Central Board Minutes
December 2

The meeting was called to order by President Jystad. The minutes were read and corrected to read:

"Leuthold called to the attention of the board the article concerning the automobile situation on the campus."

They were also corrected to the effect that AWS is not responsible for the obtaining of the gifts for the Christmas SOS.

PUBLICITY-TRAVEL

Lambros reported that the Helena Alumni association are considering the sponsorship of the Helena Booster night. Lambros explained that the alumni instead of the chamber of commerce are being contacted so that if any profit is made, it will be returned to the athletic department. Lambros reported that Anaconda, Butte, Great Falls, and Deer Lodge alums are also being contacted, for consideration of similar programs.

In regard to the conference for the high school student leaders, the committee decided that students from all the high schools of the state should be invited. They also decided that this meeting should be separate from the Interscholastic meet, should be held in the early part of Spring quarter, and should be separate from any high school association meeting. The group is also considering the sponsorship of tours of students of the University to the various high schools in the state and some of the high schools out of state, for the purpose of publication of the University.

BUDGET & FINANCE

Crippen submitted the following recommendation to Central Board from Budget and Finance Committee: "The committee recommends that no special rate be given to graduate students for admission to basketball games." Leuthold moved acceptance of this recommendation. Fowler seconded. Crippen reported that it was the feeling of the Budget and Finance committee that it was a valid policy to have reduced rates over all sports, not just one sport, for the graduate students.

In connection with this question, Crippen raised the question of the ability of graduate students to hold office in the ASMSU set-up - asking this question as investigation into the ability of Central Board to determine policy in connection with these students. Lambros pointed out that according to the constitution, the graduate students are permitted to hold ASMSU offices. Crippen reported that many of the graduate students are now attending games by using borrowed cards of other MSU students. Crippen also reported that he has discussed this matter with President McFarland, Mr. Martell, and Bob Dundas - who are all in favor of giving some reduction to the athletic events to graduate students. Leuthold suggested that if some arrangement were to be made, it should be made by the athletic department, and not central board. Leuthold
pointed out that the graduate student is interested in this special reduction only during the basketball season, and not during the other athletic seasons. Leuthold further pointed out that if such a card were issued, it would of necessity, have to be mandatory, sold every quarter, and including all events. Jystad suggested that the graduate student is not interested in an activity card, but rather is interested only in special rates for attending basketball games. With this in mind, he suggested that these students should deal with the athletic department. Lambros suggested that we recommend to the athletic department that they establish a ticket to the basketball games for the graduate students for six dollars. Jystad suggested that other schools be contacted to determine the manner in which they solve this problem. Lambros moved the question. Crippen seconded. The motion was then voted on, and passed 5-4 with 1 abst. (against: Crippen, Lambros, Bayley, Crawford). Crippen then moved that Central Board go on record as favoring that the field house administration set up a separate season rate for the graduate students. Jystad ruled this motion out of order.

Bowling Alleys
Crippen reported upon the manner in which the purchase of the bowling alleys would be accomplished. This will be a self-liquidating loan. He reported that lower interest rates will be obtained for this loan by going into a master mortgage. He explained that as soon as the note for the bowling alleys is paid, we may withdraw from the master mortgage.

Cascade Room
Crippen reported that after talking to President McFarland and Mr. Kotschevar, the new policy on the rental of the room will be that the students will pay only the cost of the actual preparation of the room for dances, and the janitorial and lighting charges, with no profit cut. This cost, Crippen explained, will be $66.00.

All-School Show
Crippen reported that Budget and Finance has worked out the budget for the production of Carousel. He said that this has not been finally approved, however. The business manager of the show has submitted a financial report, calling for a budget of $2440. No action was taken on this report.

Ice-Skating Rink
Leuthold suggested that we should consider some promotion campaign of the ice-skating rink, which is now lacking student backing. It was suggested that this be referred to Budget and Finance committee.

Grade-School Party
Crawford reported that he had discussed the possibility of the use of the school busses in transporting the grade-school students to the field house for the game, and that he was not in favor of such action. It was decided that the transportation of the students should be left to the students themselves.
Jystad reported that from 1500 to 2000 tickets are available for the students. He suggested that the children from grades 4-8 be invited. He reported that Dundas suggested that no special rate be given to the parents of the children. Lambros suggested that the children be given paper pennants with MSU on them. Fowler moved: ASMSU sponsor a grade school night on December 15 for the basketball game, and that ASMSU supply free tickets to all grade school students in grades five to eight, in Missoula. In conjunction with this, ASMSU do all possible to give the children an enjoyable evening. Leuthold seconded the motion. Passed 9-0. Crawford suggested that the grade school band be invited. Fowler will see that the tickets are printed. The cost of the party will be referred to Budget and Finance.

HIGH-SCHOOL NIGHT
Lambros moved that high school night be December 20, for the basketball game. The entire student body of the high schools in Missoula will be invited. Crawford seconded. Passed 9-0. Jystad and Lambros will contact the high school student councils, to arrange for the distribution of tickets, and to determine the approximate number who will attend.

NSA
Jystad asked the board if further consideration should be given the joining the NSA organization. He reported that the cost of joining would be $125 per year, plus regional dues. Jystad pointed out it would be possible to belong to both the PSPA and the NSA. Jystad strongly recommended that this be considered, and that more information be obtained about the organization. Fowler moved that ASMSU continue investigation on the merit of joining NSA. Crawford seconded. Passed 9-0.

STAN KENTON
Jystad reported that the Dance Committee has arranged for the appearance of Stan Kenton on March 2. He will appear for a concert and dance. The cost will be $1500 plus 50% of anything over $2000. Lambros suggested that the contract be studied by someone in the law school. Crippen reported that Dundas performs the function of examining all contracts.

LIQUOR CONTROL COMMITTEE
Leuthold said that the next meeting of this committee will be on Wednesday, December 7, at four. This meeting will be with the President, at which time, the student proposals for the liquor control will be presented and discussed. It was suggested that the faculty who helped the students in the formation of these proposals be contacted and urged to attend.

COMMITTEE CHAIRMEN
Jystad said that chairmen for the Leadership Camp and for Traditions Board are needed. It was suggested that the following people be contacted for the purpose of determining their interest in the chairmanship of Traditions Board: Donna Kaye Bayley, Cathy Robey, Joanne LeDuke, Shiela McForney,

**LEADERSHIP CAMP**

It was suggested that last year's co-chairmen suggest some names for consideration for the chairmen of this committee.

**CORRESPONDENCE**

Jystad read correspondence from Gonzaga thanking the committee for the student-union convention. An appreciation from the coach of the football team was read - for the telegrams and letters of encouragement which were sent to the team.

**PSPA**

Jystad read a letter from the Vancouver, B.C. group who are host to the PSPA convention this year - telling that the convention will be May 9-12. Erickson moved that the usual $5 be sent to the convention hosts for a working fund. Crawford seconded. Passed 9-0.

**NEW STUDENT UNION COMMITTEE**

Lambros called to the attention of the board the President's proposal that a committee be appointed for consideration of plans for the additional wing of the student union be formed. Jystad suggested that this be considered after vacation.

**CHEER-LEADERS**

Riddle suggested that the cheer-leaders need new equipment with which to work. Crippen suggested that this be brought before Budget and Finance committee.

**FIFTIETH ANNIVERSARY**

Jystad read a memorandum from President McFarland, saying that the fiftieth anniversary of student government on the campus is this May. Committees for this celebration will be appointed after Christmas vacation.

The next meeting will be held next Friday at four.

Respectfully submitted,

Ann Crocker
Secretary, ASWSU

Crippen, Jystad, Erickson, Leuthold, Fowler, Riddle, Crawford, Lambros, Pearson, Forzley, McLeod, Bayley, Cogswell, Crocker, Helding, McPherson, Crozer
