## UM BOTANIST TO HELP AEC RESEARCH INSTITUTE

Dr. Mark Behan, assistant professor of botany at the University of Montana, has been selected a participant in the Radioecology Institute sponsored by the Atomic Energy Commission.

The institute will be conducted in the Department of Radiology and Radiation Biology at Colorado State University, June 13-25. The institute has been designed to provide research workers with current information on the use of radioisotopes as tools in fields of ecological research, such as nutrient cycling and studies of productivity.
