## All-Intramural Basketball Teams Picked; Sports Staff Not Responsible

BY BILL BARBOUR

With apologies to Grantland Rice, Bill Stern, The Downtown Quarterbacks club, and the Ancient Order of All-Star Selectors, members of the Kaimin sports staff present their version of an all-intramural basketball team.

First Team	Second Team
F. Schwend, South hall	F. O'Hern, Sigma Alpha Epsilon
F. Schwab, Sigma Chi	F. Pospisil, Sigma Nu
C. Pfeffer, Jumbo hall	C. Farrington, Sigma Chi
G. Eaheart, Phi Delta Theta	G. McCourt, Sigma Chi
G. Swarthout, Sigma Phi Epsilon	G. Patton, Foresters

## MSU Will Be Host to 21 Debate Teams

Twenty-one colleges and universities have accepted invitations to the university's invitational speech tournament April 18 and 19. Trophies will be awarded in debate, oratory, extemporaneous speaking, and oral interpretation.

Out-of-state entries include Gonzaga university, Washington State college, University of Idaho, University of Hawaii, Northwest Nazarene college, Northern Idaho college, Monmouth college, College of Puget Sound, Colorado A and M, North Dakota State Teachers college, Oregon State college, Willamette university, Linfield college, Seattle Pacific college, Seattle college, and Denver university.

Montana entries are Carroll college, Montana State college, Montana State Normal college, Northern Montana college, and Eastern Montana State Normal school.

## Fountain to Close Between Quarters

Student Union fountain will be closed March 20 at 1 p.m. and will remain closed until March 24, Jack Cuthbert, fountain manager, said yesterday.

Students who eat at the fountain may use the facilities of the dormitories between quarters if they contact the registrar's office by Monday.

The Student Union bookstore will remain open two hours in the morning and two hours in the afternoon during the intermission between quarters.

## U of British Columbia Will Hear Jeppesen

C. R. Jeppesen, professor of physics, has been invited to present a paper as principal speaker at one session of a symposium at the British Columbia Academy of Science. The symposium will take place at the physics department of the University of British Columbia on April 5.

The topic for discussion will be "Spectro Chemical Analysis by Emission Spectrum."

## McCain Will Attend Meeting in Helena

Pres. James A. McCain will attend an executive council meeting of the units of the University of Montana in Helena tomorrow and Saturday.

## Ballerina

Marina Svetlova, Prima Ballerina of the Metropolitan Opera, last night appeared before an overflow crowd at the Student Union theater. Her last Community Concert performance will be tonight at 8:15.

## Book Store Issues Card

The system for purchasing books at the student bookstore spring quarter will be the same as that used winter quarter, Don Ritter, acting store manager, announced yesterday.

Beginning at 9 a.m. March 24, students may pick up cards at the bookstore indicating the time they may purchase books. This method will be used again to eliminate long standing lines, the acting manager explained.

"Before the end of this quarter all departments will have posted on their departmental bulletin boards a complete list of the required books for all courses to be given by the department spring quarter.

"Students should consult these lists and have a complete and accurate list of all the books they need before coming to the bookstore. Students should also have a list of the supplies they will need for at least the beginning week of the quarter and purchase them at the same time they buy their books," he said.

"All veterans will be required to have their activity cards for spring quarter before they can make purchases. Veterans will be allowed to make one purchase during the first week. After that they will be limited to one purchase a day and no purchases can be made after 4 p.m.," Ritter stated.

## Mountaineer Obtains Writing Talent; Best Issue Now Out

BY DAVE MARTIN

The best Mountaineer in years, when all's considered, came out yesterday. The fact that there is such talent on the campus isn't nearly as surprising as the fact that it has been brought together under one cover.

The best among the good is "Stadi Yazho and the Voice" by Joe Pavelich. Joe tells the story of the Serbs facing destruction at the hands of the German war machine, a thing outside the understanding of their lives. He tells the story through a man who, after a life in the mills and mines of America, has come back to his homeland to die. "Stadi Yazho" seems to know, and Joe to understand, what this war means to his people. It is a good story.

A poem, I think, is never good, but beautiful or powerful, Dave Perkins' poetry has the quality of

beauty. It is difficult to describe the words, the form, the ideas that make a poem. Let it suffice to say that the one short Perkins poem is of beauty.

Of the contributors who have done good jobs, I know one who could have done better. Marge Karlin has told a story of lives and a death in an eastern town. The subject is good for a story, but Marge might have told hers better.

Dr. Paul Meadows has an article in this Mountaineer in which he soundly spans the scientists, particularly the atom-bomb scientists, for the attitude that science

(please see page two)

## Central Board Okays ASMSU Participation in Concert Series

Central board Tuesday night approved ASMSU participation in the Community Concert series next year, and appointed Ray Loman, Ronan, to head a World Student Service fund drive spring quarter.

Continuing the present program, Central board agreed to appropriate \$4,200 for Community concert tickets. The motion included a request that a student be on the program selection committee.

Loman and Mary Morrow, Oak Park, Ill., senior board delegate, will plan a drive for funds to be used to aid students in war-devastated countries.

### Store Bid Postponed

Action on the request of a private person to lease an ASMSU building on the golf course for use as a store and meat market was postponed until the next meeting. Don Kern, Livingston, Mary Morrow, and Martin Ferris, Troy, were appointed to investigate the reaction of university officials and students living in the strip houses.

### Appointments Confirmed

Publication board appointments of Vic Reinemer, Circle, and Judson Moore, Memphis, Tenn., as Kaimin editor and business manager, respectively, were approved.

George Smith, instructor in English, presented a plan to have theater show pictures recalled by student poll at special showings. The board postponed action until a later meeting.

Auditor Kirk Badgley was authorized to use student funds to pay the Community Concert association for tickets purchased this year, pending receipt of the budgetary appropriation.

The board authorized the social committee to rent all three Student Union ballrooms for the Will Osborne dance April 5 if advance ticket sales indicate a need for more room.

## Political Rally Names '47-'48 Office Seekers

Unaffiliated students named Dawson Oppenheimer, Butte, presidential candidate for next year's senior class at a political rally Monday night. Oscar Donisthorpe, Lewistown, and Bill Worf, Forsyth, were chosen presidential candidates by next year's juniors and sophomores.

Other nominations for next year's senior class offices were Lois Woods, Silver Star, vice president; Zoe Ann Fryberger, Charlo, secretary; Mary Jane Lindstrom, Carlyle, treasurer; and Bill Lockhart, Missoula, board delegate.

Cal Murphy, Kalispell, was named candidate for vice president of next year's junior class; Deanne Parmeter, Plains, secretary; and Harold Wenstrom, Helena, Central board delegate.

Other candidates chosen for next year's sophomore class offices were Ruby Popovich, Roundup, vice president; Laura Bergh, Froid, secretary; Shirley Adolph, Roundup, treasurer; and John Smurr, Sacramento, Calif., Central board delegate. Harris Hogan, Missoula, acted as chairman of the rally.

Oscar Donisthorpe, chairman of the nominating committee, said the naming of candidates Monday does not preclude further nominations from Independents not present at the rally.

Independents who wish to submit names of candidates should contact Donisthorpe at South hall or the presidents of any of the residence halls.

Unaffiliated students will stage a second political rally early next quarter.

### CONVOCATION CANCELLED

E. L. Freeman, convocation committee adviser, announced that Friday's convocation has been cancelled at the request of Joan Carroll, Corvallis, Newman club secretary. The Newman club was scheduled to present the convocation Friday.

## Women Elect Hillstrand New President

Bette Hillstrand, Great Falls, was elected president of AWS in the final election yesterday.

Other new officers are: Zorka Mastorovich, Roundup, vice-president; Joan Carroll, Corvallis, secretary; and Hilda Myre, Somers, treasurer.

All officers were elected by a majority vote of the associated women students. They will assume their duties at the beginning of spring quarter.

## Campaign Started To Get Air Unit In Missoula

Congress has appropriated the money to establish Marine Air Reserve units and a campaign is under way to have one of the units established in Missoula, Robert E. Perry, Missoula, former navy pilot, told a group of veterans at a meeting Tuesday night.

Although it is a Marine Air Reserve unit, it is open to Army veterans who sign over to the Marine Reserve and to Navy and Marine veterans. There must be 42 pilots, 15 line officers, and 175 enlisted men signed before there can be a unit established here. According to the files of the Missoula Navy recruiting office there are enough Navy and Marine veterans to form such a unit, Perry stated.

Officers on active reserve will fly four hours a month and will have two weeks of flight during the summer. No information has been received on work for enlisted men but it will probably be the same as officers, Perry said. Rate of pay will be according to rank at time of discharge. One and a half hours of flight will constitute a full day of pay. Personnel on inactive reserve will receive no pay.

### LATE SCORES

Sigma Nu and Jumbo hall successfully passed the first leg of the intramural basketball tournament last night. In the first game Sigma Nu defeated Sigma Chi, 34 to 21. Jumbo won the second from South, 45 to 42. Details will appear in tomorrow's Kaimin.

## Date Book . . .

## An Indication—We Hope

Now that the legislature has adjourned and President McCain is again sleeping nights, let us take a brief look at what happened to the University.

All in all, it wasn't bad, although the State of Montana still has a long way to go in meeting its obligations to higher education.

First of all, the university millage levy was increased from three and one-half to six mills. This means that the six units of the University will receive nearly twice the amount of former appropriations.

Under present property evaluation in Montana, each mill is expected to bring about \$361,456, meaning that the six units of the University should receive about \$2,168,736.

At convocation last Friday, President McCain explained the entire legislative program concerning the University. MSU will receive \$633,000 as its share of the six mill levy for the next two years, as contrasted with the present budget of \$561,000.

Maintenance of the physical plant will receive \$277,000 of this total. A new boiler will be installed at the heating plant.

Another bill provided for \$300,000 for a new business administration building. In the 1948 elections, Montana citizens will vote upon a \$5,000,000 bond issue, intended to provide needed buildings for the units of the University.

While the legislature did not always show the foresight and progressiveness that other state assemblies have shown concerning education, its actions were an improvement over the past policies of keeping education in as low a position as possible.

The University was, for the most part, well supported by many Western Montana legislators. Missoula's Winfield Page worked diligently for most of the things the University needed. During the closing days of the legislature, Mr. Page gave of his time to come to Missoula to discuss certain legislation with President McCain and several students.

We were sorry to see the Havre and Billings units break their agreement with Chancellor Selke and the other four presidents regarding special appropriations for their respective campuses, and we were even sorrier to see their surprise requests granted. But, all things considered, the session did not go badly.

We hope it is an indication that Montanans will begin supporting their educational system as they have failed to do in the past.

## 'Mountaineer' 'Best Yet'

(continued from page one)

is something pure, something divorced from life. He calls it the "League of Frightened Men." The bomb could destroy Missoula and kill every person in it, yet it is surprising how little change it has made. I still go to classes, Dr. Meadows goes to classes, and statesmen still quarrel. I guess it has made some scientists go to church, others write articles for Colliers, and still others form new organizations. Science has long deserved this spanking.

There are many good things in Mountaineer. The poetic transcriptions from "Moby Dick" are good, although in a few places the language grows unwieldy. "The Motives of the Wolf," translated from a Spanish poem-fable, is a fine piece of work, as is Mrs. Mary B. Clapp's poem, "Evicted."

William Pattison has a good story of an occupation soldier. I

## Basketball Team Sets Two Records

Although the basketball team started off with a poor record this season, figures from the athletic department show that they set two scoring records this year. The squad made the best point average per game, 58.6 in 28 games, and also set a record for the most points in one season, 1,641.

High scorer this season was Lou Rocheleau with 273, followed closely by Chuck Davis with 252. Moses and Carstensen collected 216 and 201 respectively. Cope hit for 175, Cheek 108, Selstad 90, Bauer 87, Graham 83, Holding 63, and Nash 51.

like the objective way in which it is told. There is even a good humorous story in the magazine, a short story by Jack Delaney, "Organized Recreation." In fact, Mountaineer is very worth your reading this quarter.

## Letters to the Editor . . .

Dear Editor:

Had Mr. Casey stated his marital, financial status, the number of credits he carries, and his grade point average, his defense of the status quo of veterans' subsistence pay would have been more accurate. If he is fortunate enough to be able to carry 16 or 18 credits per quarter, to work 6 to 8 hours a day (that is, providing Pa, or a reasonable facsimile, doesn't kick through with enough outside financial help to make working unnecessary), and to have some amusement occasionally—and invariably end the quarter with an index of 2, without attending lectures, or an index of 3 by attending lectures, then Mr. Casey's ideas are beyond reproach.

But, unfortunately, too many of us veterans (and even some non-vets) find ourselves in another world—we married students even more so. In our efforts to maintain a standard of health and decency, we have found that our fixed expenses are comparable to those of non-students, but we also find our incomes much lower, as a rule. In order to raise our income, we must work longer hours on some job—thereby neglecting our studies and defeating, ultimately, the purpose of our attending school. Most veterans do not expect Uncle to foot all the bills, or even 99% of them, but it is fair to recommend an adjustment in veterans' subsistence allowances in harmony with the rising cost of living.

The aim of the G. I. Bill of Rights was not to give veterans the right to attend school (we've always had that right)—but to give us financial aid to exercise that right. If we veterans find that rising costs are jeopardizing our financial status quo to the extent that our schooling is shamefully neglected (or worse, we must withdraw entirely), then the bill's aim is defeated. This would seem rather ironical in a country that has billions to give away to help, directly or indirectly, to reconvert the vets of our former allies and enemies and on the other hand neglects giving a few millions to its own veterans.

TOM DARLAND

Dear Editor:

Since this is "raise veterans' subsistence pay month" and I am interested in increasing my subsistence allotment I would like to express certain views—somewhat in answer to the school of thought represented in the letters to the editor column in Tuesday's (March 11) Kaimin.

No one except the ignorant (respectfully written) denies that the GI allotment is not enough to satisfy its intention, i.e., subsistence . . . written on the check.

Let us not let ideals confuse the issue. We can well use the money. It is theirs to have who go after it. The "miserable condition of some public institutions" (schools? reformatories? health services? prisons?) has nothing to do with it. There are many lobby offices in Washington, D. C. and public institutions don't support any of them. The institutions' lobbyists are the

general people like you and me who seldom lobby in concert.

The way to get things is to go after them. The veterans can get their raise if they go after it. Then, when they get the money, those who wish can turn it over to the indigent institutions and "inmates (who can't vote)."

There is nothing wrong with getting money from the government. Again, ideals may confuse the issue. Already the government gives all of its citizens plenty of money in indirect ways. No one need be ashamed to take it directly as long as the purpose with which it is used is constructive or beneficial to society—and the government.

There are countless things one can do with one's time, constructively and destructively. Earning money is one of the biggest and fits both categories. Having this mode of using our time pretty well eliminated does not, necessarily, destroy our abilities for good works. It may, in fact, enhance them.

I am in favor of all college students—veteran or non—receiving an adequate subsistence allotment from the government. I believe though, that it is foolish to sit inert, magnanimous and complacent on huge impossible ideals. Unselfishness is an admirable trait in itself. For practical purposes, however, it could well be tempered with realism.

Subsistence has gone up and at the risk of being corny I might say that now is the time for all good veterans to come to the aid of their pocketbooks. It won't hurt any body. The lobbyists will get it if we don't.

Very truly yours,  
Howard I. Jacobson.

## Board Requests Bids For Sentinel Editor

Applications for editor of the 1948 Sentinel are now being accepted in the Student Union business office, according to Mary Morrow, Oak Park, Ill., chairman of publications board.

The editor of the Sentinel is chosen upon recommendation of Publications board by junior members of the yearbook's editorial staff. Persons who have served in the capacity of assistant editor will be shown preference in the selection of editor, according to the ASMSU by laws.

## FIGURES DON'T LIE—IT CAN BE DONE

More than one-fourth of the ex-service men and women going to the University are married, according to figures released by Registrar Leo Smith.

Five hundred and fifty-two of the 2,008 GIs on the campus have decided that studies and married life can mix. Fifteen of the married GIs are women and 537 are men. Pre-fabs, trailers, and row-houses furnish housing for 224 couples.

# Fessenden Predicts Great Track Team

Five Lettermen, Four Former State Champs Among Men Training

If former high school state champions make outstanding track stars in college, the University will have an excellent team, according to a statement made by Coach Doug Fessenden, yesterday.

Five of the 35 men out for track are returning lettermen and four are former state champs. The returning M men are Dan Yovetich, Butte; Eugene Fleming, Eureka; Louis Rocheleau, Missoula; Jim Mayes, Long Beach, Calif.; Ben Tyvand, Butte, and Warren Corby, Milwaukee, Ore.

Coach Fessenden expects Richard Zook, Peoria, Ill., Howard Domke, Great Falls; B. J. Smith, Butte, and Rex Nichols, Stevensville, to make a good showing this spring.

The men are training daily but poor weather conditions and wet track are limiting the amount of time they may spend outdoors. First meet of the

season will be April 19 against Eastern Washington college at Missoula.

Those signed for track are: Shotput—Hank Purdy, San Diego, Calif.; Allan Lamb, Scott Cunningham, Dick Doyle, Crosby, Don Delaney, and Ray Froehlich, all of Missoula; William Dolan, Troy.

Discus—Crosby, Lamb, Cunningham, and Doyle.

Javelin — Purdy; Cunningham; Dolan; Froehlich; and Dick Stegner, Missoula.

Pole vault—Mayes; John Manlove, Whitehall; and Donald Martin, Farland.

High jump—John E. Grow, Orange, Calif., and Rocheleau.

Broad jump—Mayes; Rocheleau; Fleming; and Neil Haight, Missoula.

High hurdles—Clark Reed, Missoula; Tyvand; Yovetich, Rocheleau; Joseph Wolpert, Missoula; and Robert Perry, Missoula.

Low hurdles—Reed, Yovetich, Wolpert, Perry, and Tyvand.

100-yard dash—Smith; Fleming; Yovetich; Manlove; Frank Cruzen, Orange, Calif.; and Larry McLatchy, Helena.

200-yard dash—Smith, Martin, Yovetich, McLatchy, and Ed Sullivan, Butte.

440-yard dash—Stegner; Cruzen; McLatchy; Martin; Smith; Domke; Walter Donaldson, Missoula; and Craig Silvernale, Igloo, S. Dak.

Half-mile—Zook; Domke; and Herb Kuphal, Missoula.

880—Richard Colvill, Missoula; Stegner; and William Brandt, Great Falls.

1 mile—Colvill; Kuphal; Nichols; Dale Peterson, Viborg, S. Dak.; and William Dickerson, Missoula.

## MEETING POSTPONED

# SAE Moves Into Lead As Sigma Chi Drops Second Game

The SAE basketball team moved into a tie for first place Monday night by defeating the league-leading Sigma Chi squad, 29 to 28, and took undisputed possession Tuesday night when the Sig quint was again toppled, this time by South hall, 38 to 27.

Better ball handling and teamwork gave the SAE's a one-point lead at the end of the first quarter. In the second period team coordination came to the front, and the SAE's were able to increase their lead to 21 to 12 at half-time.

A volley of quick baskets by Lepley and Farrington brought the SX team to within two points of the leaders early in the third quarter. At this point Lepley fouled out and the Sig rally lost its spark. The SAE's quickly pulled away to a 28-to-21 lead.

## Hoffman Sparks Rally

Hoffman sparked a Sigma Chi rally in the last period that threatened to give them the ball game. In the last eight minutes the SAE team was held to a one-point margin. The game ended with SAE in possession of the ball, and boasting a 29-to-28 victory.

This game, a benefit match to aid the Red Cross drive, may not have been the best ball game of the season, but general opinion seemed to class it as the roughest. Referees Leeper and Semansky called 54 personal fouls, 32 on SX and 22 on SAE. Three players were called out on personals, and the officials evicted two men for ungentlemanly shenanigans under the basket.

## OIS Defeats SPE

In the first game of the evening OIS earned a hard-fought 35-to-31 victory over Sigma Phi Epsilon. The Independent's tall McKie set the scoring pace with 18 points. Bill Swarthout once again proved that he is the most consistent scorer in the league by garnering 14 points for the Sig Eps.

For the first time this season a triple, rather than a double-header, was carded. In the third game a fast breaking Sigma Nu team coasted to an easy 45-to-20 victory over the Foresters. Pospisil scored 16 points to lead both teams while Tholt with seven was high for the Foresters.

## South Hall Trims Sigs

Tuesday night the Sigma Chi team bowed down and out of first place at the hands of a spirited South hall team by the score of 38 to 27. The first half was close with South hall leading most of the way by one to two points. A late rally in the first half by Schwend and Kitto put the hall team ahead six points.

The Sig squad, hampered in scoring power by the loss of star forward Johnny Schwab, out with an injury, and Team Captain Pat Campbell, who is in the hospital, put up a strong fight in the second half but the fast breaks of Martin and Schwend proved too much to overcome. Schwend starred for South hall making 12 points, followed by Kitto who sank 9. Kuhl led the low scoring Sigs with six.

## Corbin, Phi Delt Wins

Corbin hall went on a scoring spree in the first game Tuesday night to outdistance the Phi Sigs, 49 to 42. Hebert, Corbin hall ace, led the scoring with 21 points. Fox and Chaffee of the Phi Sig team made 14 and 12 respectively.

In the last game the Phi Delt, behind the leadership of Eaheart, defeated the Independents 55 to 38. The game was close during the first half and later turned out to be a scoring duel between Eaheart, Phi Delt, and Mayfield, of the Independents. Both men scored 20 points to share high point honors for the game.

# Many Found Articles Repose at Switchboard

Many articles have been turned in to the "lost and found" department at the switchboard and mail room in Main hall, Mrs. Ruth Hughes, chief operator, said.

Numerous articles, such as mittens, pens, men's rings, and notebooks have been found and may be claimed upon proper identification, Mrs. Hughes said. If articles are not called for "within reasonable length of time," they will be turned over to the local victory exchange.

## All-Intramural Team Picked

(continued from page one)

and shiftiness that were second to none.

Roman Pfeffer, Jumbo hall's high jumping center, gave Schwab his closest race as most popular selection. Pfeffer was given seven first team votes and one second. He was at his best on rebounds and under the basket, scoring most of his points on tip-ins from this position.

Abe O'Hern, Jack Pospisil, Harry Farrington, Jack McCourt, and Bob Patton form a second team that is itself a better than good ball club. If a dream game could be arranged between the two teams it wouldn't be surprising to find a good number of students placing their chips in back of O'Hern and company.

### Patton Takes Time

Bob Patton is a scoring threat from any spot his side of the center line, and he is probably the coolest and most unhurried ball player in the entire league. Farrington and McCourt contributed a great deal toward protecting Sigma Chi's undefeated record up until the final stages of the season. Farrington was invaluable under the basket, and McCourt was noted for his fighting brand of ball.

If any one player can be singled out of the well-balanced SAE team as that team's outstanding player it must be Abe O'Hern. Although good team play was mainly responsible for SAE's final league supremacy, it was O'Hern who sparked his club with consistent scoring and constant aggressive play.

Likarich, Walterskirchen, Daws, Brennan, Breidenfeld, Muskett, Kitto, Deikos, Wedin, Paul, Young, Johnson, and Nelson came in for a fair share of votes, and accordingly rate a traditional honorable mention. It is highly probable that any one of these men would have been all-league material in normal years.

Sports enthusiasts the nation over are probably the most controversial breed of people in all human society. It seems apparent that one of the main reasons for the tremendous popularity of athletic contests in this country is the great variety of food for argument and disagreement offered by those contests.

This theme is especially noticeable in the selection of various all-star teams. It is reasonably safe to assume that never has such a team been chosen that met with universal approval. Every arm-chair strategist and Sunday-morning quarterback has at one time or another called the Sterns and the Rices, and the other so-called experts, a bunch of chowder-heads, and gone on to vow that he

could pick a more representative all-American team with his eyes closed and one hand tied behind his back.

Five grade points against a day-

old doughnut says that this particular team will not prove to be an exception to the rule. For this reason it is suggested that all gripes, beefs, complaints, and

sundry criticisms (other than those that take the form of physical violence) be addressed to Bill Barbour in care of the Kaimin. It is promised that the Kaimin staff

will give careful consideration to each complaint, provide answers where necessary, and tuck them neatly in file 13 for future reference.
