February 20, 1940

The meeting was called to order by President Pantzer. The minutes of the meeting of February 13 were read and approved.

Mr. Guy Fox attended the meeting and gave the Board his suggestions in regard to the tennis courts. Because of the condition of the present courts, he explained, it is almost impossible to get other teams to play here, and high school players attending Interscholastic Meet are discouraged by the courts from coming to this university for varsity play. According to Mr. Fox, brick dust courts, and well made clay courts are exceptionally good, but possibly not practical in this case. Cement courts would be durable, but very expensive. He agreed that macadamized courts, with a good base, would be quite satisfactory, but would require resurfacing after possibly two seasons. He said that the greatest present need is the building up and surfacing of the back courts. Next in importance is the building of new courts to handle congestion.

Bob Pantzer rechecked on the cost of fixing the present back courts, putting the women's courts into playing condition, and building four new courts. Mr. Swearingen estimates that all this can be done at a cost of $1700.

Mr. Fox is making a trip to Eugene and Reed College this week and will be back in time to attend the next meeting and report his findings concerning the courts at those schools.

A motion was made, seconded and carried for adjournment.

Sally Hopkins
Acting Secretary

Absent: Berg.

Others Present: Fox.
