Instrument Tests Scheduled Monday In Pharmacy Lab

A two-hour scientific open house beginning at 3 p.m. Monday in the pharmacy laboratory, will feature test runs on a \$10,000 Klett electrophoresis, which will open further areas in animal tumor research being conducted at the University by Dr. Muriel R. Loran, assistant professor of pharmacy.

The electrophoresis is a complex instrument which looks like a telescope or bazooka mounted on an over-sized lathe bed. It has accessory attachments and gadgets worthy of a space ship. It is housed in a special laboratory in Room 4 in the basement of the Chemistry-Pharmacy building and was purchased through grants totaling more than \$16,000 for Dr. Loran's work. Grants came from the Damon Runyon Memorial fund and the American Cancer society.

The instrument will be used to study compounds utilized for chemotherapeutic treatment of animal tumors, Dr. Loran said.

Dr. Loran has been working with a high molecular weight fraction of resin of podophyllum (a bitter resin extracted from the rootstock of the May apple), studying its tumor-depressant effects. Future studies, made possible by the Klett electrophoresis, will enable Dr. Loran to work further with individual substances in the resin and to determine whether or not the toxic component is responsible for the tumor-depressant effect.

Dr. E. C. Cole, biological engineer for the Rocky Mountain laboratory at Hamilton, did most of the work in setting up the instrument.

INTRAMURAL SKI MEET POSTPONED TEMPORARILY

There will be no Intramural ski meet this week end, according to Intramural director George Cross.

The meet will be postponed "till we get some snow," Cross said.

Choice Facts About Coke Store Are Little Known by Patrons

BY BEV PRAETZ

Ask any student what the most popular place on campus is and, nine chances out of 10, he'll answer "coke store." Although many free hours are spent around the coke store's tables consuming countless cups of coffee, who can say that he really knows what goes on behind the counter?

Did you know, for instance, that Mrs. Bob Catlin planned the blue-red-yellow color scheme that greeted students this fall? Did you know that 34 people are employed by the coke store (22 boys and 12 girls), or that it boasts three full-time cooks, one of whom has worked there since it opened 16 years ago? Did you know that 150 to 200 students and faculty members are served lunch and 75 to 100

are served dinner at the cafeteria every day, and that about four gross of spoons and two gross of cups are lost per year?

And did you know that the coke store was not built to serve meals? At the time it was constructed, President Clapp stated that only cokes and coffee were to be served. Gradually, however, students requested meal service and got it.

Did you know that the photographs on the walls are changed after each new appointment and election and that a 9x6 photographic mural depicting campus activities will be put up on the east wall some time next month?

Did you know that the decreased enrollment will mean decreased operating costs for the coke store? Did you know that for the last several years the coke store has managed to stay in the black, due chiefly to the efforts of its manager, Jack Cuthbert? Did you know that you are free to turn in any gripes you may have about the food or service to him?

Did you know that the coke store serves home-made pastries made by Mrs. Vernon Rice, and that the names of the other two cooks are Mrs. Sena Haustad and Mrs. Margaret Plumb?

If you know all the answers, your hours in the coke store haven't been wasted, but I'll bet that nine students out of 10 knew less than half. Am I right?

Today's Meetings

Montana Forum, 12 noon, Eloise Knowles room.

The Contract Bridge club will meet in the Copper room of the Student Union on Sunday at 2:30. All those interested in bridge are invited to attend.

Ski classes will not meet today, according to Deanne Thorsrud.

Canterbury club will meet at 5:15 Sunday in the Episcopal rectory.

Field House And Student Union In One Structure?

BY PRES. CARL McFARLAND

Now that it has been decided to build a Field House, many other decisions must be made in connection with it. Of greatest urgency at the moment is the matter of adding facilities not heretofore discussed.

How does this situation come about now? It arises in good part because, in the construction of large buildings on limited budgets, it is impossible to tell in advance just how much the available dollars will buy. All of the plans and literature on the Field House to date have dealt with the minimum building. But the contractors have been asked to submit bids on a building of three sizes. The first is the one heretofore publicized. The second is one in which the arena floor is wider by 20 feet.

The third proposal on which contractors have been requested to bid is one which increases the size of the auditorium by 40 feet, adding about 1,200 theater seats to the balcony. As a consequence of adding to the upper part of the balcony, beneath it three floors could be added along the entire south side of the building. It is this extra floor space, rather than the extra balcony seating that is mainly desired if it can be had cheaply enough and if those who are interested have good use for it.

The first of these is a very real "if". Architects can estimate costs, but the builders set them only when the time for bidding comes. The estimates ordinarily suffice to secure the minimum needed, but there is always the real possibility that a larger building may be built for the money. In the case of all but one of the buildings presently under construction on the campus, more than the minimum planned is being built. The same may be true of the Field House.

But even if a larger Field House can be had, is there good use for the extra space? There are excellent reasons for adding to the minimum balcony seating; yet that alone might not justify the extra construction. If the additional building can be had within the available funds, is it wanted? These questions must be answered before February 16, because on that day the bids will be opened and, if the additional space is within the budget, the contract must on that day be let for the larger or smaller building as the case may be.

Before anyone could say whether the possible extra space is needed and usable, he would have to know what kind of space it is and how much there might be of it. In brief, it would consist of three floors along the south side of the Field House, facing the Women's Center now under construction. To the middle floor could also be added the space presently planned for other purposes on the second floor on the west side of the building.

Altogether this would amount to about

40,000- or 50,000-feet of floor space. What this means can perhaps best be illustrated by comparing it with the total floor space in the present Student Union, which has about 32,000 feet of floor space including the Gold room but excluding the auditorium. However, the potential additional space in the proposed Field House would be laid out differently. There would be only three floors. Street level entrance on the south side would be the middle floor, and half of the entire additional space would be on this floor. The remainder of the space would be one flight up or one flight down.

Possible Uses

For what could this additional space be used? The half basement would be 300 feet long by 40 feet wide (whereas the Student Union is 116 feet long by about 50 feet wide apart from the auditorium). It could be used for bowling alleys, games rooms, perhaps a kitchen, even the Student Store, or a combination of these.

The middle or main floor would also be 300 feet long east and west but would be at least 50 feet wide, which is about three times the space of the present Student Union lounge. The same floor could also extend north and south for another 250 feet, 60 feet wide. Such space could be used for student lobbies, craft rooms, lounges, dining, smaller ball room, student store, or any manner of similar things. This one expanded floor would furnish almost as much usable space as there is in the present Student Union.

The third, or upper, floor would be only 200 feet long but 30 or 40 feet wide. It could be adapted for meeting rooms, offices, and so forth. But all of these possible uses are merely illustrative. There would be no need to provide a large ball room because a removable dance floor is planned for the arena area of the Field House.

Problems Involved

If this space should be available, there are indeed many problems as to its desirability. The addition of facilities there would compete with the Student Union at least in some measure. Even though adjacent to the new Women's Center, would these facilities be too far out of the way? Although they could be shut off from one another and have separate entrances, is it undesirable to combine such things in the same building as the Field House? In any event would there be enough space to be worth while?

These and many other questions must be answered. There is just one month in which to investigate the possibility and make a decision. The whole matter is being referred to Central Board and the Student Union Executive committee for such consideration as they may wish to give it.

Miss Photogenic Pics to Come From Sentinel

Candidates for the Miss Photogenic contest March 6, to be sponsored by Royaleers in connection with its annual dance, will be chosen from the photographs for the Sentinel by Robert M. Catlin of Catlin Studios.

One girl will be chosen from each living center for her photogenic beauty. The portraits will be displayed in book store showcases.

Tickets for the informal dance will be sold in the Student Union and at the door for 50 cents a person and will entitle the holder to a vote. Ballots will be counted that evening and Miss Photogenic will be announced about 11:30, it was stated.

Bank Night's 'Golden Casino' Ready for Tonight's Opening

"The tables are set, the money is stacked, and the cards are all marked in readiness for the Alpha Kappa Psi Bank Night to-night after the BYU game," according to Doug Beighle, Deer Lodge, chairman. Admission is \$60 per person, stag or drag.

Anything and everything can be expected to happen when he turns his gang of Mississippi gamblers and confidence men loose for the grand opening of the "Golden Casino" for three hours of festivities in the Gold room of the Student Union. "Five lovely Phi Chi Theta girls (women's business fraternity members) will serve refreshments during the evening."

Bank Night is an annual af-

fair sponsored by Alpha Kappa Psi, men's professional business fraternity, and the proceeds are used to further the various campus and business activities of the group.

Flu Is Spreading Reports Indicate

Dr. M. P. Wright at the health center said yesterday that, although the number of flu and cold cases has increased, the situation is definitely not in the epidemic stage.

A New Proposal
A New Decision . .

If you have read the lead story on page one, you realize that once again you must make a decision that will influence the future of MSU.

Tuesday we made a big decision for the future of MSU, but between now and Feb. 16th we must deliver another decision which could well evolve even greater strides for the future scope of MSU.

President Carl McFarland returned from Helena yesterday afternoon with this new proposal of the possibility of incorporating Student Union facilities within the proposed Field House. But his new proposal didn't originate from his Helena trip. He has been turning this new twist over in his mind for some time and now that he realizes we are in favor of a Field House, plus very probable recent developments from his seemingly endless source of MSU future ideas, he has made a new move. Now we must counter with a new decision.

We have a month at the most to offer our verdict, but before we vote, we must understand. There

Druids Deplore
Campus Parking
Situation

Open Letter to Pres. McFarland:

This letter is being written to you by the Druids, honorary society of the School of Forestry, concerning the parking problem on the campus of Montana State University. The conditions are deplorable, probably as bad as they are on any campus of the United States. As it now stands, there are no controls on parking and it has led to a disastrous situation. It is only a matter of time until this lack of control will cause smash-ups, injuries, and possible death.

There appears to be no reason for the present situation. It is our understanding that there have been several workable plans presented to the president's office, but no apparent action has been taken on any of them.

The Druids fail to see why this condition must persist when other campuses have controlled the student and faculty parking problems. Montana State, Washington State, Idaho and Idaho State are not affected with the conditions that are found on the campus of our University. We of the Druids are not thinking of ourselves so much as we are of the students yet to come.

May we, as a group of your students, expect an abatement of the conditions as they now exist. We will be willing, as a group, to meet with you or someone designated by you at your convenience to further discuss this situation.

Respectfully,
The Montana Druids.

are many questions involving the proposal to incorporate Union facilities within a Field House.

The first question is obvious, "do we want such an incorporation?" If so, "is the proposed Field House location the best for a Student Union?"

These and more questions must be answered—and soon.—L.K.

Strips Edge Rodeo; Alphas Top Jumbolaya

Strip Houses No. 2 held out over the Rodeo club 40-39, and the Sig Alpha Scrounges took an easy 48-37 win from Jumbolaya in Wednesday night intramural basketball contests.

In the opening game, the Strips quint held back a 12-point fourth quarter rally for the win. Fowler paced the winning team with 17 points and Stern followed with 15. Ruden pushed in 12 markers for the losers. At the half the Strip Houses had a five point lead which they maintained in the third period. Rodeo club's last period try fell short and Strips emerged with a one-won, one-loss, A-loop record.

The Sig Alpha Scrounges picked up a comfortable 13-6 margin in the opening frame of the second game and were never seriously threatened. Campbell hit for 16 points for the Sig Alphas, and Bissell led the losing Jumbolaya team with 12.

BYU - Without Richey Meets Grizzlies Tonight; Utah Steps in Saturday

Basketball fans who had anticipated seeing a full strength BYU basketball squad in action with the Grizzlies tonight are in for a disappointment. The Cougars big star, Joe Richey, did not make the Montana trip because of flu.

Utah's winless Redskins wind up the Grizzly week end with a contest tomorrow night.

Coach Jiggs Dahlberg said BYU and Utah will be "two very tough ball games for us this week end," but the Grizzlies, just recovering from an epidemic of flu, will be back in full force tonight.

Last night BYU coach Stan Watts had his cagers warming up on the Montana court, shooting at hoops they hope to hit with rapidity tonight.

Without Richey, who like Montana's Chuck Davis has been mentioned as an all-America possibility, the Cougars will be without their leading scorer and their second-best rebounder. We should see now, said BYU's Watts, whether we're a one man team, and if we are, well then we're not much good anyway.

Good or not, their 13-3 record against some of the nation's better teams is impressive. And tonight, in Richey's place will be Tom Karren, a forward who has seen action in all contests BYU has played. A good rebounder, he has picked off 49 backboard shots, and may be the answer for Watts in at least this department.

In every game, it has been BYU's ability to out-distance their opponents in rebounds that has won for them. The Cougars' rebound average for 16 games has been 44. Meanwhile they have limited their opponents to only 32.

After getting off to a rousing start this season, BYU experienced a statistical dip last week end in spite of their victories over Denver and New Mexico. A poor showing

from the field all but brought the Cougars their first Skyline defeat of the year at Denver, according to a release from BYU's public relations office.

Utah university has an 0-2 record so far this season in conference play, losing to New Mexico and Denver. Bruce Goodrich at forward and Kent Bates at center are carrying the load for the Redskins. Carlos Asay, Glen Sanford, and Bob Fulton are other potential starters back from last year's squad.

Criteria: Measures which the other guy uses to underestimate what you have already overestimated the deal to be worth.

4 B's CAFE

Society Setting: Spring in January

BY BARBARA SHEFFELS

Spring-like weather discourages skiers, encourages young love, and makes everybody wonder how long it's going to last. Phi Sigma Kappa Coffee Dan's sets off winter social whirl Saturday night as the first formal dance of the quarter.

Alpha Phi

Joy Needham, Lewistown, received a diamond from Joe Romsa, Lewistown.

New girls in the house this quarter are Louise Ralston, Brockton; Louise Cooper, Kalispell; Shirley De Forth, Glendive; and Gwen Dixon, Havre.

Alpha Tau Omega

New pledge officers are: president, John Rounds, Lafayette, Cal.; vice president, Bob Jackson, Dillon; secretary, Don Sansouci, Butte.

Dick Remington '52 was married during Christmas vacation and is now teaching in Stevensville where he and Mrs. Remington are living.

New house officers are: president, Tom Foshag, Lewistown; vice president, LaMar Forvilly, Anaconda; scribe, Robert Mammen, Billings; usher, Gordon Ormesher, Missoula; sentinel, Lionel Bogut, Glasgow; and treasurer, Jim Loeback, Hobson.

Delta Delta Delta

The pledges were guests at a buffet dinner Tuesday evening. Mrs. F. P. Stanich, Butte, was a week-end guest.

Phi Sigma Kappa

Jay White and Tom O'Hanlon, on leave from the army, were guests at the house this week-end.

Phi Delta Theta

Scott Cunningham, Somers, gave his pin to Jerry Huhn, KKG, from Calgary, Alta.

New officers chosen were: vice president, Matt Mulligan, New York; secretary, Bill Gue, Great Falls; house steward, Chuck Robbin, Big Fork.

Sigma Alpha Epsilon

Bob Griffin, Stevensville, is pinned to Pat Goldbrand, Chowchilla, Calif.

Jo Anne Stewart, Missoula, is wearing the pin of Pat Eyer, Billings.

New officers are: president, Vince Kovacich, Anaconda; vice president, Don Erickson, Havre; pledge trainer, Mack Anderson, Livingston; treasurer, Skulason Moe, Poplar; secretary, Ron Faust, Forsyth.

Sigma Phi Epsilon

The splash of purple seen around

the campus are members of SPE who received jackets in fraternity colors on Monday at the active meeting.

New pledge officers are: president, Jim Durado, Kalispell; vice president, Pete Heinz, Shawano, Wis.; secretary, Tom Thomas, Roundup.

Joan Gibson '52, Butte, Tri-Delt, received a diamond from Dale Wing, Poplar.

The Richard B. Wood memorial scholarship cup presented to the house by Mr. and Mrs. Wood was won by William Demmons, Bonner, for the year 1951-1952.

Charles Gray '50 has returned to take graduate work in history.

Outstanding pledge for fall quarter is Jim Carrell, Greenough Park drive.

Theta Chi

Lloyd Paulson '51 was a visitor at the house last week.

Air Force 2nd Lt. Ray Berg '52 is engaged to Janis McLeod, Olympia, Wash. Ray is currently stationed at Camp Bryan, Texas.

George Harpole, Arcadia, Calif., has returned to MSU.

Kappa Kappa Gamma

Janet McKenzie, Great Falls, is engaged to Neal McCurdy, Theta Chi, Missoula.

Pat Riley, ex-'53, Great Falls, was a guest at the house last week end.

Georjean Groom, KKG field secretary, is a guest at the house this week.

Kappas and Phi Deltas had an exchange dinner Wednesday.

New Hall

Nancy Shapleigh, Whitefish, and Paul Robison, Anaconda, were married Jan. 11 at the Methodist parsonage in Anaconda.

Kappa Alpha Theta

Kathryn Lindseth, Great Falls, received a diamond from Phi Delta Gene Carlson, Great Falls.
