A child has to believe things before he can prove them, often before he can understand them; it is his way of learning about the world, and the only way. —Edwin Muir, “Wyre” in An Autobiography (Graywolf, 1955, 35).

Because we were all children before being adults and because for a long time it was necessary for us to be governed by our appetites and our teachers … it is nearly impossible for our judgments to be as pure and solid as they would have been if we had had the full use of our reason from the moment of our birth and if we had always been guided by it alone. —Descartes, Discourse on Method, AT 13

And your doubt may become a good quality if you train it. It must become knowing, it must become critical…. and the day will arrive when from a destroyer it will become one of your best workers—perhaps the most intelligent of all that are building your life. —Rilke, Letters to a Young Poet (Letter #9).

Requirements

Response Journal: Concisely written responses to each of our readings in the notebook you have devoted to this. Approximately 500 words. 30% of final grade.

You are to write responses to each of the assigned readings prior to the meeting. I’ll grade your journal responses based on their clarity, precision and depth. Missing responses will seriously hurt this part of your grade as will responses that are poorly written, responses that are breezy, or responses that fail to exhibit clear ties to the reading.

Discussion Questions: Two discussion questions, typed and printed on a separate sheet of paper, are due at the beginning of each meeting. These will normally come out of your journal responses. We will often take the first 20 minutes of class to exchange and critique one another’s discussion questions. I will collect them at random intervals and grade them based on their clarity, responsiveness to the text, and depth. Your final grade goes down 5% every time you come to class without discussion questions. 15% of final grade assuming you are doing them; there is no limit to how many percentage points you may lose for coming to class without discussion questions. (If you come up empty four times, your final grade will go down 20% and so on.)

Presentations: Everyone will present on at least one of the assigned readings. 20% of final grade.

Term paper of 6-8 double-spaced pages, 11 or 12-font, due finals week. 25% of final grade.

Attendance, Quality of Participation and Anything Not Covered Above. 10% of final grade assuming you attend regularly. If your attendance is spotty, I’ll ask you to drop the class. Regular attendance is required.
