2 COMPUTER SYSTEMS
AVAILABLE AT UM

MISSOULA---

Two computerized placement services are available through the University of Montana Placement Center, according to director Charles E. Hood.

Hood said his office is participating in a new, world wide placement service established by ASCUS, the Association for School and University Staffing. The ASCUS FILE, Fast Index to Locate Educators, is located in Hershey, Pa., and is completely operational for the 1968-69 school year. ASCUS FILE will establish a national manpower bank of educators and will be available to school and college officials who need personnel.

The service will be free to all potential education employes.

A similar system is the GRAD, Graduate Resume Accumulation and Distribution. It is available to University of Montana graduates at the Graduate Placement Center.

This system, however, is limited to alumni who are interested in positions in business or government.
