ANTHONY ROLLIN RECEIVES \$100,  
ASSOCIATE MEMBERSHIP IN SIGMA XI

MISSOULA--

The University of Montana chapter of Sigma Xi, national science honorary, recently awarded \$100 and an associate membership in the organization to Anthony J. Rollin, Missoula, a senior in chemistry at UM.

Rollin won the awards for his efforts in researching the process of breakdown of alcohols by ozone, which is usually a faintly blue irritating gas.

Three other UM seniors--Marianna Adler, Mill Valley, Calif., an anthropology major; Diane E. Bilderback, Creswell, Ore., a botany major, and Arnold G. Ostrander, Afton, Minn. --were nominated for associate membership in Sigma Xi.

Dr. Walter L. Koostra, an assistant professor of microbiology at UM, is president of the local Sigma Xi chapter.
