## Dahlberg Juggles Lineup

### Revamped Grizzly Five Seek Invading Bengal Hoop Scalp

Coach George Dahlberg will start a revamped lineup tonight and tomorrow night when the Grizzlies play Idaho Southern branch basketballers in the Grizzly gym.

Bill DeGroot, high-scoring forward, will be moved to a guard position and Chuck Burgess, sophomore forward, will start at the vacant post. Burgess, who has been showing flashes all season, came to life in the final game against Gonzaga last week to score 18 points, using his deadly push shot.

The addition of Burgess to the lineup, along with the Gold Dust twins, will give the Grizzlies three scoring threats who are capable of hitting the hoop for 15 or more points per game. Biff Hall and Gene Clawson, rangy centers, spasmodically get hot and ring up points in the double numbers, so Dahlberg will be putting a team on the floor with more potential scoring power than the Grizzlies have started all season.

The Bengals have been floundering most of the season, losing games to nearly every small college in Idaho. Albion Normal nosed Idaho Southern two weeks ago, after which the Bengals split a series with College of Idaho last week-end and then dropped a game to Ricks college Wednesday night.

The Bengals came to Missoula last year riding on the crest of a 13-game winning streak. Montana was hard pressed to stop the Southern Branch, winning the first game by a single point, 42-41, and the second tilt 43-39.

"Howdy" Greaves, diminutive but sensational forward, leads the Idaho Southern attack, consistently taking high-point honors for the Bengals. Ed Bradely, giant 6-foot 11½-inch center, takes care of the pivot duties and feeds Greaves for his shots.

## Music Profs Will Present Helena Recital

John B. Crowder, music school dean, and John Lester, assistant professor of music, left this morning for Helena, where they will present the second in the series of faculty recitals being offered to Montana schools and clubs.

At the invitation of Gordon Lip-pard, Choteau, chairman of the house entertainment committee, Crowder and Lester will appear in a short vocal and piano program at the state capitol at 1:15 o'clock.

At 2:15 o'clock they will be featured in a Helena high school convocation, and at 8:15 o'clock they will present a full-length program in the high school auditorium. Payne Templeton, superintendent of Helena public schools, arranged the programs at the high school.

### NOTICE

Hygiene 26 will not meet tomorrow afternoon.

## Up Through the Years

## Regional Director, Personnel Officer Visits Lab Class

May Risher, NYA regional director, Denver, Colo., and William McMurphy, director of the state NYA Personnel division, visited the Social Work lab Tuesday. Dr. Harold Tascher, associate professor of sociology, said yesterday.

Miss Risher discussed the application of the laboratory method to the state program of the Youth Personnel division. Wanda Williams, Boulder, reported on the methods used here. A general plan to form nine state NYA divisions similar to the lab and with a state director was endorsed. The regional director commented that Montana is the only one of the 12 states under her jurisdiction where such a plan is being initiated.

Astha Cartmell, supervisor of the Family Welfare agency, presented case work problems arising in agency work to the Social Work lab class conference. Jean Cameron, Missoula, chairman of the Lab Family Welfare group, and Barbara Blitz, Rapid City, S. D., and Jean Yardley, Livingston, group members, explained the agency's historical development and present practices. They are doing field work under the supervision of Miss Cartmell, said Tascher.

## Foresters to Sponsor Annual Ladies' Night

The Society of American Foresters will sponsor its first annual Ladies' night in the Copper room at 7 o'clock Monday, Dr. C. W. Waters, professor of forestry and secretary-treasurer of the SAF, announced yesterday. Rev. Herman C. Rice will speak on "The Influence of Forests and Forest Destruction on the Spiritual Life of People."

## Gil LeKander Gets AP Job

Gilbert LeKander, '39, left this morning for Salt Lake City, where he will work for the Associated Press.

For the past two years LeKander has been university publicity assistant. He is a member of Sigma Alpha Epsilon, social fraternity, and of Sigma Delta Chi, national journalism honorary.

## Marshall Gulch Ski Course Is Open

University skiers can find a large ski course only seven miles from the campus at Marshall gulch this week-end, John Zuber, Missoula, said yesterday.

## Attorney-General Bonner To Make Charter Day Address Monday

John W. Bonner, state attorney-general and a university alumnus, will deliver the address Monday at the Charter day convocation celebrating the university's forty-eighth year. He will be introduced by President George Finlay Simmons. John Lester, professor of music, will round out the program by leading group singing.

## High Schools Have Choice Of Speakers

Eight university faculty members are available to accredited state high schools as commencement speakers this spring, according to a list recently distributed throughout the state by the president's office.

Each unit of the Greater University of Montana charges \$25 for faculty members as guest speakers. Fifteen dollars goes to defray expenses of the trip and \$10 goes to the speaker.

### Available Speakers

Speakers available and their topics are: Dr. R. L. Housman, professor of journalism, "Is It Propaganda?"; Ralph Y. McGinnis, instructor in speech, "The Tripod of Success" and "How Much Land Does a Man Need?"; Michiael Mansfield, instructor in history and social science, "New Frontiers for Democracy," "America in a Changing World," "Your Stake in a Democracy" and "Pan-Americanism—A Challenge to Youth"; Dean J. E. Miller, professor of history and political science, "So What?" and "Prospects and Projects."

### Dr. Severy

Dr. J. W. Severy, vice-president and professor of botany, "Education and National Defense" and "New Horizons"; Dr. G. D. Shallenberger, professor of physics, "Level-headed Education" and "Education and National Defense"; Russell Smith, instructor in law, "The Responsibility of Citizenship," and Dr. Harry Turney-High, professor of sociology, "The Future of American Culture" and "The Shadow of Things to Come."

Bonner, who received his LL.B. degree in 1928 and his B.A. in history in 1933 from the university, was a member of Sigma Phi Epsilon social fraternity; Phi Delta Phi, international legal fraternity, and a member of the Law School association and of the debate team while in school.

### Born in Butte

He was born in Butte in 1902 but spent his childhood days on a ranch in Sanders county. Later he returned to Butte and worked in the mines to finance his education.

After graduation he practiced law until 1929, when he was appointed attorney for the state highway commission. In 1937 he was appointed attorney for the board of railroad commissioners. Bonner helped to organize and was first president of the Association of Montana Law Alumni and was an officer of the University Alumni association. He was elected president of the Montana Bar association in 1935 and attorney-general last fall.

### Fortieth Celebration

Bonner will highlight approximately the fortieth celebration of Charter day, for it was not until after the turn of the century that Charter day became an annual custom.

The university with its 27 buildings, staff of over 130 and student body enrollment which has reached over 2,000 is a far cry from the borrowed quarters and enrollment of 150 the first year. During this period of growth the university has had seven presidents.

The university was established in 1893 by the state legislature, but it was not officially opened until the fall of 1895. The fledgling institution moved into its own buildings on the campus in 1898.

## Civil Service Examinations Will Be Given

Student aid Civil Service examinations will be given in Forestry 206 at 8:30 o'clock tomorrow, T. C. Spaulding, dean of forestry, announced yesterday.

The test consists of written questions designed to measure the applicant's aptitude for learning and adjusting to duties in federal service. Students taking the test must have filled out application blanks and filed them with the Civil Service commission before Jan. 23. The general information tests will be graded on a scale of 100.

Optional branches in the student aid examination tomorrow include agriculture, agronomy, animal husbandry, biology, economics, engineering, forestry, geology, home economics, horticulture, metallurgy, plant pathology, public administration, political science, history or sociology, range management, soils, and statistics.

## Latest News

WORLD AND NATIONAL

(Editor's Note: The news in this column is the latest intelligence and was gleaned from the last morning news broadcasts before press time.)

By ROGER PETERSON

LONDON.—German sky hawks swooped over last night, made little noise and not much damage.

British and Japanese are still squabbling in the Far East but the trouble is no worse this morning, foreign sources said. Japanese military pressure on England's sea depot, Singapore, and help to Nazi sea raiders precipitated the quarrel. Japanese warships are reported ready to go against Hong Kong and Singapore. Americans were asked to leave the Orient, but the State department said it is merely repeating old advice and has no new concern in the East.

Australians were warned "the war has moved into a new stage involving utmost gravity," and this was interpreted as a spur for more war efforts from Australia or that an attack on Singapore is expected.

BERLIN.—Official dispatches say Nazi airmen gave London and Malta heavy thumpings last night and yesterday.

# The MONTANA KAIMIN

Established 1898

The name Kaimin (pronounced Ki-meen) is derived from the original Selish Indian word, and means "something written" or "a message."

**COULDN'T WE CHANGE NEW HALL TO RYMAN HALL?**

Two years ago at the beginning of fall quarter New hall was opened to occupancy. Since then a somewhat feeble effort has been made to rename the hall, but the building still bears its original nomer.

About 40 years ago, a Pennsylvanian, James T. Ryman, came west to Missoula to become superintendent of the local public schools and subsequently founder of one of western Montana's largest banks. During his stay, Ryman became vitally interested in the university and because of his interest was appointed a member of the original executive board. He was an intimate friend of William (Daddy) Aber, another great supporter, and for whom Aber day bears his name.

When Ryman died, he willed the university several thousand dollars. These dollars help outstanding students to acquire a further education in the form of the Ryman fellowship in economics, which enables the student receiving the award to pursue study in some graduate school.

Endowments to our university are few and far between. Why not honor this man's memory by changing New hall to Ryman hall?—W.K.M.

## :: MY SAY ::

By HELEN JOHNSON

Dear Maw:

I got a few minutes to write to you, so I'll park at the old mower and see what I can do. You know that Bare Paw I was telling you about. Well he's a back number now. He kept hinting about me taking him to Co-ed but he's always made me go dutch so I don't feel I owe him anything. I've a for-ester on the string now. He never shaves and he rolls his pants up to his knees. Maw he's cute. I think he does it just to attract attention.

I asked him to Co-ed cause someone told me since Foresters is coming afterwards, it would be a good idea. This Co-ed formal I'm told is going to be SUM affair. It costs a lot of money, but its worth it too, so there. Guess yu'll have to send me the egg money this month. I'm going to send my boy-friend a nice bokay and I'll buy a taxi or a bus to get him back and forth I guess.

I hope he doesn't order steak. I'm taking an extra quarter in case he's the expensive kind. Somebody said there were 300 boys who wouldn't get to go if all the girls on the campus went. My roommate says she's going to study that night, so there will be 301.

Well, now I'm gonna go study. I'll write again. I gotta call the Foresters' building to talk to my man. I'd tell you about my date last night, but I'm afraid it would bore you.

I'm glad my fella got a ticket to Foresters. I'm going to dress like Calamity Jane.

Love,  
EFFIE MAY.

Robert Lacklen, '36, psychology, is now employed in the personnel department of the Department of Labor in Washington, D. C.

Sara Jane Murphy, Missoula, secretary to the registrar, spent last week-end in Bozeman.

The JUNGLE CLUB after

HAL and LEON WILL BE PLAYING

You know how good the food is —  
And That's Where He Takes You!

## Communications

Dear Bill:

Y'know, Bill, an idea was advanced at Central board meeting the other day, which, I think, deserves some consideration from every student, every faculty member, and every person having an interest in Montana State university. This idea goes hand in hand with the "Know Your University" movement that has started on the campus, and could be a source of interest, pride, and advertising to the school. I'm speaking about this idea of putting exhibit cases in various prominent spots around school, in which to place trophies, plaques, honor awards, etc., things that are of general interest to the student body, the alumni, and visitors.

I think that without any more clarification on my part, you can see the merit of this idea, can't you Bill? The Spurs have a fine and interesting exhibit resting in the cases located in the foyer adjoining the business offices of the Student Union building, which few people have seen and which certainly deserves a more prominent place. There are innumerable trophies and honor awards around school that are stuck in drawers and closets, collecting dust, when they should be where people can see them, a source of pride to the university. There is the basis of the idea, Bill, to get these interesting things placed in spots around the university as exhibits.

I know, from experience, that every time one steps inside the gymnasium door at the State college, it is almost impossible to keep from looking at pictures of past athletic teams, and trophies representing their victories, with footballs and basketballs of recent years and older vintage on which is painted the season's record of games played, with whom they were played, and the resulting scores. It's a darned interesting display and does credit to the teams and the college.

That's what I'd like to see done here, Bill, not with athletic material only, but with any interesting item that deserves recognition. 'Course, as always, there is a drawback, Bill, and if you think hard enough I don't doubt but what you

## Dudley to Play At Foresters

Bob Dudley and his 10-piece band from Spokane will furnish the music for Foresters' ball next Friday instead of Frankie Roth's music-makers because four of the latter's musicians are ill with streptococcus, a throat infection, Gayne Moxness, Tacoma, who is in charge of musical arrangements, said yesterday.

Dudley's orchestra took a three-month tour with a stage show last fall. One colored male entertainer and a girl vocalist highlight the band's entertainment, Moxness said.

STARTS SATURDAY

# WILMA

# I'm Right---You're Wrong

BY K. KIZER

Grizzly tanksters take to the H<sup>2</sup>O today against Eastern Washington college's splashers, opening the season with the first of at least seven meets. Swimming is gaining more import at Montana year by year, mainly through the efforts of Jim King, Karl ZurMuehlen and Paul O'Hare, mainstays of the Grizzly squad. King is a double-recordholder in the breast stroke. Coach Harry Adams failed to enter him in any meets his freshman year, saving him for the Pacific coast meets in 1939. He is master of the famed "butterfly" stroke.

According to Adams, the way King keeps in shape is to "stick to the staples"—meat, spuds and ketchup. On the coastal tour last year Jim insisted upon eating meat, potatoes and saucing everything down with ketchup. It got to be such a joke that O'Hare dared him to put ketchup on his apple pie. So he did, spearing chunks of pie out of a plate swimming with that red stuff. Not only did he eat ketchup pie but he swam a good race that night.

Knowing Jim, of course, no one would doubt that story. He is just a mite "teched" on the subject of phonograph records and guns—whatta combination! He has thousands of records in a special room at home and tens of machines to play them on. He's gone completely screwy on swing records and a little more screwier on firearms of one sort and another. The latest has been a complicated Colt .45-calibre job so heavy one needs an arm rest to hit the floor.

This year's coaching job is taken over by Lieutenant Misevic, ex-Bobcat swimmer. Along with the minor sports boxing and wrestling tourney in Bozeman next month will see the swimmers, coached by a Bobcat, swimming against the Bobcats. It will be a good homecoming for the "Looney."

Tonight finds the Grizzlies in the first of their last four home games this season, fighting against the Bengal Tigers of Poccatello. Burgess will be stuck down in the forward position opposite Jones, DeGroot and Greene will start at guards and Hall at the center job. Grizzlies will have to win the remaining games to keep above a 50 per cent average for the season. It shouldn't be too tough against the Idahoans either at home or on the foreign court—it'll be the Cats from Galatin valley that will spill the beans if ya' don't watch out. According to Hank Young of the Exponent, the Bobcats are going to win these next two games, only he doesn't want to bet a nickle on it. He apparently knows better than to swear off shaving. It will be a long wait, Hankie—awful long.

So it starts again: the time when the "Hate the Bobcats" move takes over page three of the Kaimin is here. Frank Ward, center and stellar performer of the Golden Bobcats (that's when they had a team) will officiate for one side of the fence and Eddie Chinske, ex-Grizzly football and basketball player, will toot the whistle for this side of the divide. After much arguing between Breeden and Dahlberg, these two were chosen for the series. Ward and Chinske called them right in Bozeman last month and, although the number of fouls called looked like an open season

## Casaba Twins Threaten MSU Record

All-Time Hoop Mark Quavers Before Jones, Willy DeGroot

The 256-point all-time scoring record for Grizzly basketballers is doomed to yield to at least one of the "Gold Dust" twins and maybe both before the current cage season comes to a close, according to official figures released yesterday by Coach George Dahlberg.

It is almost a certainty that Bill DeGroot, duskier half of the twins, will smash the record established by Bill Lazetich, '40, in the '37-'38 year. Bill Jones, other half of the twins, has a fighting chance to pass the mark in spite of missing six contests because of injuries.

By scoring 18 points against Gonzaga last week-end, DeGroot brought his season total to 237, just 19 short of the record. In the six remaining games on the Grizzly schedule, DeGroot needs to average three and one-third points per game to set a new mark. To date this season he has averaged 10 2-3 points per game for 22 contests.

Bill Jones, who missed six games because of a severe leg injury, has piled up 189 points in 17 contests. He looped 29 points against Gonzaga last week-end for an average of 14½. Jones needs 67 points to tie the old mark and must average 11 1-6 points per game for the remaining six games.

Bill Lazetich, current record-holder and now coach at Havre high school, averaged a fraction under nine points per game while setting the record.

Lester N. Lukkason, '39, formerly of Polson, is now a recruiting officer stationed at Fort Missoula.

on their pound of flesh, the pair of officials still kept the game going. A total of 57 fouls were called the second game, last month, and that number will probably bear repeating here the last of this month. However, they are being paid to blow the whistle and they both possess the most important faculty of sight. They don't need a seeing-eye dog or a tin cup.

## PDT Wins Interfrat Hoop Title

Mavericks Tie With TX For Second in Greek Net Tourney

Phi Delta Theta defeated Sigma Nu, 15 to 13, last night to take the 1941 Interfraternity basketball championship. The way was paved for the Phi Delt when the fast, high-stepping Mavericks removed Theta Chi by a score of 36 to 24 in the first game.

Both teams set a terrific pace which did not slow down except for moments when the defensive half of the Phi Delt squad played cautious basketball. Both teams had bad luck on shots, but Sigma Nu was checked closer. The half ended 9 to 3 in favor of Phi Delta Theta.

Sigma Nu crept up on the leaders in what was perhaps the roughest game of the year, and with five minutes to go the score stood 10 to 11, Sigma Nu trailing. Hender-shott's free throw tied it up. Phi Delta Theta made two field goals and Sigma Nu one to complete the scoring and the game.

Three quick baskets by Ness gave the Mavericks their start to a 13-10 lead over Theta Chi. Close checking kept the Mavericks from going to town on their fast-break style of play during the first half. Ness went out on personals at the start of the second period, but his loss was balanced by the appearance of Reagan.

The whole Maverick team began hitting and drew away to victory, which resulted in a two-way tie for second place for the two teams. Ryffel, Theta Chi, took scoring honors with 14 counters; Johnson with 12 and Ness with 8 followed.

Harry Sorenson, Kremlin, a freshman in the law school last year, is visiting friends in Missoula. Sorenson will leave for Pensacola, Fla., April 1 to begin his training as a navy flying cadet.

## Pharmacy Meeting Is Planned for April

The joint meeting of the National Association of Boards of Pharmacy and the American Association of Colleges of Pharmacy, District No. 7, has been permanently set for April 11-12, Dean C. E. F. Mollett, chairman of the American Association of Colleges of Pharmacy for the northwest district, said yesterday.

The annual meeting will be in Spokane, instead of Seattle as was previously planned. Eight schools from the Northwest will be represented.

Leslie Trekell, '40, formerly of Great Falls, is now stationed at Fort Richardson, Alaska, in Company M of the Fourth infantry. Trekell majored in business administration and economics and sociology.

Lucia B. Mirrieles, professor of English, was called to Shelby yesterday by the illness of her brother.

## THE SMOKE OF SLOWER-BURNING CAMELS GIVES YOU

**EXTRA MILDNESS, EXTRA COOLNESS, EXTRA FLAVOR AND**

### Flash from Sun Valley! EVELYN DOMAN FIGURE-SKATING STAR

Breathtaking spins, spirals, jumps —there's a thrill in every click of her flashing blades. And afterwards —"A Camel tastes so good—they have so much more flavor," says Miss Doman. But *more flavor* is only one of the "extras" you get in slower-burning Camels.

LIKE ANYONE WHO  
SMOKES A GOOD DEAL,  
THE **EXTRA MILDNESS** IN  
SLOWER-BURNING CAMELS  
IS IMPORTANT TO ME.  
AND THE **FLAVOR**  
IS SO GRAND!

IF YOU SKATE AT ALL, then you know that cutting a pretty figure is not as simple as pretty Evelyn Doman makes it appear. Behind her seemingly effortless grace are hours of hard practice.

She takes her skating seriously . . . her smoking, too. "I smoke a good deal," she ex-

plains. "The slower-burning cigarette—Camel—gives me the extra mildness I want."

Slower-burning . . . costlier tobaccos. Yes, slower-burning Camels give you a fuller measure of flavor without the harsh effects of excess heat . . . extra mildness, extra coolness, extra flavor—and less nicotine in the smoke.

BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to 5 EXTRA SMOKES PER PACK!

SLOWER-BURNING  
CIGARETTE**

# 28%

## LESS NICOTINE

than the average of the 4 other largest-selling brands tested—less than any of them—according to independent laboratory tests of the smoke itself

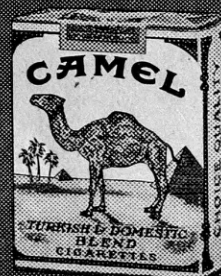

**N**O MATTER how much you smoke, all that you get from a cigarette—all the flavor, mildness—you get it in the smoke itself. The smoke's the thing!

Science has told you Camels are slower-burning. This slower way of burning means more mildness, more coolness, more flavor in the smoke.

Now, these new independent tests reported above—tests of the brands most of you probably smoke right now—drive home another advantage for you in slower-burning Camels—*extra freedom from nicotine in the smoke.*

Try slower-burning Camels. Smoke out the facts for yourself. Dealers everywhere feature Camels at attractive carton prices. For convenience—for economy—buy Camels by the carton.
