Strips Move To Curb Pets

As of Feb. 15, the following restrictions are to be placed on pet owners in the strip houses, trailers, and prefabs, Mayor Andy Arvish, 11 Cascade, announced yesterday.

1. Owners' registration of all four-legged pets in these areas must be made in the housing office at the Community Center by the 15th.

2. No new pets are allowed to be brought into the area after this date, either by present or future occupants.

3. All such remaining animals shall be tagged by the owner with his name and address. These tags may be obtained at the housing office at no charge to the owner.

4. Multiple dog owners should contact Bob Breen, housing manager, for more adequate housing of these pets.

5. All female dogs in heat must be sent out of the area during the mating period.

These pet controls were passed by the village council at their regular meeting last Thursday night. Alderman Cliff Foy, 4 Custer, introduced the resolution and Jim Larson, 7 Ravalli, seconded it.

Unless the residents cooperate to control their pets, the ultimate action will be to remove all pets from the area, Arvish said. Such steps will be taken only as a last resort, should the situation get out of control.

Job Prospects in Medicine, Teaching Still Improving

College graduates will be in demand in the fields of medicine, psychology, kindergarten and elementary school teaching, and certain fields of electrical engineering during the next few years.

At the same time, competition for jobs in engineering, chemistry, pharmacy, law and personnel relations, will grow much keener.

These statements were made in a study prepared by the Occupational Outlook service, Bureau of Labor Statistics, U. S. Department of Labor, for use by the Veterans Administration in counseling disabled veterans planning to enroll in colleges, universities, or trade schools.

The report said the nation's supply of newly graduated doctors and dentists will be needed to fill vacancies left by physicians and dentists lost from these professions each year because of deaths and retirements. Because of this, very few medical graduates will be left over to expand the country's medical staff.

A record number of bachelor's degrees were awarded in psychology last year but there is still a demand for well trained people in this field.

"Over the next 10 years nearly one million teachers must be trained if the educational goals recommended by leaders in the profession are to be met," the report said. "The greatest need is in the kindergarten and elementary fields."

The report said there is an increasing demand for chemists with

J-Grad Heads Spokane Radio, Press Clinic

Mrs. Elwood Powers (Dorothy "Bunky" Rochon '43) has been appointed general chairman of the press and radio clinic to be sponsored by the Spokane Press club, Feb. 19. Her appointment was announced by the Educational Affairs committee of the Spokane Press club.

The one-day clinic, designed to furnish practical background in the various fields of journalism, will be conducted by professional newspaper and radio writers and commentators. It will include tours of newspaper plants and radio stations, as well as demonstrations and panel discussions.

Schools invited to send students to participate include Montana State University, Whitworth college, Eastern Washington College of Education, Whitman college, Gonzaga university, Holy Names college, Washington State college, University of Idaho, and North Idaho College of Education.

While at MSU, Mrs. Powers was a member of Alpha Lambda Delta, Spur, Tau Kappa Alpha, Theta Sigma Phi, publications board, president of AWS, head drum major, Mortar Board, and Kappa Alpha Theta. At present, she is a member of the editorial staff of the Spokesman-Review.

Dean Castle Introduces New Scholastic Standing Procedure

An automatic procedure for placing students on warning, probationary, or ineligible status was announced last week by Dr. Gordon B. Castle, senior academic dean. The procedure will make unnecessary the reviewing by a committee of 700 to 1,000 records each quarter and will enable a student to compute his status without reference to committee action.

This procedure has been adopted by the Committee on Academic Standards which replaces the Deans' conference. The committee is composed of Dr. Castle, senior academic dean; Herbert Wunderlich, dean of students; Dr. Maurine Clow, associate dean of students; and Leo Smith, registrar.

Basis of the new plan is a point system similar to that now in effect, wherein A's are assigned 3 points, B's 2, C's 1, D's 0, and E's and F's, -2. Total deficiencies as they exceed maximums established by faculty action will determine a student's status, Dr. Castle explained.

The procedure becomes operative immediately for freshmen and sophomores, but not until autumn quarter, 1949 for juniors and seniors.

"There are three levels of scholarship deficiency, warning,

probationary, and ineligibility status. These ratings are based on the number of points a student is deficient at the end of any quarter," Dr. Castle said.

A freshman student carrying 12 credits is placed on warning status if he has a deficiency of 14 to 23 points. If he is carrying less than 12 credits he is placed on warning status with a deficiency of 9 to 13 points. Similarly, in any other quarter of the lower division (freshman-sophomore) the student is placed on warning status with a deficiency of 14 to 23 points. In the upper division (junior-senior) a student is placed on warning status with a deficiency of 12 to 15 points.

Dr. Castle said the same procedure is applicable to probationary status. A lower division student is automatically placed in this category with a 24 to 44 point deficiency. If he is carrying less than 12 credits the deficiency is 14 to 23 points. An upper division student is placed on probation if he has a deficiency of 20 or more points.

A first quarter freshman becomes ineligible if he fails to pass at least one course of three credits. All other lower division students become ineligible if their deficiency is 45 or more points. Upper

division students become ineligible with a deficiency of 20 or more points.

A lower division student declared ineligible must wait three quarters before he can re-register at the University. He is placed on probationary status on his return.

An ineligible upper division student with a deficiency of not more than 30 points may register in the University as an unclassified student for one quarter, carrying a repeat schedule. If he reduces his deficiency to less than 20 points he may then re-register as a classified student. If his deficiency is not reduced to less than 20 points he is again declared ineligible. He must then appeal to the committee before he can re-register.

If his first ineligibility is caused by a deficiency of 30 points or more the student may register as an unclassified student upon the approval of the committee.

Dr. Castle said that the regulations adopted by the committee would be distributed to the living centers on the campus or that they could be picked up at the dean of student's office. He urged that every student familiarize himself with the regulations so that he could appraise his position from his university records.

Heads Clinic

Mrs. Dorothy Powers, an MSU alum, is the head of the press and radio clinic being put on in Spokane by the Spokane Press Club Feb. 19.

Additional Millions Needed By Red Cross, Says O'Connor

"The only giving in this world that is important is not that which comes from the mind or the pocketbook, but that which comes from the heart."

That is how Basil O'Connor, president of the American Red Cross, summed up the problems of the Red Cross before a small audience of less than 200 students and faculty members at yesterday's convocation.

He was introduced by Pres. James A. McCain, who also presented Miss Mary Condon, state superintendent of public instruction, and E. H. Myrick, chairman of the Missoula-Mineral Red Cross chapter and a member of its Board of its National Governors. Entertainment for the program was provided by the Sinfonians, a campus barbershop quartette.

Mr. O'Connor reviewed the four major services of the Red Cross: aid to the armed forces, veterans' services, the national blood-research program, and disaster relief. He emphasized that the \$5 million disaster fund and the \$7 million reserve may fall far short

of covering flood disasters this spring.

The Red Cross will ask the American people for \$60 million dollars in the drive beginning in March. This is 75 per cent of the \$81 million goal. The remainder will come from unused funds that were raised in the highly successful war drives. Mr. O'Connor reported that after the March campaign the Red Cross will ask the public for the actual amount of money needed since the reserves will be gone then.

He compared this year's \$81 million goal with the \$233 million that was given in one year during the war. Speculating on a cut in the Red Cross program for the coming year, he said he could not foresee the American people investing less in veterans' services and relief than the \$18 million to be allocated. He termed the national blood-research program "the greatest civilian contribution to Americans from the Red Cross."

The Sinfonia quartette, composed of Jim Callihan, Spokane; Coyne Burnett, George Lewis, and Neil Dahlstrom, all of Missoula, sang four songs.

Band Concert Will Provide Novel Features

A special free band concert by the 95-piece university symphonic band will be presented Saturday at 2 p.m. in the Student Union auditorium, Director J. Justin Gray announced yesterday.

The concert is being prepared especially for young people in the Missoula area and the program will include a demonstration of all band instruments and how they are combined to produce a symphonic band concert.

As a special feature, several youngsters will be selected from the audience to conduct the band. Everyone of all ages is welcome, Gray said.

Judges will select the best of the young "guest conductors" to lead the band through a complete number. A prize will be awarded following the program.

The art department has a special feature planned for the audience when the band plays a selection entitled "Pictures at an Exhibition" by Moussorgsky. Other selections will include Ravel's "Bolero," "Russian Sailors' Dance," by Gliere; "Flight of the Bumblebee," a trumpet solo by Grant Mundy, Moore; "The Syncopated Clock," by Anderson; and "Jingles All the Way," a fantasy on radio commercials.

Four Halls Get New Furnishings

The University has spent \$3,795 since fall quarter to repair and replace the furniture in four of the residence halls, according to Edith Ames, director of residence halls.

South hall received new rugs for both lounges and a new radio for the east lounge. A davenport and chair have been refinished.

Two love seats, two davenports, and thirteen chairs have been upholstered at North hall and a new radio-phonograph combination has been purchased for the west lounge.

A new mail box was built for the Corbin hall office and 13 chairs in the lounge were covered with plastic. A new radio was bought for the lounge.

New hall received a new radio-phonograph and a new book case for the lounge. One davenport was refinished.

More Darned Coal Used In January

Maintenance Engineer T. G. Swearingen reported yesterday that coal consumption at the university heating plant reached a record high during January.

A total of 850 tons of coal were used during the month and, on Jan. 25, coldest day of the month with a low of -25 degrees and an average of -13, 35 tons of coal were used. The previous highs reached in January, 1937, were 753 tons for the month and 32 for one day's use.

According to university records last January was the second coldest on record with an average temperature of 4 degrees. The coldest was January, 1937, when the average was 2.7 degrees; the warmest, 1934, with an average of 32.5 degrees.

Swearingen explained the discrepancy between university and weather bureau averages results from different procedures. University figures are an average of temperatures taken every three hours at the heating plant, whereas the weather bureau average is that of the high and low temperature during the day.

The 850 tons of coal is an increase of 216 tons over the quantity used in January, 1948, when there was a comparable number of students and buildings to be heated, Swearingen said. It represents 21 boxcar loads of coal, or more than two carloads every three days, an average daily usage of 27.4 tons.

MOUNTAINEER SETS FRIDAY DEADLINE

The deadline for submitting material to the Mountaineer is Friday. Manuscripts should be left in the box outside Library 105. The author's title and name should be submitted in a sealed envelope with the manuscript, but no identification should appear on the manuscript itself.

It Ain't Necessarily So

The cry is often heard that "College students are going to the dogs," their morals are degenerating, their standards are practically non-existent, and they are just well-educated drinkers who will never amount to a hill of under-cultivated beans." It ain't necessarily so.

Possibly this cry originates from the now successful members of the last lost generation, who, finally seeing the light, made good. The best way to know of, or about, anything is to participate.

After participation, a conclusion is drawn, either favorable or unfavorable and the proper cry is made.

For those who have made unfavorable comment about college students, here are some facts for consideration.

Students are the product of the whole society and any criticism of them is a criticism of the whole social order. Criticism, then, indicates our social system needs remodeling.

The student of today is no longer the barefaced, innocent boy taking a course in culture prior to returning home to a junior partnership in Pop's business. The student of today learned culture in various parts of a world very unsociable at times. He may have been a boy when he started this culture course, but he returned a man, a man ready to take on responsibility in a world still rather unsociable. That man is studying now.

Grade levels are now the highest in the history of education. This student has a genuine interest in learning, asks more questions, both pertinent and impertinent, because he knows what he wants. He has a goal and it's a well-established fact that the student with a goal works harder, gets better grades, learns more than the drifting student without a goal.

Some of these students are doing things that Pop, with his coonskin coat, never thought of, such as supporting a wife, children, and working part-time, in addition to keeping ahead of school work.

Professors and instructors say they like the current crop of scholars better than any they've ever had. This is understandable, since the students are more mature, know how to get the most out of courses, and know how to cooperate. He should know—he learned cooperation the hard way.

If the student of today is going to the dogs, it is the best class of dogs the world has ever known. — G. H.

CAMPUS BRIEFS

Election of new officers and pictures for the 1949 edition of the Sentinel will be the main events at a meeting of the Pharmacy club in CP 109 at 7:30 on Thursday.

Sentinel pictures of Sigma Delta Chi activities will be taken Thursday at 7 p.m. in the Bitter-root room.

Candidates for the Miss Montana contest are to meet tomorrow at 9 p.m. in the Copper room.

This is the last week the portable X-ray unit will be at the health service. X-rays will be taken between 9 a.m. and 4 p.m. Dr. C. R. Lyons, health service director, urges students to report as soon as possible for their X-rays.

"Atomic Energy" will be the topic of C. Rulon Jeppeson, professor of physics, at a meeting of Phi Sigma tonight. The biological honorary society will meet at 7:30 in NS-307. The public is welcome to attend.

Phi Chi Theta, women's business administration professional fraternity, will meet at 7:30 p.m. Wednesday in Craig 212.

The Mountaineer staff will meet Friday at 4 p.m. in Library 103.

The Miss Montana committee chairmen will meet tomorrow at 4 p.m. in the Silver room.

Members of Oro y Plata club, geology majors' organization, will take a field trip to Anaconda Saturday to visit the reduction plant.

SUMMER COURSES LISTED

Seven summer session courses in journalism have been scheduled according to Dean James L. C. Ford. The summer session will be from June 13 to August 19.

The courses on the graduate level are the High School Newspaper, Senior Seminar, Advanced Journalism Problems, and Research in Journalism.

Undergraduate courses are Current Events, second quarter Reporting, and Typography.

TVA OUT IN FRONT COMPARED WITH MVA

By STERLING SODERLIND
Kaimin Staff Writer

Any discussion of the Missouri Valley authority or administration as it is now known, is certain to return time and again to its prototype—the Tennessee Valley authority. For the 15-year-old TVA offers striking proof of how social forces can be put to work in an organized way.

In the seven states under TVA's wing, barren farmland has been returned to green health; there is plenty of cheap electric power and cheap water transportation; there are new industries adding to the region's prosperity.

In a sharply contrasting area of our country, the ten states of the Missouri river basin, the development during the same period has been haphazard. The Missouri river floods nearly every year, causing staggering losses—irreparable losses such as the carrying off of topsoil equivalent to a 100-acre farm every five minutes when the river is in high flood.

TVA Moves Ahead

And we note other losses, too, when we compare these two valleys. We see that the Tennessee valley has moved with seven-league boots while the Missouri valley progresses at a snail's pace. But the data, based chiefly on the agricultural census of 1930 and 1945, also shows that both valleys have moved forward with the rest of the country.

Most provocative of the items included in this comparison is the revelation that the per acre value of farm lands and buildings declined 35.4 per cent during the 15-year period in the Missouri valley while it rose 18.6 per cent in the Tennessee valley.

In size, the Missouri valley is by far the larger, embracing 10 states. But of these, only Nebraska lies wholly within its boundaries. The valley has nearly a fourth of all this country's farm land. The Tennessee valley takes in parts of seven states, but has less than 2 per cent of the farm lands.

TVA Farms Outclassed in Size

Tennessee valley farms are generally the smaller, family type, averaging about 73 acres. Those of the Missouri valley average about 478 acres. But whatever the size of the farm or the variance in the types of crops, there are certain measurements which may be applied to any farm for purposes of comparison.

The position of the two valleys is reversed again when measured by the value of farm machinery employed per acre of harvested land. For 1930 the figures were \$7.13 for the Missouri valley and \$7.05 for the Tennessee valley. The Tennessee project was begun in 1933. By 1945 the Missouri valley figure was \$9.34 but that of the Tennessee valley was \$12.72.

Also of interest is the comparison of farm homes equipped with electricity. TVA has constructed a vast network of hydro-electric dams which make cheap power available in its region. The result by 1945 was that 32.1 per cent of its farm homes had electric service. Even in that year a larger proportion of Missouri valley farm homes were so equipped. But since 1930 the gain in the Tennessee valley has been about seven-fold, against a two-fold increase in the Missouri valley.

Population Losses

Population of the Missouri valley has been slipping for 20 years, and the rate is quickening. College graduates are seeking opportunities in industry outside the valley states. Of the seven states that have lost population since 1940, four of them are in the Missouri valley region. Montana, with a nine per cent loss, is only one

notch above the nation's biggest loser—North Dakota.

Between the 1930 and 1940 censuses, the Missouri valley lost one half of one per cent in population. This ran counter to a national trend which showed an increase of over seven per cent. The Tennessee valley increase was 12 per cent.

MVA Has Great Potentialities

Thus we see the great differences between these two geographic areas of our country when we subject them to the same objective measurements. We note that one is located in the economi-

WSSF DRIVE POSTPONED

The World Student Service Fund campaign, scheduled to start this quarter, has been postponed until next quarter.

cally depressed South; we note that the other has the greater potential. A complete yardstick would show that the TVA area has performed unquestionably better than the nation as a whole and much above the performance of the Missouri valley states.

The great single factor of contrast between these areas is the existence of an orderly, unified program of river basin development in the Tennessee region, and no workable coordinated program in the Missouri states.

Montanans Lose, 61-59, To Whitman

Whitman college's Missionaries edged Montana's cagers last night at Walla Walla, Wash., 61 to 59, to snap the Grizzlies' winning streak at four games and even the two-game series count.

The Grizzlies return to Missoula tomorrow morning prior to a return engagement with Dillon Normal here Friday. Montana gave the Montana Normal college a 83-44 licking last Friday in Dillon.

Grizzlies Off

Montana, far off its regular game, hit only seven of 50 shots the first half as the Missionaries grabbed the lead early in that period and held it until four minutes into the second half. At that point, Montana rallied to forge ahead momentarily, but the Whits regained the upper hand and kept it to the final gun.

The Grizzlies hit 57 per cent of their shots from the field the second period to overcome a 19-25 halftime deficit. The game was very close the second half, particularly in the closing minutes.

Strategy Unchanged

The Whits did not change their strategy from Monday night, when they lost to Montana, 59 to 76. But their defense, a shifting man to man with a half zone, proved more effective. Whitman used a double-pivot set offense against the fast-breaking Grizzlies.

Three Montanans, Cope, Rocheleau, and Graham shared scoring honors with 14 points apiece.

The box scores:

Mont. (59)	fg	ft	pf	Whit. (61)	fg	ft	pf
Cope f	5	4	4	Heron f	7	2	4
Rocheleau f	6	2	5	Wall f	1	1	1
Carstensen c	0	1	1	Blicken	2	2	1
Eaheart g	3	1	1	staff f	8	2	3
Graham g	7	0	2	Anderson f	8	2	3

Halftime score: Whitman 25, Montana 19.							

The lowest spot in Montana is the Kootenai river with an elevation of 1,800 feet.

First Loss For Jumbo; Skiers Win

Phi Delta Theta used its fast break Monday night to topple Jumbo hall from the undefeated list in the intramural league. All-around scoring by the Phi Deltas was too much for G. Scott of Jumbo who netted 20 points, just two behind the record held by Marinovich of the Ski club.

The game, fast and furious, saw the first half end with the Phi Deltas holding a one-point lead, 25 to 24. Lefty Byrne spelled the difference in the second half as he pushed through 10 points. Scott, with an uncanny accuracy from the floor, kept Jumbo in the game by swishing 12 in the second half.

The Ski club used its weight and size to down the SAEs in the first game of the evening by 42 to 29. Little Mun Doran sparked the hefties with 13 which kept the Ski club in a first-place tie with the Phi Deltas. Neil worked the floor beautifully and netted nine for the the SAEs but the team missed the eagle eye of Thorsrud who was cold as ice, only netting one gift toss.

In the late game of the evening the Kappa Sigs downed the Business Ad club, 45 to 23. McGintey of the Kappa Sigs hit 11 for high score honors of the game. The Bus Ad club ran the floor game beautifully but couldn't seem to connect with the hoop from any place on the floor.

Box scores:

Cubs Make It Three in a Row

The Grizzly Cubs took their third straight win in the Western Montana basketball league Monday, downing the Evangelical United Brethren 78 to 61.

Taking an early lead, the Cubs held it all the way without any threat from their opponents. At the half the Cubs had a substantial 34-27 margin over the EUB.

The Lucas brothers dominated the court with Jim netting 21 points for the EUB while Don made 19 counters for the Cubs.

Tomorrow night the Cubs tangle with the City Cleaners.

WOODSIDE RELEASED FROM HOSPITAL

Don Woodside, Butte, who sustained a hand injury while tending a tow machine at the Diamond mountain ski run a week ago Saturday, was released from St. Patrick's hospital yesterday morning.

Woodside suffered two fractured knuckles and a fractured thumb of his right hand, which he will be unable to use for about six weeks. He resumed classwork this morning.

Ice hockey originated in Canada.

Halley's comet, which will return in 1986, has an inclination to the ecliptic of 162 degrees.

Football Coach Aspirant Here

Carnie H. Smith, candidate for the MSU head football coaching position, arrived in Missoula yesterday afternoon and will meet with members of the Grizzly grid squad this afternoon.

The head coach at Santa Rosa, Calif., Junior college will spend this morning visiting athletic staff members in the university gym. He will be a guest of the Montana Athletic association at a breakfast tomorrow morning.

The first applicant to be interviewed for the coaching position, Smith conferred with Pres. James A. McCain and members of the student-faculty athletic committee yesterday afternoon. Last night he dined with the athletic committee.

Smith is a former member of the University of California coaching staff and is one of many candidates interviewed by Dr. J. Earll Miller, chairman of the athletic committee, who is on leave in California. Cal's head mentor, Lynn (Pappy) Waldorf, has enthusiastic recommendations for his ex-staff member.

Smith graduated from the University of Kansas and holds a master of science degree from the University of California. In his first year at Santa Rosa, his team finished second in the Northern California junior college league and met Everett (Wash.) Junior college in the annual Redwood bowl game. His team won the junior college classic, 14 to 6.

"Jayhawks" is the gridiron name for Kansas.

Journalism Leads Faculty Bowling

Journalism usurped the faculty bowling lead Monday night by sweeping three games from Bus Ad at the Echo Bowling lanes.

Military Science, which was tied for the lead last week, took two of three from Humanities, but slipped into second place. Humanities rests in third place in front of cellar-dwelling Bus Ad.

Col. Jay Lovless of Military Science took high game and series honors with scores of 206 and 547. Guy Renzaglia, Humanities, hit 192 and 541 for runner-up honors.

The standings:

	W	L
Journalism	11	4
Military	10	5
Humanities	5	10
Bus Ad	4	11

How rhythmic can a rhythm song be?

You'll know when you hear Blue Barron's new waxing for MGM Records—"Powder Your Face With Sunshine"

The Barron has a foot-tapping arrangement here—a combo of Dixie, shuffle and 2-4 time. It's sure-fire styling for a danceable hit tune. And on the flip, Blue puts "Cruising Down the River" into fast waltz time. Blue Barron likes to mix his rhythms—but in smoking, he sticks to one brand—Camel. Here at the right, Blue is telling his vocalist, Betty Clarke, about Camels.

How MILD can a cigarette be?

Make the CAMEL 30-DAY TEST... and you'll know!

Yes, make the 30-day Camel Mildness Test. See for yourself how mild Camels are. In a recent test of hundreds of people who smoked only Camels for 30 days, noted throat specialists, after making weekly examinations, reported

I KNOW
HOW MILD A
CIGARETTE CAN BE!
I'VE SMOKED CAMELS
FOR YEARS!

THE 30-DAY MILDNESS
TEST CONVINCED ME.
CAMELS ARE
SO MILD—AND TASTE
SO GOOD!

NOT ONE SINGLE CASE
OF THROAT IRRITATION
due to smoking—

Camels

Money-Back Guarantee!

Smoke Camels and test them in your own "T-Zone." T for taste, T for throat. If, at any time, you are not convinced that Camels are the mildest cigarette you ever smoked, return the package with the unused Camels and we will refund its full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

Social Spotlight

With Forester's over, the measles epidemic dying a slow but sure death, and with water being available again at the turn of a handle old MSU's social life is getting back to normal.

Corbin Hall

Corbin hall was the host to 25 North hall girls Wednesday evening at an exchange dinner. Dancing in the firelight was enjoyed in the Corbin lounge following dinner.

Following dinner Thursday evening Corbin residents were entertained by a three-piece band composed entirely of Wallace Watkins, Great Falls.

Kappa Alpha Theta

Carol Chaffin, Corvallis, one of the speakers connected with the charm and personality program, was a dinner guest Tuesday evening. The subject of her after-dinner talk was posture.

The Thetas and Sigma Kappas had an exchange dinner Wednesday.

Irene Carmichael, Anaconda, and Marian Barry, Butte, were week-end guests.

Phi Sigma Kappa

The boys were serenaded by the Alpha Phis last Thursday evening. The gesture was a "thank you" on the part of the girls for the support they received during their recent basketball game. The PSK boys divided forces and rooted for both teams.

Two tap dancers and a hula dancer will be featured at a St. Valentine's dance planned for this Friday evening.

R. S. Peden and Cal Squires, Fairfield, and Joe Applegate, Libby, were dinner guests Wednesday evening. Sunday guests were Cal Lindburg and Doug Fraser, Ronan, and Ray Dockstader, Terry.

Synadelphic

Charm and personality program speaker Miss Greason was a dinner guest Tuesday evening. She spoke to the group on manners.

Wednesday evening featured an exchange dinner with the Alpha Chis.

Dr. and Mrs. Bart E. Thomas were dinner guests Sunday.

Theta Chi

Bill Humiston, Simms, left school last week to take over the position of music director of his home town high school, replacing his father, who is in ill health.

Carol Dyer and Peg Jungers, Seattle, Wash., were dinner guests Sunday of Larry Armstrong, Lander, Wyo., and Duncan McCarthy, Kalispell, respectively. The girls came over to take in Forester's ball.

Other dinner guests Sunday were Rich Linse, Ronan, Don Nettie, Missoula, and Mr. and Mrs. John C. Horst, Glendive, who were visiting their nephew, Jack Spencer, also of Glendive.

Denny Mollander, Glacier Park Station, visited his parents over the week end and Dick Rhodes, San Diego, Calif., an alumnus of Beta Alpha chapter at UCLA, was a week-end house guest.

Alpha Phi

Wearing the Greek letters of Alpha Phi following initiation Saturday morning are Joan Baldwin, Jo Anne LeFevre, Janice Ludwig, and Sally Waller, Kalispell; Nancy Cunningham, Somers; Barbara Blakeslee, Barbara Hainline, Marie Krebsbach, and Joanne Orvis, Missoula; Sally Sell, Helena; Pat Solvie, Saco; Nancy Swanberg, Great Falls; Pat Danielson, Billings; Evelyn Davis, Thompson Falls; Charice Elliott, Spokane; and Rita Gray, Whitefish.

Marge McVeda, Lewistown, and

Jane Pratt, Forsyth, were week-end guests at the chapter house.

Merry Chaffin, Corvallis, and Joanne Rupp, Missoula, were Sunday dinner guests and the Tri Deltas were guests at an exchange dinner Wednesday evening.

Sigma Alpha Epsilon

Newly elected pledge class officers are: President, Jack LeClaire, Anaconda; vice-president, John Smith, Laurel; secretary, Duane Hanson, Great Falls; and warden, Al Manuel, Alberton.

Frank Gonzales, Helena, hung his pin on Marilyn Mueller, Helena, who is attending Stevens college.

Delta Delta Delta

Dorothy Nelson, Big Timber, who is pinned to Bob O'Neil, Kalispell, received a Sigma Nu serenade last Monday evening.

Betty Jo Hyde '48, Kalispell, was a week-end guest.

Dinner guests during the week were Mrs. Boyd, Missoula, who is past alumnae adviser for the chapter, Eva Johnson, Missoula, and the Alpha Phis.

Sigma Nu

Marian McAllister, Polson, Jack O'Loughlin, Missoula, Gayle Davidson, Polson, and George Van Brocklin '48, Livingston, were dinner guests last week.

Tom Kelly and Jack Burke, Butte, and Dan Korn, Kalispell, vacationed at the Big Mountain skiing resort this week end.

Sigma Kappa

Judy Clark, Betty Aimmerman, and Marilyn Gillis, Great Falls, were week-end guests.

Mary Burke, Helena, was a dinner guest Sunday and the Thetas were over for dinner Wednesday.

Sigma Chi

Sweetheart candidates were guests of honor Wednesday evening at a dessert dance and were feted again Saturday at an informal jam session.

Dinner guests Sunday included Mr. and Mrs. John Wuerthner, and Pat Shepard, Missoula, Jean Taylor, Philipsburg, and Danette Kelly, Butte.

Delta Gamma
