1974 UM SUMMER SESSION
ENROLLMENT UP 9% FROM LAST YEAR

MISSOULA--

Enrollment figures for the University of Montana's 1974 Summer Session show there is a 9 percent increase--187 more students--compared with the 1973 UM Summer Session.

Philip Bain, UM director of admissions and records, said 1,115 men and 1,069 women have enrolled this summer, for a total of 2,184. A year ago--for the comparable first two-week period of summer session--there were 1,102 men and 895 women enrolled, for a total of 1,997.

The largest increase so far this summer on the Missoula campus is among women students, who account for an enrollment jump of almost 20 percent.

"We expect more students as the summer session progresses because registration for the second 4½-week session will take place during the week of July 15," Bain said.
