MONTANA ACADEMY OF SCIENCES
NEWS RELEASE
L. H. Harvey, Executive Secretary

Four Montana high school students are the recipients of research grants from the Montana Academy of Sciences to enable them to continue their research, according to Dr. LeRoy H. Harvey, University of Montana professor of botany.

Danielle Ayers, Dawson County High School, Glendive, is working on "regulation of plant growth and organ formation." She was awarded \$40.00 and was sponsored by Fredrick R. Green, Dawson County High School.

Gregory J. Clouse, North Toole County High School, Sunburst, is working on "testing aircraft wing designs with Schlieren diagrams." He was awarded \$20.00 and was sponsored by Hugh Ouellete, North Toole County High School.

James E. Lalonde, Sentinel High School, Missoula is working on "the effects of intense, coherent monochromatic light on tooth enamel." He was awarded \$40.00 and was sponsored by Harold G. Knapp, Sentinel High School.

Jon R. Swenson, Sentinel High School, Missoula is working on "the influence of large molecules on activity of enzymes." He was awarded \$30.00 and was sponsored by H. James Cusker of Sentinel High.

The money for these grants is given to Academies of Science by the American Association for the Advancement of Science to be used as part of their program of furthering interest in the sciences. The recipients of these grants are chosen by the Academy Committee on Research Grants on the basis of their possibilities as future research workers in the sciences.
