GARDEN/GARDEN

vermiculture in a Tupperware box
and a sustainable future drag the lake

where animals grow in our lungs
this is an introduction to space-time

wireless communications a vine is now
a six-second video what wondrous

planned space has been made for us
eating Little Caesar's Pizza in a strip mall parking lot

and a sustainable future dirt paths
circuit the plants into the concrete

recycling can happen almost anywhere
a plastic bucket full of batteries

and a sustainable future their cells are my cells
I can feel them in my grafted/recycled

lithium face and a sustainable future
it makes my womb tired just thinking about it
