COURSE DESCRIPTION

This is a five-credit hour elementary course designed for students who have had the equivalent of one semester of college Spanish. This course is a continuation of Elementary Spanish I. Elementary Spanish courses aim at helping students to continue developing their listening, speaking, reading and writing skills, as well as their knowledge of grammar and culture. In this course we will concentrate on the preterit and imperfect tenses, commands, future and conditional, and will be introduced to the subjunctive mood.

In this web-enhanced course you will be provided with tools that will facilitate your learning process as well as increase your opportunities for contact with the Spanish language outside the classroom. These computer-assisted tools will serve as supplemental enrichments rather than as a substitute for regular classroom meetings and will be available to you through **Blackboard**.
