"IMPACT" CONFERENCE  
FOR STATE AGENCIES,  
SOLONS IS NOV. 14-15

MISSOULA, Mont.---

"Impact," a conference designed for state agencies and legislators by the University of Montana Bureau of Business and Economic Research (BBER), is scheduled for Nov. 14-15 in the House of Representatives' Chambers, Helena.

Officials from a four-state area, including Montana, Idaho, Wyoming, and North and South Dakota have been invited to the two-day conference.

Dr. Patricia P. (Bragg) Douglas, assistant professor of business administration at UM and a BBER research associate, said conference topics will include discussion of proposed information systems for more effective administration, long-range planning and program budgeting systems for administrative use, and discussion of computers for internal management and control.

Nationally known speakers who have personally supervised or implemented these concepts will be on hand to lead discussions of the various topics.

Dr. Douglas said this is the first time an educational conference has been presented within the state solely for the benefit of people involved in state government.
