BOTANIST TO SPEAK HERE

Dr. B.L. Turner, chairman of the Department of Botany at the University of Texas, will present two lectures at UM.

On November 8 his topic will be "Classification by Molecules-Chemical Approaches to Phylogeny". The lecture will be at 3 p.m, Room 307 of the Natural Science Bldg. On November 9, he will speak on "The Application of Gas Chromatography to Population Problems in which Hybridization and Introgression are Involved." The lecture will be in Room 307 of the Natural Science Building at noon.

Dr. Turner is the co-author, with the late Ralph Alston, of Biochemical Systematics and has been a vital force in this field. His many research papers and lectures have earned international recognition.

During his visit to the Botany Department, he will be available for consult. Contact the Botany secretary for further details.
