AIR POLLUTION, RESPIRATORY DISEASE
SET FOR DISCUSSION THURSDAY AT UM

MISSOULA--

John McBride, a graduate student in environmental studies at the University of Montana who is coordinator of the Student Environmental Research Center at UM, will discuss air pollution and respiratory disease in the Missoula valley at the noon meeting Thursday (March 1) of the UM chapter of Sigma Xi, national science honorary.

McBride's remarks will deal with the continuing results of a study being conducted by the SERC to determine the possible relationships between air pollution and respiratory disease in the valley.

Thursday's program is open to the public without charge.
