C & I 570: Instructional Technology Foundations
Fall, 2002

Dr. Sally Brewer
Office: EDUC 101
Phone: 243-2563
E-Mail: sbrewer@selway.umt.edu

Office Hours:
Tues., 3:00 – 5:00 p.m.
Thurs., 10:30 – 12:00 p.m.

Course Time and Location: Mondays, 4:10 - 7:00 p.m., ED 113

Course Description: This course is designed to provide students with an overview of the learning theories and instructional design models that form the foundation of instructional technology. Having knowledge about the foundations, history, and the literature in the field enables students to think more critically about their projects. Topics included in this course are: foundations, history, ISD models, issues, and current trends. A foundation will be laid which you will use when you design, develop, implement and evaluate instructional media during the spring semester.

Objectives:
By the end of the semester, the students will be able to:

- Understand the foundations and history of educational technology
- Identify major resources, organizations, and people in the field of educational technology
- Become familiar with a wide variety of literature related to educational technology
- Become familiar with a variety of Instructional Systems Design (ISD) models

Recommended:

Bibliography of selected resources:

**Course Content:**

**Topics**

Behaviorists: B. F. Skinner, Thorndike, and Computer assisted instruction

Jean Piaget

Jerome Bruner

Lev Vygotsky

Benjamin Bloom

David P. Ausubel

Robert M. Gagne

Seymour Papert

John Dewey: Experiential learning

David Jonassen & Constructivism

CTGV and anchored instruction

**Technology initiatives**

Key Building Blocks for Student Achievement in the 21st Century

http://www.ceoforum.org

e-Learning: Putting a World-Class Education at the Fingertips of all children

No Child Left Behind

http://www.ed.gov

**Technology Standards**

MT student standards

NETS for students

NETS for teachers

NETS for administrators
Evaluation:
Evaluation will occur on a continuing basis throughout the semester. Students are expected to attend all classes and participate in classroom activities. Assignments must be turned in on time and in a professional format. They are weighed as follows:

<table>
<thead>
<tr>
<th>Evaluation Items</th>
<th>Weight</th>
<th>Grades</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class attendance &amp; participation</td>
<td>10%</td>
<td>90-100% A</td>
</tr>
<tr>
<td>Reports</td>
<td>60%</td>
<td>80-89% B</td>
</tr>
<tr>
<td>Exams</td>
<td>30%</td>
<td>70-79% C</td>
</tr>
<tr>
<td></td>
<td>100%</td>
<td>60-69% D</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Below 60 F</td>
</tr>
</tbody>
</table>

Reports
Report 1. (20%) - Decade of history
Instructional technology development
Societal and Political influences
What happened in schools

Report 2. (20%) - Theorist
Prepare an annotated bibliography of the theorist’s writings to be distributed when you give your report.
Present information about your person’s theories and how they impacted field of instructional technology.
Lead discussion on theory

Report 3. (10%) - Instructional System model - Find at least two Instructional systems design models. Compare and contrast. Develop your own model and justify each component.

Report 4. (10%) - Impact of external stakeholders on the field (e.g., CEOforum, Congress, etc.)

Bibliographies should be in APA style. Use technology when you present your reports.

Other pertinent information
Class attendance is mandatory. More specific information on class assignment and expectation for those assignments will be part of each class period. In case you miss a scheduled class, you should contact someone in the class for work missed.
