Psyx 587 – School Psychology Methods

Spring 2016

Course Information

Time: Wednesdays 1:40 – 3:30pm

Location: Skaggs Building, room 303

Instructor Information

Instructor: Anisa N. Goforth, Ph.D., NCSP

Office: Skaggs 367

Email: anisa.goforth@umontana.edu

Office phone: 406-243-2917

Cell phone: 503-562-9379

Office hours: Thursdays 4:00-5:00pm and by appointment

Teaching Assistant: Laura Ambrose

Email: laura.ambrose@umontana.edu

Office hours: TBD and by appointment

Course Objectives

School Psychology Methods is designed to provide students with authentic clinical experiences in a school setting. The practicum provides opportunities for students to practice the skills they are learning or have learned in classes, and to begin to engage in the professional activities of a school psychologist. Students will develop a better understanding of schools, educational staff, and students, as well as the roles and functions of school psychologists.

The first year practicum is very much an opportunity to learn about the school psychology profession. You are expected to be novices in the areas of professional practice targeted in the coursework. The practicum is intended to be a safe, positive environment under the supervision of the field supervisor, TA, and course instructor. The activities and course assignments are coordinated so that students have the opportunity to complete course assignments in the practicum site. However, opportunities for assessment will vary depending on your skill development and your field supervisor's assessment schedule and activities at the site. Please pre-plan carefully with your field supervisor to insure that you will be able to meet the requirements.

Students will spend time with their field supervisor completing professional activities. At the beginning of the practicum, students' experiences typically consist of "shadowing" their supervising school psychologist to become familiar with the responsibilities and job description of the school psychologist. Students also immediately implement their skills in primary prevention, curriculum-based evaluations, academic interventions, and student progress monitoring. Over the course of the semester, the student is given increasing responsibilities and practice in specific skills such as conducting standardized academic assessments, conducting clinical interviews, classroom observations, and writing reports.

Practicum students are expected to be closely supervised. The appropriate degree of autonomy given to students is left to the discretion of the supervisor and instructors.

The practicum seminar is designed to accompany the field component of the School Psychology Methods by providing students with a forum to discuss critical issues of practice in a community of scholars and practitioners. We will be using the class as a site to integrate your coursework and field experiences, to examine your development as a professional, and to discuss emerging issues of practice. You will receive direct and indirect supervision of your practicum experience in this class in addition to that provided by the field-based supervisor.

Approximately 6 direct school hours and 2 hours outside of the school setting per week (supervision, report writing, etc), for a total of 120 practicum hours. This is considered the *minimum* number of hours and you are expected to continue your practicum, even if you have accumulated 120 hours prior to the end of the semester. Please note that your supervisor may not be in the building the entire day that you are there. Additional time in the site may be required to complete course expectations. It is occasionally necessary to temporarily withdraw students from the practicum placement if problems arise due to the students' progress or to unforeseen circumstances at the practicum site. If this should occur, I will consult immediately with the student and the field supervisor to develop a plan to reestablish the practicum as soon as is feasible.

In the practicum, students will acquire knowledge and practice of (a) methods to assess academic problems within the school and classroom setting, (b) strategies for interpreting assessment data, (c) intervention strategies for addressing academic problems (d) methods for selecting and delivering interventions, (e) evaluating the effectiveness of interventions and modifying them as needed, (f) communicating results and recommendations in writing and orally.

NASP Domains of Practice

Domain 1: Data-Based Decision Making and Accountability

Domain 2: Consultation and Collaboration

Domain 3: Interventions and Instructional Support to Develop Academic Skills

Domain 5: School-Wide Practices to Promote Learning

Domain 6: Preventive and Responsive Services

Domain 8: Diversity in Development and Learning

Domain 9: Research and Program Evaluation

Domain 10: Legal, Ethical, and Professional Practice

Corresponding Program Competencies and Objectives

Competency 1: Psychological and Educational Foundations of School Psychology

- Students will learn how to diagnose learning disorders using both special education classification systems and given an understanding of what constitutes normal development at different ages.
- Students will learn how to administer, score, and interpret various measures of educational achievement.
- Students will learn how to integrate various components of a psychoeducational evaluation.
- Students will learn how to make specific and appropriate recommendations and/or referrals given the unique characteristics, culture, and factors related to the student.

Competency 2: Psychometrics, measurement and research

- Students will learn to evaluate test and survey instruments for psychometric properties.
- Students will select and administer appropriate psychoeducational instruments.
- Students will learn to interpret and communicate assessment results in both written and verbal forms to school interdisciplinary team members, the student and the student's family.
- Students will learn to evaluate and utilize research to inform and guide professional practice.

Competency 3: Methods of school-based intervention

- Students will use problem-solving methods to develop and implement empirically supported intervention procedures including psychoeducational interventions.
- Students will design and deliver empirically supported preventative practices at the idiographic level.
- Students will learn to select appropriate progress monitoring measure to evaluate intervention progress and outcomes.
- Students will learn to communicate and interpret intervention outcomes in both written and verbal forms in school interdisciplinary team members, the student, and the student's family.

Competency 4: Professional school psychology

- Students will learn to utilize special education laws and eligibility criteria for the purpose of assuring a free, appropriate public education.
- Students will learn to have an understanding of, and ability to practice within legal and ethical responsibilities related to the provision of school psychological services.
- Students will have an understanding and awareness of multicultural issues and their impact on student performance as well as the school psychologist-client relationship.
- Students will learn to understand the need for cultural competence and awareness.

Course Policies and Procedures**Academic Honesty and Integrity**

As students entering the field of school psychology, there is an expectation of a high standard of academic integrity. Students are expected to perform to the utmost of their ability in an honest and ethical manner. The University of Montana [Student Conduct Code](#) (SCC) should be reviewed, especially in regards to plagiarism. It is the policy of the SPSY program that plagiarism will result in an "F" for the course in which the academic violation occurs as well as grounds for consideration of dismissal from the program.

Professionalism

I expect all students to behave with the highest standard of professionalism, both during class and in your practicum site. As a school psychologist in-training, you represent the university as well as the field. Keep in mind that how you behave makes an impression of you as a professional.

Disability Accommodations

The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and [Disability Services for Students](#). If you think you may have a disability adversely affecting your academic performance, and you have not already registered with Disability Services, please contact Disability Services in Lommasson Center 154 or call 406.243.2243. I will work with you and Disability Services to provide an appropriate modification.

Attendance and Active Engagement

Attendance is highly encouraged since student's course grades are partially determined by participation in class discussions and activities. Moreover, missing a class can substantially affect students' depth of understanding. Please inform the instructor prior to class if a late arrival or early departure from class is absolutely necessary. An excused absence will be granted only in a *documented* emergency situation.

Religious Observance

Please notify me in advance if you will be absent from class for religious observances.

Incompletes, Make-Up Procedures, & Late Assignments

Incompletes will be given under limited circumstances (e.g., personal situations, illness). Make-up procedures must be arranged immediately with me. Assignments should be submitted to me on the due date. Late assignments reflect poorly on you as a professional, and 10% of points will be deducted per day.

Electronic Devices

Electronic devices (such as cell phones, I-pods, mp3s, etc.) must be turned off and put away before class. The use of computers during class to take notes or to use electronic articles and Power Points is encouraged. However, the use of computers for personal reasons during class is inappropriate and disrespectful to other students and to me. I will speak with you if I feel that your use of computers is detracting from your learning and use discretion in reducing grades for those students who are using computers in a disrespectful manner when class is in session.

Commitment to Multiculturalism

I am committed to creating an environment in which individuals' diversity and opinions are respected. I strive to integrate multicultural and diversity issues in my courses in ways that is relevant to course content and process. I hope students will contribute their unique perspectives to this effort by considering and raising issues related to multiculturalism and diversity—and respecting others' outlooks throughout this course.

“People First” Language

Students are expected to use appropriate, “people first” language in class discussions and written work. People with disabilities are just that: people who happen to have physical, sensory, behavioral, or intellectual disabilities. Please avoid phrases like “the handicapped,” “autistic kids,” “severely retarded,” or other statements that highlight the disability rather than the individual. Instead, speak and write in a way that puts “people first,” for example, “the student with a severe disability,” “the program for students with behavior disorders.” This small change emphasizes the humanity and individuality of the person and clarifies that disability is only one of many characteristics (and not necessarily the most important!) that people can possess.

Course Requirements

Your performance in the field will be evaluated conjointly by your field supervisor, the teaching assistant (TA) and the instructor of the course.

1. Practicum Goals, Self-Assessment, and Professional Development Plan (10 points)

At the beginning of the semester, you will prepare a statement of the specific learning goals (and documentation or a plan of how to achieve these goals) you have for your practicum. These goals and plan will be discussed at the first individual conference. We will refer to these objectives throughout the semester to assist in the supervision of your experience.

You will reflect about your experience at your practicum site at the middle and end of the semester. You will reflect on your experiences with assessment, intervention and consultation as outlined on the *Reflections on Practicum Experience* guideline (see Appendix). Your reflections will be used by your university-based supervisors as feedback about your development as a professional. Specific topics that need further development will be identified for discussion in practicum seminar.

Finally, you will complete practicum hour logs to document your training experience. You will obtain your on-site supervisor's signature. The logs will be returned to you for inclusion in your professional portfolio.

2. Curriculum-based Evaluation Case Report & Presentation (90 points)

At your practicum site you will complete a curriculum-based evaluation (CBE) for a student identified as being in need of additional academic support. Students will secure a child/adolescent (ages 6-17) via parent consent for the purpose of administering assessments. This will involve identifying a target area of need, conducting a problem analysis, setting an appropriate goal, selecting a potentially highly effective intervention, implementing the intervention, monitoring progress, and evaluating the effects of the intervention. The plan must incorporate best practices in school-based intervention by including an appropriate goal, address issues of social validity, treatment integrity, and generalization and maintenance, a plan for progress monitoring, and outcome evaluation plan. Further information will be provided on how to complete this assignment and a rubric is provided in the appendix.

I expect that you will meet individually by appointment with me, your practicum supervisor, and course teaching assistant to clarify or gain more insight into the activities as needed. Activities to be completed at your practicum site will be pre-approved by your practicum site supervisors in conjunction with the university practicum supervisor.

3. Comprehensive Psychoeducational Report (100 points)

You will be required to write 1 comprehensive psychoeducational report. The purpose of this task is to prepare you to write like a psychologist. You will be given a case with background information, classroom observations, cognitive abilities and academic achievement test results and other information. You will integrate that information obtained from the academic achievement test with the other data. More information is provided in Appendix D.

4. Clinical Evaluation (30 points)

The following criteria will be used in clinical evaluations:

- Maintaining a professional demeanor and appearance in the field site
- Attendance and promptness in the field site
- Meeting deadlines and responsibilities in the field site
- Effective communication with field supervisors
- Effective interactions with teachers, children, parents and other school staff
- Maintaining confidentiality of all testing materials and files
- Protecting the confidentiality of individuals involved in testing and other professional activities
- Participation in and openness to receiving supervision

You will use the Practicum Student Performance Evaluation Form to obtain evaluative feedback from your on-site supervisor and discuss that information with your university-based supervisor. A copy will be provided to you for discussion and to retain in your professional portfolio.

You will use the Practicum Student Consumer of Services Performance Evaluation form, to obtain evaluative feedback from a consumer of your services during the semester. This person may be a general or special education teacher, a principal, a parent(s), etc., and should be someone who has had the most experience with you in your role as a school psychologist.

Activity	Points
Practicum Goals, Self-Assessment & Professional Plan	10
Curriculum-based Evaluation Case Report	60
Curriculum-based Evaluation Case Presentation	30
Clinical Evaluation	30
TOTAL	130

Other Course Activities

Activity Log

Documenting your practicum experience is important in planning your professional development as well as for applying for professional credentials. You should regularly keep a log of your hours (including supervision hours), activities, cases, workshops, client characteristics (e.g., age, disability, referral type), assessment tools used, and interventions conducted.

Supervision Time

I will be your university-based supervisor. I am a licensed psychologist in the State of Montana (#1482), credentialed school psychologist in the State of Montana, and Nationally Certified School Psychologist. I

will be meeting with you as part of the seminar to provide supervision as well as individual supervision throughout the semester. The teaching assistant will also be a peer supervisor on your cases, under my supervision. The TA will be learning about the process of supervision, doing additional readings on supervision, and will be providing you with feedback on your cases. I encourage you to seek the TA's assistance throughout the semester.

Course Schedule

The course schedule is subject to minor adjustments, as determined by the instructor.

Date	Topics	Readings	Assignments
Jan 27	Course Orientation/Syllabus Review Introduction to clinical expectations Classroom observation skills	Successfully Navigating School-based Training Experience	
Feb 3	Interviewing Skills	Rhodes (2005) BP Mazza BP Murphy McConaughy (2005)- Parent Interviews & Teacher Interviews	Practicum Goals, Self- Assessment, & Professional Development Plan due
Feb 10	NASP Conference-No Class		
Feb 17	Ethical issues in schools File reviews & background information	Jacob & Hartshorne (2006) Ch 3 & 4 BP Jacob BP Klose & Lasser BP Pfohl & Jarmuz-Smith Burns, Jacob, & Wagner (2008)	Individual supervision with Dr. Goforth
Feb 24	Case Reviews (4 students)		Part 1 of CBE case due
Mar 2	Case Reviews (4 students)		
Mar 9	Best Practice in Writing Psychoeducational Reports	Kamphaus Ch 17 BP Walrath, Willis & Dumont Brenner (2003)	Individual Supervision with TA
Mar 16	Interpretation of Assessment Data	Readings TBD	
Mar 23	Recommendations & Assessment Feedback	Tharinger, et al (2008)	Psychological Report draft due to TA
March 30	Assessment of Children from Culturally & Linguistically Diverse Backgrounds No	BP Ortiz BP Carvalho, Dennison & Estrella	Part 2 of CBE case due
Apr 6	Class – SPRING BREAK		
Apr 13	Assessment of Children from Culturally & Linguistically Diverse Backgrounds, cont'd	BP Vanderwood & Socie BP Mule, Briggs & Song	Psychological Report due

Apr 20	Accommodation, differentiation of academic instruction	Bolt & Roach (2009) Jacob & Hartshorne Ch 5 & 6	
Apr 27	Curriculum-based Evaluation Presentations (4 students)		Final version of CBE due Individual Supervision with Dr. Goforth and/or TA
May 4	Curriculum-based Evaluation Presentations (4 students)		End-of-Semester Reflections & Practicum Logs due Supervisor & Consumer Evaluations due

Appendix A

Curriculum-based Evaluation Case

A curriculum-based evaluation is a decision-making framework for considering the assumed causes of the problem, validating the hypotheses, and linking results to teaching recommendations. For this assignment, you will complete a full, in-depth curriculum-based evaluation at your practicum site.

You will meet with your field-based supervisor to discuss possible students (age 6-17) who have been identified as being in need of additional academic support. You will obtain parent consent as well as teacher assent for the purpose of administering assessments. You will identify a target area of need, conduct a problem analysis, set appropriate goal(s), select a potentially highly effective intervention, implement the intervention, monitor progress, and evaluating the effects of the intervention. The plan must incorporate best practices in school-based intervention by including an appropriate goal, address issues of social validity, fidelity (treatment integrity) and generalization and maintenance, a plan for progress monitoring, and outcome evaluation plan.

Report

You will provide a written report of your CBE case. The report must be typed using Times New Roman, 12-font. When appropriate, APA-style formatting is required. I expect that the report be written using clear, concise language with no grammatical or spelling errors. Please submit the report in a 3-ring binder and include previous versions as you submit each part. The required sections that *must* be included in the report are below.

1. Referral Problem
 - a. Assessment Procedures (e.g., RIOT)
2. Cumulative Folder Review
3. Interviews
 - a. Teacher
 - b. Parent
 - c. Student
4. Curriculum Description
 - a. Description of general education (i.e., Tier I) curriculum, including evidence-base for curriculum
 - b. If applicable, description of special education curriculum
5. Observation of Student Behavior
 - a. Clear, operational definition of behavior
 - b. Systematic observation of behavior compared to same-age, same-sex peer (e.g., momentary time sampling)
 - c. Summary of behavior in context of classroom environment
6. Curriculum-Based Assessment

- a. Problem Definition
 - i. Clear, operational definition
 - b. Current functioning and instructional level
 - c. Consideration of individual & cultural factors
7. Intervention Plan
 - a. Goal
 - i. Specific and operationalized
 - ii. Provide justification for goal (e.g., realistic vs ambitious goals)
 - a. Intervention Description
 - i. Summarize research-base for intervention
 - ii. Provide justification for choosing the intervention
 - iii. Describe implementation steps
 - iv. Describe any modifications made to the intervention and provide justification
8. Progress-Monitoring
 - a. Description of progress-monitoring procedures
 - b. Clear presentation of data (tables and/or graphs)
9. Intervention Evaluation
 - a. Describe intervention fidelity and modifications
 - b. Provide evidence of intervention effectiveness (ROI, percent change, and visual analysis)
 - c. Summarize intervention effectiveness
10. Recommendations
 - a. Provide list of recommendations
 - i. Written in a “teacher-friendly” language
 - ii. One page step-by-step description that teachers could use in future
11. Reflection on CBE (2-3 pages)

The curriculum-based evaluation report will be completed in 3 parts. Please look on the syllabus for the specific deadlines for each part.

Part 1

- Referral Problem
- Cumulative folder review
- Interviews (teacher, parent & student)
- Curriculum description
- Observation of student behavior

Part 2

- Revisions of Part 1
- Curriculum-based Assessment
- Intervention Plan
- Progress-monitoring

Part 3

- Revisions of Parts 1 & 2
- Intervention evaluation
- Recommendations
- Overall reflection

Presentation

In addition to the written report of the curriculum-based evaluation, you will present your case to your colleagues. The presentation should be 15 minutes with 5 minutes for Q&A. Your presentation should follow the structure of the written-report.

You will be evaluated on:

- Summary of problem analysis and problem definition
- Description of intervention and intervention effectiveness (including showing ROI and %change)
- Clarity of progress monitoring graphs
- Clarity and organization of presentation
- Ability to stay within time-limits

Your colleagues will also provide written feedback about your presentation and case.

Appendix B

Professional Goals

The University of Montana
School Psychology Program
Professional Goals for Practicum Experience
Spring 2015

Student Name: _____

Practicum site: _____

Practicum supervisor: _____

Please reflect upon your current skills, knowledge and competencies. Then, develop and write concrete, observable, and measurable goals for your professional development this semester under each of these categories (you can have multiple goals under each category). You will review your goals with your university- and field-based supervisors.

Sample Goals:

- By December 5, 2015, I will administer one child assessment under the supervision of Mary Finnegan.
- By December 5, 2015, I will speak to at least one parent about the needs of their child with a disability and will use appropriate non-verbal and verbal communication (e.g., speak clearly, make eye contact).

Part 1: Reflection on Strengths and Weaknesses

Part 2: Professional Goals

- 1. Goal for Assessments**
- 2. Goals for Intervention**
- 3. Goals for Professional Collaboration or Consultation**
- 4. Goals for Legal, Ethical, and Professional Performance**
- 5. Goals for Promotion and Awareness of Diversity**

Appendix C

Reflection on Practicum Experience

The University of Montana
School Psychology Program
Reflections on Practicum Experience

Semester/Year: _____

Student Name: _____

Practicum site: _____

Practicum supervisor: _____

Please reflect about your experience at your practicum site in relation to the following areas. Consider how your previous experiences and background affect your current experience as a school psychologist-in-training. You may not have direct experience with some of these areas, so comment on your observations (e.g., your supervisor administering a measure, intervention) or what you would like to learn in that particular area. This is a reflection exercise—do not simply list activities in which you have participated. Reflect on your skills, knowledge, and awareness related to the following areas.

1. School systems and the educational process.
2. Assessment for interventions. This may include observation, interviews, records reviews, standardized measures, alternative assessments (e.g., CBM).
3. Direct intervention services. This may include any academic or social-emotional interventions that you have provided or observed others conducting.
4. Consultation (e.g., with teachers, parents, students, administrators)
5. Parent-School Relationships
6. Diverse populations:
7. Professional development. Reflect upon your areas of growth in the past semester and how this will influence your role as a school psychologist.
8. What training or professional goals would you like to address in the next semester? What would you like more information about?

Appendix D

Comprehensive Psychoeducational Report

The purpose of a psychoeducational report is to provide a concise, yet comprehensive summary of a child's cognitive abilities, academic skills, and social and emotional issues. There are a variety of purposes for a psychoeducational report, including providing an accurate assessment for a referral source (e.g., parent), developing hypotheses and linking to appropriate interventions, providing a baseline for the examinee, and as a legal document (e.g., IEP).

The typical report includes (Sattler, 2001):

1. Identifying information
2. Assessment instruments
3. Reason for referral
4. Background information
5. Observations during the assessment
6. Assessment results and clinical impressions
7. Recommendations
8. Summary
9. Signature

While there is a general standard structure for psychological reports, there is no "correct" way. Indeed, you will notice that each psychologist has his or her own way to writing. For this assignment, you will use the structure that I use in my practice, which may appear different from other psychologist's reports. I believe that it is important that you are exposed to a variety of styles so that when you are an independent school psychologist, you can develop your own professional voice.

In my view, psychological reports are designed to communicate results of an assessment in a way that a non-psychologist should be able to read and understand what is written. The report is about *the child and not about the test*. There should be minimal psychological jargon (and if there is, it should be fully explained in lay-person language) and minimal numbers (e.g., no standard scores except in tables in appendix). A question you should continually ask yourself is: "Would my grandmother understand this report?" If you are describing a particular domain, such as working memory, you need to adequately describe this domain so that any person could understand what it is.

You will be given a case with background information, classroom observations, cognitive abilities and academic achievement test results. You will examine the data and write a comprehensive psychoeducational report based on these data. You will be graded on:

1. Overall quality of writing
2. Overall clarity and organization of report
3. Ability to synthesize and integrate a variety of data
4. Ability to convey psychological domains (e.g., IQ, academic skills, etc.) in lay-person language
5. Appropriate summary, diagnosis/special education eligibility with a clear rationale
6. Appropriate and specific home and school-based recommendations and accommodation
