MISSOULA--

A book written by a University of Montana faculty member has been listed as an alternate in the February issue of the Book-of-the-Month Club News.

The book, "How the U.S. Cavalry Saved Our National Parks," was written by Dr. H. Duane Hampton, an associate professor of history at UM, and was published in December by the Indiana University Press, Bloomington.

Dr. Hampton's book deals with the difficulties which plagued early efforts by Congress to establish the nation's parks, including Yellowstone National Park.

A review by Ralph Thompson of Dr. Hampton's book is printed in the February issue of the News.
