ENROLLMENT FOR 1974 UM
SUMMER SESSION UP 4% FROM 1973

MISSOULA--

Enrollment figures for the University of Montana's 1974 Summer Session indicate a 4% increase, 111 more students, when compared with figures from the 1973 UM Summer Session.

Philip Bain, UM director of admissions and records, said 1,476 men and 1,243 women have enrolled for this year's Summer Session, totaling 2,719. Final figures from last summer were 1,506 men and 1,102 women, a total of 2,608.

The largest enrollment increase on the Missoula campus has been among women students, who account for a jump of almost 13%.

"We are expecting more students to enroll for special workshops as the summer session progresses," Bain said, "so our final 1974 percentage-increase figures should be higher yet when compared with last year."
