BIRD STUDY GRANT AWARDED TO UM GRADUATE STUDENT

A University of Montana zoology graduate student, studying the only aquatic songbird, has been awarded the Frank M. Chapman Memorial grant for \$225, sponsored by the American Museum of Natural History.

John O. Sullivan, Missoula, was awarded the grant, according to Dr. P. L. Wright, UM department of zoology chairman.

Sullivan's work, under the direction of Dr. Robert S. Hoffmann of the UM zoology department, is with the ecology of the dipper or water ouzel, a permanent Montana bird resident of mountain stream areas.

The grant is awarded for research in ornithology from an international point of view, said Sullivan, who is working for his doctorate in zoology. In 1965, Sullivan was awarded two other grants for his work with the dipper.
