Student Web Server Account

Course Description:

The purpose of this course is twofold - first, to learn how to apply quantitative methods to business problems, and second, to become very proficient in creating and using Excel spreadsheets. The quantitative methods include descriptive statistics, probability distributions, hypothesis testing, linear programming, and simulation.

Grading:

This is a Pass/No Pass Class

	Possible Points	Percentages
Tests (4@40):	160	62%
Class Attendance (10@3):	30	12%
Web Assignment	30	12%

Homework(8@5):
Presentations:

40
EXTRA CREDIT

15%

TOTAL
Need to Pass

260
170

Important Notes:

- ? Any form of cheating on any test WILL result in a failing grade
- ? There are NO make-up tests

Suggestions:

1. Read the Chapters before Class
2. Don't take many notes in class (all the materials are in the text).
3. Do ask many questions in class.
4. Read the chapters again after class.
5. Work on the problems before the lab sessions.
6. Feel free to work together.
7. Don't copy or memorize.
8. Be prepared to present your solutions in class.
9. If you need help, email me by stop by my office.
10. Know how to download, and save test before the test.
11. Plan to spend a lot of time at the computer
