February 3, 1933

The meeting was called to order by President Peter Murphy, who presided. The minutes of the previous meeting were read and approved.

Chambers reported that the committee which investigated the condition of the Kaimin Surplus had found it favorable and that the Kaimin camera has been ordered.

Murphy said that the committee appointed as a result of a motion February 1 to study the union situation and to bring in a policy which Central Board could support and follow consisted of Gordon Hickman, Chairman, Bob Van Haur, Woodburn Brown, Mel Singleton, and Lela Woodgerd. This committee gave a report of a meeting they had held January 31 with representatives of some of the local unions. This committee is only a fact-finding and policy-recommending committee and it does not have the power to make any agreements with the unions as to union-student relations. The committee should gather as much pointed information as possible from other schools on how they handle this problem, from the Department of Labor, from the national union rules, and from the local unions. Central Board expressed its confidence in the personnel of this committee and expressed the attitude that the members of the committee are entitled to the confidence and cooperation of the whole campus in gathering the information the committee considers important. Since this is a new problem, the committee will have to go ahead and use its best judgment in how to proceed because no one can say what is the right or the wrong method of procedure; there are no guide posts to point the direction.

Last year the local Musicians' Union paid $20 for an ad in the Sentinel. When the Sentinel was printed by a non-union house the union had to cancel the ad, but they never received a refund of the $20. This matter is to be taken up with the Sentinel staff.

Adjournment.
