Offura - Zimmerman Book - 12/1/81

Japan's Choice - Conflict or Cooperation

This is a most auspicious occasion because it marks the kick-off of a most significant book on Japanese-American economic relations. It is not the easiest book to read - ~~no book on sound economics is -~~ but it is one of the most important because ~~no good book on economics is -~~ it lays out - as only Mark Zimmerman ~~to~~ can - the details & the specifics which must be faced if we are to understand our differences & appreciate our commonalities. It is analytical, thoughtful & very worthwhile.

It is an on-the-ground study by an on-the-ground expert. Mark Zimmerman knows whereof he speaks & does so in a way that can be understood.

It is a book which will better the relations between our two countries. I recommend it to you most highly. It is - in this day & age of too much misunderstanding - a must. To a sound & solid author of a most excellent book I extend my congratulations for a job well done.
