Section 1: Monday & Wednesday - 11:00 to 12:20 pm GBB213

Office Hours: Monday & Wednesday 9:40am – 10:30am, Tuesday from 11:00am to noon, or by appointment

Prerequisites:

Junior standing in Business and BMIS 365 & 373

Course Description:

This course will focus on skills and tools utilized to manage a successful information systems and technology project. These projects are usually organizational investments that commit considerable time, staff, and other resources to the completion. Students will be exposed to the application Microsoft Project which is software designed to plan, manage, monitor, control, and support large scale projects. Student will get hands-on experience with a project during the semester where they will work with a client and implement an information systems project.

Course Objectives:

- Describe the project life cycle
- Identify the different roles and interests of project stakeholders
- Develop and apply the concept of a project's measurable organizational value (MOV)
- Identify and manage project scope
- Develop a project charter
- Develop a baseline project plan
- Develop a work breakdown structure
- Develop a project schedule and budget
- Identify and manage project risk
- Develop and execute a communications plan
- Develop a project quality plan
- Develop a change management plan
- Develop a technology plan
- Choose and execute an implementation plan
- Understand the importance of project closure

COVID-19:

- This is a face-to-face class. Zoom will only be used to record classes for after class viewing. Any requests to watch Zoom live must be approved by the instructor.
- Mask use is optional within the classroom or laboratory.
- If you feel sick and/or are exhibiting COVID-19 symptoms, please don't come to class and contact the Curry Health Center at (406) 243-4330.
- If you are required to isolate or quarantine, you will receive support in the class to ensure continued academic progress. (The instructor, will continue providing course materials to students in quarantine or isolation.)
- [Advising Center](#) and [Tutoring Resources](#): Schedule advising or tutoring appointments, available online or by phone. Tutoring available for math, writing, public speaking, Study Jam groups, and TRiO services.
- [Office for Disability Equity](#): Ensures students receive appropriate accommodations, services, and assistance to fully access the campus programs and facilities.
- [Writing and Public Speaking Center](#): Provides help at any point with writing, presentation, and research projects. Online and in-person appointments available.
- [Office for Student Success \(OSS\)](#): Helps students to meet three goals: transition smoothly to college, remain enrolled and progress in a program of study, and graduate in a timely manner.
 - [OSS COVID-19 Website](#)
 - Download the OSS [Online Student Success Guide](#) or [condensed Student Success Checklist](#)

Required Textbook and Software:

Information Technology Project Management, 5th Ed. by Jack T. Marchewka ISBN-978-1-119-03160-4. Available at the bookstore or online at www.coursesmart.com for 180 day eTextbook digital rental. We will be using Microsoft Project 2013 or 2016 in the class, which is available in the labs.

Optional Textbook:

Microsoft Project 2019 Step by Step by Cindy Lewis, Carl Chatfield, & Timothy Johnson Pearson Education, Inc. Copyright © 2019 by Pearson Education, Inc ISBN-13: 978-1-5093-0742-5. An e-book available on Moodle.

Required Resources:

Students must have access to a computer (or to a campus lab with a computer) that has Internet connectivity as well as Microsoft Office Professional and Project installed.

Podcast/Screencasts & Quizzes:

In order to utilize more class time for discussion and project work, the lecture material will be posted on Moodle as Podcast/Screencast presentations. The presentations will usually be 15 to 20 minutes long. Students are responsible to read the chapter, watch the assigned presentation, and complete the online quiz by 10:50am for the assigned day. Assigned readings, Podcast/Screencast, and quizzes will be announced in class as well as via Moodle and email.

Semester Project:

The class will organize into teams the first week of the semester for the purpose of managing an information systems project. Most of these projects will be for local organizations. During the course of the semester, each team will execute the project and complete a professional information system for their client. Each team will keep a project workbook that will be turned in periodically.

Group Evaluation: Each group member must fill out an evaluation form for the team project. The evaluation form includes a section for the evaluation of the members of your group. **Your evaluation of the performance of your group mates will be included in their grade for all aspects of the project.** For example, if you receive a 70% for group participation you will only receive 70% of the total points that the group earned on the project. The success of the learning process and the project is dependent on the dedication and commitment of all of the students in the class.

Professional Conduct: All team members are expected to conduct themselves in a professional manner in all interactions with other team members and with clients. Professional conduct includes promptness and participation at meetings, professional attire in client meetings, sufficient communication with clients and team members, and professional quality deliverables.

Project Management Institute Code of Ethics:

- I will maintain high standards of integrity and professional conduct.
- I will accept responsibility for my actions.
- I will continually seek to enhance my professional capabilities.
- I will practice with fairness and honesty.
- I will encourage others in the profession to act in an ethical and professional manner.

Class Attendance:

Class attendance is extremely important to succeed in this course. Attendance is mandatory, meaning that you are expected to attend each class period and will be taken at the beginning of most classes. My goal is to know everyone's name by the end of the semester and taking attendance will help me do that. I understand that there will be times when personal issues are unavoidable and take priority. These are the rules on attendance:

- **Each student will be allowed three (3) excused absences (regardless of reason).** If you miss more than three times, you will receive a negative adjustment your final grade. The professor reserves the right to adjust the student's final grade up to one full letter grade for each set of three absences. You can track your absences in Moodle by pressing the attendance link. Please refer to UM's Class Attendance/Absence Policy for more information www.umt.edu/catalog/academics/academic-policy-procedure.php.
- It is a good idea to let the professor know when you plan to be gone, just like you would let your boss know when you plan to be absent from work.
- If you are absent, it is your responsibility to obtain any course materials from your peers.
- You are in attendance when your name is called. If you enter class after this time it is your responsibility to let me know you are here. Being punctual and responsible for your own actions is important in both business and life.
- If you need to leave class early, please notify the professor at the beginning of class. Failure to do so may result in the loss of attendance for that day.

Graded Course Activities:

Student performance will be based on exams, assignments, attendance/class participation, skills with Microsoft Project, and completing and information systems project. Grades will be assigned based on the following breakdown: A – 90% and above, B – 89% to 80%, C – 79% to 70%, D – 69% to 60%, and F – below 59%.

Activity	Points	% of Course Grade
Course Exams		
Exam 1	50	
Exam 2	50	
Exam 3	50	
Exam subtotal	150	30%
Podcast/Screencast Quizzes (drop lowest three)	50	10%
MS Project Competence	25	5%
Attendance	50	10%
Projects:		
Workbook (615 points on plans, revisions & status reports)	90	
Presentation	45	
Project	90	
Projects subtotal	225	45%
Total	500	100%

In The News:

The purpose of “In The News” is to give an area for current topics to be placed on Moodle. Students are encouraged to read outside materials that pertain to the field of Information Systems. If you find an interesting article, send me an email with a link and I will post it on Moodle. I will start most classes with a few things that I have found in the news and encourage students to contribute as well. We will try to use Twitter this semester to share this information.

Classroom Behavior:

Each class session will be treated as a professional business meeting, which requires your full attention and participation. Like any employer, the professor maintains certain expectations of your performance and professional conduct during class sessions. Students are expected to conduct themselves in a professional manner at all times (SoBA Code of Professional Conduct <http://www.business.umt.edu/Soba/SoBAEthics/CodeofProfessionalConduct.aspx>). This includes:

- Arriving at class prepared to discuss the topic.
- Turning off all personal electronic devices prior to entering the classroom.
- Staying in the classroom for the entire class period. Arriving and departing during class is disruptive to the entire class and, therefore not acceptable.
- Being attentive and engaged in the class. Working on tasks unrelated to the class (e.g., texting, web surfing) is not acceptable.
- Refraining from disruptive behavior during the class period.
- Treating the professor, guest speakers, and other students with respect at all times.
- You are free to go to the restroom, but do it without disrupting what is going on in class.
- Please be courteous to all guest speakers and don't leave until the presentation is completed.
- If you must leave during the middle of a class when I am teaching, the proper thing to do is let me know a head of time.
- Students who fail to follow the guidelines for professional etiquette may be asked to leave the class and/or receive a negative adjustment to their final grade.

Academic Misconduct

All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code. The Code is available for review online at <http://www.umt.edu/studentaffairs>.

College of Business Grievance Policy

Although conflicts between students and professors are rare, they do occasionally occur. Please be aware that the standard operating procedure for dealing with such conflicts within the School of Business Administration is as follows:

1. Try to resolve the conflict directly with the professor.
2. If you feel that the conflict cannot be resolved between yourself and the professor, contact the chair of the Management Information Systems department.
3. If, after speaking with the department chair and the professor, you still feel that the conflict has not been resolved, contact the Associate Dean of the School of Business Administration.

Reasonable Accommodations:

Students with disabilities may request reasonable modifications by contacting me. The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students (DSS). "Reasonable" means the University permits no fundamental alterations of academic standards or retroactive modifications. (For other options see <http://www.umt.edu/disability>).

Diversity, Equity, and Inclusion:

Consistent with the UM [Diversity, Equity, and Inclusion Plan](#), this class will [strive to] include the representation of different identities, characteristics, experiences and perspectives of all students. This class will [aim to] offer everyone what they need to succeed by increasing access,

resources, and opportunities for all, especially for those who are systematically underrepresented and have been historically disadvantaged. This class will [desire to] create a welcoming learning environment in which differences are celebrated and everyone is valued, respected, and able to reach their full potential.

Mental Well-Being of Students at UM:

At UM, we value every student's wellbeing and believe that taking care of yourself is imperative to your success as a student. College students often experience issues that may interfere with academic success such as academic stress, sleep problems, juggling responsibilities, life events, relationship concerns, or feelings of anxiety, hopelessness, or depression. If you or a friend is struggling, we strongly encourage seeking support. Helpful, effective resources are available on campus.

- Reach out for Counseling Support at Curry Health Center Counseling. To make a counseling appointment call 406-243-4712 or go online to the Curry Health Portal to schedule an appointment
- Check in with the Student Mental Health Counselor in the Gianchetta Student Success Center in GBB L35. Our Counselor currently is Melissa Glueckert. She is available for both drop in and scheduled appointments. Her drop in hours are posted around the GBB each semester. Her phone number is 406.243.6790 or go online to schedule an appointment at <https://calendly.com/gsscwellness/fall22>

School of Business Administration Mission Statement and Assurance of Learning:

The College of Business at the University of Montana creates transformative, integrated, and student-centric learning experiences, propelling our students to make immediate and sustained impact on business and society. We nurture our students' innate work ethic to develop confident problem solvers and ethical decision makers. We pursue thought leadership and collectively create opportunities for a better life for our students, faculty, and staff.

COB Core Values:

- Students first: We educate the whole person
- Experiential learning: We create experiences that matter
- Thought leadership: WE create rigorous and relevant knowledge
- Stewardship: We value people, planet and profit

Learning Goals: As part of our assessment process and assurance-of-learning standards, the COB has adopted the following learning goals for our undergraduate students:

- Learning Goal 1: COB graduates will possess integrated business knowledge for the core disciplines of Accounting, Finance, Management Information Systems, Management and Marketing.
- Learning Goal 2: COB graduates will be effective communicators.
- Learning Goal 3: COB graduates will possess problem-solving skills.
- Learning Goal 4: COB graduates will have an ethical awareness.
