Required Textbook

Additional Readings
Additional supplemental readings will be posted throughout the class. These readings will be posted online through your Moodle account.

Course Overview
The primary objective of this course is to provide an overview of issues relevant to adult development and aging. The class is taught from a biological, psychological, and social perspective.

Specific topics to be covered include developmental theoretical orientations, developmental research design, physical and sensory changes, relationships, personality, memory, dementia, wisdom, death and dying, and other topics.

The required text, digital course content, and online discussion forums will be used. Online course materials and discussions will expand upon information presented in the text. Students will be graded on the timely completion and quality of required weekly discussion postings, four assignments and five exams.

Course Structure
Online lecture materials and online discussion forums will be used. Lectures and discussions will expand upon information presented in the text; thus, it is highly recommended that you read the required chapter before participating in class discussions. Due to the high volume of information that needs to be presented, frequent engagement in the forum is essential to satisfactory performance.

CRITICAL NOTE: I do not allow technical issues as a reason for late or incomplete work. To ensure your own protection, please keep technical support contact information available offline and please do not wait until the last minute to complete your work each week!
Grading

Your final grade will be based on 1,170 possible points, distributed as follows:

- **Responses to weekly discussions:**
  (14 forums total at 30 points each + Week1 at 15pts) = 435 Discussion Points
- **Fifteen Weekly Quizzes:**
  (14 quizzes total at 30 points each + Week1 at 15pts) = 435 Quiz Points
- **Five written assignments:** (60 points each) = 300 Lab Assignment Points

= 1,170 Total points

Grading Scale

A = 1047-1170 (89.5-100%)
B = 930-1046 (79.5- 89.4%)
C = 813-929 (69.5-79.4%)
D = 696-812 (59.5-69.4%)
F = 0-695 (0-59.4%)

Course Assignments

**Weekly Quizzes:**
- 15 total quizzes will be given during the semester.
- The Week 1 quiz is worth 15 pts. Weeks 2-15 quizzes are worth 30 points each.
- Quiz question formats may include multiple choice, true/false, matching, and short answer.
- Quizzes will be available for one week via Moodle, and must be submitted by 11:59pm on the Friday of the week they are due.
- Once you start the quiz, you have 45 minutes to complete it. It is your responsibility to choose a time and place in which you will be able to complete the quiz in one sitting.
- Late quizzes will not be accepted, regardless of technical difficulties.
- Makeup quizzes will not be offered without prior notice and appropriate documentation.
- Quizzes are open-book. However, 45 minutes is not enough time to look-up answers to all of the questions. It is highly recommended that you study prior to each quiz.
- You are expected to take quizzes alone, without the assistance of others (Honesty Policy).
- Save your quizzes frequently! It is recommended that you make note of your answers in a separate file in the event your answers are lost.

**Written Assignments:**
- 5 written lab assignments will be completed during the semester.
- Each lab assignment is worth 60 points.
- Students will have the option to select five assignments from a list of several options posted on the course Moodle site.
- Assignments should be uploaded by 11:59pm on the Sunday of the week they are due.
- Late assignments will be docked 9 points for each day they are late, including weekends.
- Assignments should be 2 full (min) to 4 full (max) pages, written in APA format:
  - Double spaced, 1-inch margins, 12pt Times New Roman font, APA citation/reference format
  - See APA Formatting Sheet on Moodle for detailed formatting requirements for labs.
- Papers will be graded according to adherence to required standards, quality of content, grammar, APA format and overall readability.
**Discussion Forums:**
Doing well on the Discussion Forum assignments requires consistent and detailed participation.

Grades are based on:
1. Attendance
2. Quality of posts

The three charts below explain how your discussion posts are graded.

1. **Attendance Score**
   Students are first graded on whether you met the requirement that to post a minimum of 3 days/week. Ten points are docked for each day you are short of the requirement.

<table>
<thead>
<tr>
<th>ATTENDANCE GRADING (30 points possible)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students must post (respond) a minimum of three separate days per week. You can post more than three days, and post more than three times, but at a minimum, you must post on three separate days.</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>

   Once the number of days is calculated, students are then graded based on their contributions to the discussion. Points are deducted, not added, from the points earned above, to yield a final weekly “attendance” score. (Students cannot earn negative points. The lowest possible score is zero.)

2. **Quality Score**
   Students must make a post to the discussion question (DQ) in the weekly discussion forum. Each weekly DQ post will be due by Monday.

<table>
<thead>
<tr>
<th>DISCUSSION POSTS</th>
<th>Each day late</th>
<th>2 pts lost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students must post (respond) to a <strong>minimum of three of their peers</strong>. You can post to more than three, but at a minimum, you must reply to three of your peers. This promotes student engagement with each other, rather than just responding to the DQ posted by the instructor</td>
<td>3 peers</td>
<td>0 pts lost</td>
</tr>
<tr>
<td></td>
<td>2 peers</td>
<td>3 pts lost</td>
</tr>
<tr>
<td></td>
<td>1 peer</td>
<td>6 pts lost</td>
</tr>
<tr>
<td></td>
<td>0 peers</td>
<td>9 pts lost</td>
</tr>
</tbody>
</table>

   Once I have calculated your final weekly “attendance” score, then I grade the quality of your posts, as explained in greater detail on the following page. Again, these points are deducted, not added, from the final weekly attendance score, to yield a final weekly “Discussion” score. (Students cannot earn negative points. The lowest score is a zero.)

   QUALITY GRADING
**QUALITY GRADING**

Students must make detailed and thoughtful posts that reflect an appropriate application of emerging knowledge and vocabulary in the topic area. Each post must add value to the discussion and be related to the required readings for the week. Below are additional details of how I grade the quality of your posts.

<table>
<thead>
<tr>
<th>Quality</th>
<th>Points Lost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Superior</td>
<td>0</td>
</tr>
<tr>
<td>Above Average</td>
<td>4</td>
</tr>
<tr>
<td>Average</td>
<td>8</td>
</tr>
<tr>
<td>Below Average</td>
<td>12</td>
</tr>
<tr>
<td>Unacceptable</td>
<td>16</td>
</tr>
</tbody>
</table>

**Superior:**
Your contributions demonstrate a complete mastery of the materials assigned. Your responses might integrate multiple views and/or show strong analysis and reflection on topics and other student’s posts. You provide evidence that you are reading the assigned materials and other student postings and are responding accordingly, bringing out interesting interpretations. You know the facts and are able to analyze them, apply them to real life scenarios and handle conceptual ideas. It is highly unlikely that you could get full credit in less than two paragraphs.

**Above Average:**
Your responses build on the ideas of other participants and dig deeper into assignment questions or issues. When you make intelligent posts during the week, including some good critique of the course material, then you have demonstrated you have an understanding of the material, are reading posts of your colleagues, and are contributing to the class. Your posts demonstrate confidence with the materials, but may be just a bit off target in one area or another.

**Average:**
You have meaningful interaction with other participants’ postings. Posts that state, “I agree” or “I disagree” and include a detailed explanation of what is disagreed or agreed upon and why, or introduce a perspective or concept that adds to the discussion. However, you may have rambling, lengthy posts with no clear point, your writing has a lack of clarity and comprehension, or there are considerable typos and grammatical errors.

**Below Average:**
You answer questions asked by me or other students but do not expand upon your response or you answer questions based only on your opinion, rather than on research or proper evidence. Your posts are unusually short (one paragraph or less) and you fail to demonstrate a clear working knowledge of the material covered for the week.

**Unacceptable:**
You will receive little credit in the week’s discussion by just showing up and making trivial comments, without adding any new thought to the discussion. At the low end of the spectrum, no participation gets a "0." If you are not in the discussion, you do not earn any points. Comments such as “I agree” or other one-sentence responses will result in zero points. Copying and pasting from a website without providing your own substantial insight is also an unacceptable post- even if you have properly cited your sources. This assignment is an
assessment of your understanding of the information covered in this class. Copying and pasting from websites does not demonstrate a working knowledge of the material.

**Special Note:**
I check very carefully for plagiarism in the discussion posts. If you have plagiarized, you will get a zero for the entire assignment. If you plagiarize a second time, you will fail the course. If you engage in flaming behavior in the posts, you will get a zero for the entire assignment.

### Course Schedule
Schedule is subject to change. Additional required materials will be posted online each week.

Course Guidelines and Policies

Announcements
Students are responsible for all announcements made in class. These may include changes in policy, due dates, or assignment requirements. Announcements are posted in the announcements section of the course or are directly emailed to the students. Students are responsible for checking their official UM e-mail account (or forwarding their UM account to an email address that is regularly used).

Technology Policies
Please contact UM Online if you experience technical difficulties. Though I would love to be able to help, I am not qualified to do so. Critical Note: I do not allow technical difficulties, or not having the proper software as reasons for late or incomplete work. To ensure your own protection, please keep technical support contact information available offline and please do not wait until the last minute to complete your work each week! To access technical support (and save their contact information offline) please click on the "Tech Support" link to the left of the page.

Technical Alternatives
Also, keep in mind your technical alternatives if you have computer difficulties. If you live near the University, campus computers are an option. Otherwise, consider the public library, an internet café, a computer at work, or a friend or family member’s computer. Have a plan of action in mind so that you can complete the required work each week if an issue arises.

Assignment due Dates, Late Work, & Make-up Work
Written assignments are due on Sunday by 11:59 pm MST, of the week they are assigned. Please be sure to start your assignments early enough to complete them by the time the week closes.

As a rule, I do not accept late work or allow make up work, except for one “freebie”. No reason is required to take advantage of this opportunity, and it is the student’s responsibility to contact the instructor to make this happen. Students have 24 hours to make up the work from the time I send the make-up assignment email, and students are not permitted to use the “freebie” at any time during finals week.

Students cannot, under any circumstance, make up the discussion posts assignment.
Due to the interactive nature of this assignment, students must be engaged in this process throughout the week each week in order to receive credit.

To make up multiple missed assignments it is mandatory that you:
1. Notify your Instructor before the time of the assignment and,
2. Provide proper documentation verifying the reason for your absence. Examples of proper documentation include a medical note or a death or family emergency. Remember, prior notification and documentation is mandatory! You can provide documentation by (a) scanning and emailing the documents, (2) mailing the documents, or (3) arranging to bring them to me in person. I do not allow make-up work during the week of final exams.
Incomplete Grades
Departmental and university policies regarding incompletes do not allow changing “incomplete” grades after one year has passed since the “I” was granted.

Academic Misconduct
All students must practice academic honesty. Academic misconduct is subject to an academic penalty by the course instructor and/or a disciplinary sanction by the University. All students need to be familiar with the Student Conduct Code.

Plagiarism
The Student Conduct Code discusses plagiarism. However, it is a serious offense worth re-mentioning. This course requires students to adhere to APA format when citing, paraphrasing, or referencing sources. If you have plagiarized, either intentionally or accidentally, you will receive a zero on the entire assignment. If you plagiarize a second time, you will fail the course.

Netiquette
Students must engage in proper “netiquette”. Netiquette, or “network etiquette” is a professional and mannerly way of communicating with others in the online medium. Failure to engage in proper netiquette will result in earning a zero for each assignment where an incident has occurred.

Disability Modifications
The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students. If you think you have a disability adversely affecting your academic performance, and you have not already registered with Disability Services, please contact Disability Services in Lommasson Center 154 or call 406-243-2243. I will work with you and Disability Services to provide an appropriate modification.

Dropping/Adding/Changing Grade Option
Please refer to the Registrar’s website for policies and deadlines.
