Dahl Given Scholarship By Bankers

Leonard Dahl, Great Falls, a senior in business administration, was awarded a \$250 scholarship by the Montana Bankers' association at a special convocation in the Main hall auditorium today.

The scholarship, awarded for the first time this year, was presented by Paul S. Gillespie, Missoula, chairman of the association's special education committee.

Dahl is a graduate of Sidney high school and is majoring in business administration and specializing in accounting.

The scholarship was set up last year by the Montana Bankers' association to encourage and aid young men interested in entering banking and finance after completion of their university training.

Gillespie, president of the Western Montana National bank of Missoula, said:

"The Bankers' association for some years has been interested in the school of business administration and at various times has given evidence of its appreciation of the growth that has taken place. Our members have wanted to create interest in the minds of young men in the possibilities in the banking and finance profession."

HAVRE REGISTRAR REPLACES MARBLE

Health Service Reports Thirty Measles Cases

Measles cases on the campus reached 30 yesterday afternoon and Dr. C. R. Lyons, health service director, predicted the epidemic would grow.

"There is no way to prevent the epidemic," Dr. Lyons said. "It is just like a common cold, there are no precautions. About all you can do is sit tight and wait until it hits you."

Fourteen men with measles are now confined to the health service infirmary, seven women are in the New hall infirmary, and nine more students are confined to their homes, Dr. Lyons reported.

The health service director said no new cases of dysentery have been reported but tests on the drinking water are being taken every morning by bacteriologists at the natural science building. So far, he said, the water is all right.

"We can expect to find bugs, sticks, and dirt in the water," the doctor said, "but it is nothing to become alarmed over. The bugs are sterile."

Health Excuse Rules Stated

Dr. C. R. Lyons, health service director, yesterday restated the new rulings pertaining to health excuses and pointed out that they go into effect immediately.

The new rules state that health excuses will be given only under the following circumstances:

1. When confined to the infirmary.

2. When hospitalized by any physician.

3. When a written statement from any physician showing that the student was confined at home is presented.

4. Under circumstances when the student must receive dental or medical care at hours which conflict with his classes.

All other excuses from classes must be secured in person from the office of the dean of students.

This and his Portland, Ore., talk will be O'Connor's only speeches in the Northwest according to Prof. Edmund L. Freeman, convocation

Bunyan's Bearded Behemoths

Forester's Ball Ready to Roll Over Week End; Rules Stated

BY BOB FADER

With mythical reverence due their patron saint, Paul Bunyan the foresters hereby grant ticket holders tonight and tomorrow night the use of the following stomping grounds: men's gym, located in NE 1/4 Sec. 27 S13N R19W for the purpose of carrying on at the Forester's ball.

This grant issued by Chief Push Euel Davis, Missoula, marks the opening of the 34th annual Forester's ball.

Although the ball is produced for students' enjoyment, it is subject to the following conditions, Davis said.

Smoking Restricted

Some of the tree and boughs used for decorations are more than a month old and constitute an extreme fire hazard. Smoking will be allowed only in designated areas.

Spiked or hob-nailed boots will not be worn. Caulked boots will damage the basketball floor.

Liquor will not be permitted on the premises. This MSU statute pertains to the whole campus. Other restrictions also appear on the ticket.

Davis said that more than ever before, policing will be the responsibility of selected foresters. He hopes that all attending the ball will cooperate with these foresters to prevent any accidents.

Use of Money Listed

The \$3 charge for the ball's special use permit is divided two ways.

Friday night's receipts will be

used to defray the cost of the ball and the Forestry Kaimin which comes out during spring quarter.

Saturday night's receipts will be turned over to the Forestry club for use in the forestry students' loan fund.

This loan fund, which originated after the 1927 ball, is the largest forestry school loan fund in the United States, Prof. Mel Morris, faculty adviser for the fund, said. It represents students' efforts derived entirely from successful Forester's balls.

Fund Now Has \$6,000

At present, the fund amounts to over \$6,000. Any forestry student who meets requirements and needs financial help may obtain a loan through the Forestry club within a half hour.

A committee selected by the Forestry club manages the fund. Morris said the fund has proved an immeasurable help keeping students in school who otherwise could not afford it.

Before the war, all profits from the ball were turned over to the fund.

Refreshments will be served in the forestry school according to the dance listed on the permittee's special use permit. Beverages may be had at the "Wood Butcher's" bar.

During the 20 dances, prizes will be awarded to the best man's, woman's, and couple's costume on both nights. The best looking beard will also be selected.

No Business, No X-Ray Says Lyons

Because of lack of interest on the part of students, the portable X-ray unit will leave the university health service on Feb. 12.

Only about 35 per cent of the students have come for X-rays and there has been a definite lack of interest and cooperation on their part said Dr. C. R. Lyons, director of health service.

Dr. Lyons further stated that after the X-ray unit leaves, students will have to pay full price for X-rays. He indicated this would be to a disadvantage for students needing X-rays for ROTC and physicals for applications to other schools.

There are two reasons, according to Dr. Lyons, why the X-ray unit is leaving earlier than planned. These are the lack of student interest and the fact that the space is needed at the health service because of the many cases of measles.

The five plan to leave Missoula Feb. 15 and drive to Denver university where the tournament takes place annually. If the weather is bad, they will travel by train. Competition will begin on Feb. 17 and last for three days.

Last year the University, represented by two men, finished the tournament with a perfect score. Dean Jellison, Kalispell, and Lucas won every contest in which they participated.

McCain Re-elected To Local Board

They come from farms, sheep ranches, copper mines, and timberlands. They study forestry, law, accounting, fine arts, journalism, and classical languages.

The item was written by Nancy Garouette, college editor. Pictures were taken last October.

Grizzlies making the trip are: Ray Bauer, Dick Carstensen, Bob Cope, John Eaheart, Jim Graham, Dan Marinkovich, Ralph Ripke, Lou Rocheleau, George Scott and Tom Selstad. The Grizzlies were cut down to one practice session during the week due to a combination of the water conditions in the gym and preparations for the Foresters' ball.

Tonight, when the Grizzlies clash with the Dillon Bulldogs, they will be battling the top team in the Montana Intercollegiate conference. The Bulldogs boast the best squad they have had since before the war.

The Whitman Missionaries, Grizzly target for Monday and Tuesday nights, have had a good season this year. In their first contest of the season, they took a game from Idaho university on Idaho's home court. "We will have to play top-notch ball to beat them," Grizzly Coach Jiggs Dahlberg said before leaving.

The squad returns home Thursday morning.

In the academic year 1943-44 United States colleges and universities granted 2,305 doctor's degrees.
