his spirit of disloyalty while others took it as an omen of a victory for scholarship.

The bell in the "Main hall" on the Colorado University campus has rung for the last time. It was removed from the tower and put on display in the men's gymnasium.

The journalists at the University of Nebraska are having a dinner for all the members in the school. This is the first time in the history of the Journalism school that the entire group has had an opportunity to assemble socially.

The oldest fraternity pin in America is the possession of Joseph Brinto of Thornbury, Pa. The pin was pre-

sented by William and Marys college of Virginia in 1776.

The pin was plowed up near Brandywine Creek, Chester county, Pa., the battlefield where General Washington outmaneuvered General Howe and where Marquis de Lafayette was severely wounded. This is now a part of the Grinton estate.

The pin is the old familiar insignia of Phi Beta Kappa. On one side it bears the name "John Graham" with the date of the founding of the fraternity, December 6, 1776.

Investigation at William and Marys brought to light the fact that John Graham was graduated from there and left to join the revolutionary army in 1777. The finding of his pin on the battlefield indicates that he must have died on the battlefield.

—The Volante—U of South Dakota.

"The Polygraph" of Billings Polytechnic is going to run a continued story. Anyone may submit chapters, and each issue will contain the best continuation of the story.

Co-eds at New York university have applied for a smoking room similar to the one granted the Vassar students, according to the campus newspaper.

The Associated Students of the University of Washington will continue to pay a fee for all conference and intersectional games in basketball. The school plans a return of \$3,000 from student fees during the season, which will all go to pay for the new pavilion.

The Conversat is a function at the McGill university which is held for the benefit of the freshmen. This has all the equipment of a dance—programs, partners and passages, but there is no dancing. It is merely a get-together.

Cheer leaders will direct the rooting sections at the Los Angeles Coliseum football games by means of a loud speaker system.

An amplifier will be located at each of the four corners of the rooting

section, enabling the leader to give orders to the rooters through a microphone in his hand, without raising his voice.

A \$300,000 building will be erected on the University of Nebraska campus which will house the Dentistry, English and a few other departments. It will be named Andrews hall after a former chancellor of the university.

## ENGLAND STARTS AIR SPORT

London, England.—(IP)—Oxford and Cambridge universities are said to be planning a new form of inter-collegiate competition. The two universities are making plans to have annual flying contests take place between them. Both schools have their own air squadrons.

## Enjoys Can of Tobacco 16 Years Old

Waxahachie, Texas  
May 13, 1926

Larus & Bro. Co.  
Richmond, Va.  
Gentlemen:

The agent while going through his plunder stored in our baggage room came across a can of your tobacco, and account of his not using a pipe he made me a present of this tobacco.

You will note the revenue stamp and your memo which was inclosed. The tobacco was put up in 1910, sixteen years ago. But it was in good shape, of remarkable flavor, and was greatly enjoyed by me.

I thought you would be interested in knowing how your tobacco held out in these days of fast living.

Yours very truly,  
(signed) Gordon McDonald

**FULL SIZED SECTION  
HUDSON RIVER VEHICULAR TUNNEL  
DIAMETER 29 FT. 6 IN.**

**The Holland Tunnel**

Where do young college men get in a large industrial organization? Have they opportunity to exercise creative talent? Is individual work recognized?

**THE HOLLAND TUNNEL** is one of engineering's greatest triumphs, because—

—it is twice the size of any tunnel ever bored beneath the Hudson River.

—it is over a mile and a half long.

—it is designed for automobiles to use. Because they generate poisonous carbon monoxide gas,

motor cars create an entirely new need for tunnel ventilation. Yet even when the Holland Tunnel is filled to capacity and 2000 motor cars are passing through it in each direction, the air is fresh and pure.

This is a type of engineering undertaking with which young men in an organization of the size of Westinghouse frequently are brought into intimate contact. Opportunities to work on the stupendous, the never-before-undertaken, are not rare here. Hence young men of capacity, of enterprise, of genius, find much to challenge their imaginations and abilities.

A battery of 56 fans driven by Westinghouse motors pump fresh air into, and foul air out of, the Holland Tunnel. Twenty-eight more Westinghouse-motored fans are a reserve. Westinghouse planned the lighting system in the tunnel; also the system of remote control.

**Westinghouse**

# MONTANA GRIZZLIES WALLOP BULLDOG BASKETBALL TEAM

## TWO VICTORIES WON FROM GONZAGA SQUAD

### W.S.C. COUGARS PLAY HERE SATURDAY EVE

Montana's basketball Grizzly returned home Sunday with a double victory over Gonzaga to its credit. Sam Kain was high point man for the trip with 36 points, with Chinske and Overturf breaking into the scoring frequently.

**Show Improved Team Work.**  
In the game Friday night the Grizzlies showed greatly improved team work and were "set" for their shots, scoring a larger percentage of their attempts. In the first half Kain scored eight points to four for Gonzaga, who failed to score a field goal that period.

In the second half the scoring for both sides picked up with Montana making nine field goals to five for Gonzaga. Walterskirchen, Gonzaga's little giant-killer on the gridiron, was the main stay of the defense for the losers, and also sank a couple of marathon heaves during the evening. McGarvel, a former Montana boy, and Kennedy, forward, were other shining lights in the fray.

**Demonstrate Scoring Ability.**  
The second game gave the Grizzlies a chance to show up their ability at running up a score and they came through in a very creditable manner, Kain garnering 20 points himself. At the end of the first half Gonzaga was on the long end of a 16-13 score, but after that it was all Grizzly. The whole Montana team functioned well to outspeed and outshoot the warriors of the Spokane school.

The summary of the first game:  
Gonzaga..... Montana.  
McCarvel..... Chinske  
Kennedy..... Right forward  
Overturf..... Left forward  
Brannon..... Center  
Walterskirchen..... Rankin  
Right guard  
LaVeaux..... Lewis  
Left guard

Substitutions: Gonzaga—Menaggio for McCarvel, Berilla for Brannon, Brannon for Berilla.  
Montana—J. Miller for Overturf, H. Miller for Chinske.

Scoring: Gonzaga—Field goals, McCarvel 1, Menaggio 2, Berilla 1, Walterskirchen 2, Free throws, McCarvel 1, Menaggio 2, Brannon 2, Berilla 1, Walterskirchen 2.

Montana—Field goals, Kain 7, Overturf 2, Chinske 3, Free throws, Kain 2, Chinske 2.  
Referee—Hunter, Timer—Al Papst  
J. Rule, Scorer—McGonigle.

**W. S. C. Comes Saturday.**  
Saturday night will see the opening of the conference season here when the Grizzlies take on the W. S. C. five. The Cougars are fast and are good shots, but are reported to be weak on defense.

### EARNING WAY THROUGH COLLEGE IN NOVEL WAY

Los Angeles.—(IP)—Students at the University of California, Southern Branch, have numerous ways of earning their way through college, according to a report of the secretary of the alumni employment bureau, but the most novel, for men students at least, is that of two men who earn money by caring for babies while the parents are visiting away.

Three students are motormen on street cars, while several operate taxis in their spare time.

Two more students act as interpreters to German motion picture celebrities living at Hollywood.

## SPORT SPURTS

We understand that the nobility is thinking of taking Gene Tunney into its folds. In such an event he would be known as "The Fourteen."

Louis Wendt, who played guard on the 1927 Grizzly basketball team, will be back in the lineup again this season after all. Wendt offered a young fortune and expenses if he would quit and go to the big city. "Get thee behind me, Satan. I'm going to play basketball," Grizzlies this year.

With the boys going as they did at Spokane last week-end, the Grizzlies ought to come pretty close to showing the W.S.C. team that they can't always be beaten.

"Cat" Thompson and the rest of the Bobcat squad have been making quite a stir in the eastern part of the state and in Colorado with sensational basketball playing. The Bobcats are supposed to have been in the history of basketball at the college, and if big success is an indication of worth, they must have.

Ott Romney, the Bobcat coach, has been granted a leave of absence one year. He expects to go East, where he will brush up on his coaching and take a long rest before he undertakes to build up a couple more winning teams. Coaches McGough and Dyche will take over the reins during absence.

Stanford was good enough to beat the Pitt Panthers, but it was a little bit slow when it came to keeping the "one-eyed" gate-crasher, the cold. Connelly, of world-wide fame, walked in through the crowd and picked out the best seat in the stadium. He is still boggling.

## Boxers' Teeth Ruined by Sparring Partners

University boxers will be seen in action at least once before the M club tournament. Another card will be put on at the Loyola gym the last of this month, with mitt-slingers from Missoula and the neighboring towns furnishing the fireworks.

In the workouts in the boxing classes the boys are getting rougher, putting more steam behind their blows. Two of the boxing lights who have seen the most action this fall are minus a good tooth apiece as the result of work by over-zealous sparring partners.

### GENE TUNNEY EXPRESSES VIEWS ON VARIOUS SPORTS

Gene Tunney, of fistic fame, in an interview in which he classifies the various sports, advances the opinion that football is the roughest pastime. He remarked that he had never seen more than one man knocked out in one boxing bout, while he has seen several laid low in football clashes.

Wrestling is the most brutal sport, he thinks, tennis furnishes the most action, while golf is the greatest test of a man's temperament. Boxing, according to this man who should know, supplies the most thrills for spectators and combatant alike. Tunney does not attempt to classify baseball, saying that any sport which satisfies the public as it does can speak for itself.

## Galluses to Hold Trousers, Is Dope

This story may be headed "For Men Only," because its contents pertain to the vanities of men. Yet the suggested caption has not been used, for the co-eds of the campus may be interested in getting the standards by which to judge the styles that will adorn their "boy friends" next spring.

An authentic source on vogues for men asserts that radical changes are to appear in the apparel that merchants will have on display for the fast-approaching spring season. The bold patterns in suits and the "ice cream" chevrons that are being worn now are to be passe in a couple of months. They will be replaced by more subdued worsted fabrics.

**Tweeds for Sports.**  
In sports suits, good stout tweeds will be the thing. There will also be a heavy demand for the Harris tweed, the rough, peat-smelling Irish tweed which is woven into such beautiful brown and green heather mixtures. The harder and more familiar domestic tweeds will also go strong in a sports suit way.

It appears that trousers with roomy knees, twenty and one-half to twenty and one-half inches, will dominate, but the cuffs will not be more than 18 inches. This course means that the trousers must be cut higher. Gone are the days of the suspender idea has come to stay, and the American undergarment, the trousers now are moored high and handsome, with buttons of silver pins, to his braces.

The trousers are to be swung free of the shoe-top, and the break. This is contrary to the accepted but incorrect notion that trousers should be regarded as unorthodox by those who preach that trousers must be over the shoe-top, come hell or foul.

The following colors will be in vogue for mens' suits:  
Gray-blue, blue-gray, blue-gray and gray-brown.

The ruling powers at the University of Nebraska are planning to restrict student cars from the campus unless the cases fall under certain exceptions.

## Rifle Team to Hold Tryouts This Week for January Match

With the approach of the Ninth Corps Area rifle match the last of January, the Military department is looking to the freshman class for marksmen. At present the rifle team is in need of good shots and efforts will be made to strengthen it.

Preliminaries will be shot for positions by freshmen the latter part of this week, and those showing well will be given an opportunity to develop by practice and become candidates for the team.

A new system of practice will be tried out, whereby those who are candidates for places will spend two hours in addition to their regular work in shooting practice. Extra credit will be given in the form of honor points, five points for each extra two-hour period a week.

These points will add to the final grade of the student, and are given to basic students for any work done in the Military department over the requirements of the course. Each honor point will add one-half of one percent to the final grade at the end of the quarter. A student having a grade of 80 and having 20 honor points would be entitled to a final grade of 90.

### Philosopher's Parents Mediocre.

New York.—(IP)—Superior intelligence is not a result of heredity, according to Dr. Raymond Pearl, who writes in the November issue of the American Mercury.

Dr. Pearl made an investigation into the parentage of sixty-three great philosophers, and found that the parents were all mediocre people, and under the plans of the present-day eugenical zealots, would have been sterilized in many cases.

### Enrollment Reduced

Stanford University, Cal.—(IP)—By action of the board of trustees, Stanford university has cut the number of new men to be admitted next year by 100. Further reduction may be made if it seems necessary after this experiment has been tried, according to officials of the institution.

The registrar's office has been closed for two days. This gives students time to make up any work.

THE TIME OF

## 25 FROSH OUT FOR HOOP TEAM

### Plenty of Good Material in Squad, With Many Former High School Stars On It

If the size of the squad at the beginning of the season counts for anything the University Cubs ought to have a very successful basketball season. The squad not only is large this year, but also has just plenty of good material in it. All of the men have had experience on high school teams. Some have even played independent ball in fast leagues.

Of the 25 frosh now reporting to Coach Harry Adams for practice, a few over half are fighting for a position as forward, four are out for center and the rest will be content with a regular berth at guard.

### Many Forwards Out.

The men out for forward are Ray Lyons and Johnny Lewis, all-state men from Billings, the latter also being an All-Rocky Mountain choice; Bill Ronliffs, forward on the team that won the National Consolation tourney last year; Tom Cameron, Roundup; Robert Linke, Washington D. C.; Dean O'Leary, Butte; Bob Davis, Butte; Dave Williams, Dillon; Raymond Birch, Corvallis; Delbert Cooper, Missoula; and Tom Moore, Phillipsburg.

Centers are Clarence Johnson, Missoula high team of 1925; Lyons, also out for forward; Hiram Gilson, Three Rivers, Mich.; and John Page, Phillipsburg.

The guards will be picked from among the following men: Frank Thraikill, Missoula High's 1927 team; Bill Rathert, Willow Creek; Glen Lockwood, Missoula; George Scott, Missoula; Phil Duncan, Billings; Herbert Zent, Hysham; Emmet Carey, Glendive; Frank Woods, Roundup.

### C. O. D.

Columbus, Ohio.—(IP)—The Interfraternity council at Ohio State university has ruled that Xi Psi Phi, professional dental fraternity, which has asked for permission to withdraw from the council, cannot do so until all debts to the council have been paid. Fraternity officials are asking the council how it will collect the same.

## News of Alumni and Former Students

## NOVELIST DISAGREES WITH JUDGE LINDSEY

San Francisco, Calif.—(IP)—The novelist, Kathleen Norris, expressed disagreement with Judge Ben Lindsey's companionate marriage idea here recently.

According to Mrs. Norris, marriage at the age of seventeen or eighteen would be a better way of solving marital troubles which now exist, and of relieving the immoral conditions of youth.

She declared that there is less illness, more honesty and less of a double standard among the young folks of today.

### Department of Education

Washington, D. C.—(IP)—That George Washington urged the founding of a United States university, and that such an institution should be founded now in the form of a department of education with a secretary in the president's cabinet, was the declaration made by Grand Commander John M. Cowles, of the Scottish Rite, at the meeting of that order here.

Co-eds at the University of Denver have formed an inter-school organization for the purpose of better co-operation between the members of the various schools on the campus. Representation is based upon the number of women enrolled in the school.
