MISSOULA--

Fifteen graduate students in business administration at the University of Montana are enrolled in the third annual Seminar in Advanced Management Problems being conducted through May in Missoula in cooperation with the Anaconda Forest Products Division (AFPD) of the Anaconda Co.

According to Jack H. Doty, associate professor of business administration at UM, the seminar helps students bridge the gap between thinking and doing in management education.

"By providing this seminar," Doty said, "Anaconda serves the University as an authentic business laboratory. Following the seminar, students are required to make both oral and written reports to company executives for evaluation."

The reports deal with specific management problems related to long-run AFPD development.

The UM graduate business students participating in the program include:

Gerald P. Morgan, Wayne Pedersen and James R. Schwartz, Missoula; Gary E. Notti, Great Falls; James H. Burns and Donald L. Dooley, Helena; David A. Enger, Deer Lodge;
Peter M. Higman, Billings; Alfred L. Koelzer, Bozeman; John R. Stewart, Fort Benton;
Roger A. Thomsen, Gardiner; Ronald E. Aukamp, Mt. Prospect, Ill.; John Kim, Seoul, Korea; and
Theodore W. Legge, Bloomington, Ind./Einar O. Venold, Oslo, Norway.
