Adjournment Buries MUN Dues Matter

By CARL RIECKMANN

MSU's Model United Nations delegation returned Monday night from the 1965 General Assembly, a week-long debate and resolution drafting by an MSU student to resolve the dispute surrounding Article 19 of the UN Charter was buried in adjournment and debate. The resolution, drafted by a rules technical expert, was rejected by a roll call vote of 15 to 13.

The resolution, written by Margaret Beise, had passed the Committee of 21 and was placed on the General Assembly agenda. Today was the day to die, and only two resolutions, one directed at British-controlled Southern Rhodesia, were the only two resolutions passed by the Assembly today.

Delegates Louise Snyder and Dick McKean reported that a copy of the resolution was passed to the group but was buried on the Assembly agenda.

As Roy Malahowski, MSU's delegate to the Committee of 24, reported that the resolution was passed by a vote of 24 to 0, a resolution actually passed would be the only resolution passed by the group but was buried on the Assembly agenda.

Votes Passed

Two resolutions passed by the Committee of 24, urged the United Kingdom to use all legal means to give amnesty to all political prisoners in the United States. The resolution was passed by a vote of 24 to 0, a resolution actually passed would be the only resolution passed by the group but was buried on the Assembly agenda.

Delegates Nina Byrd and Dave McKean reported that a copy of the resolution was passed to the group but was buried on the Assembly agenda.

Disarmament Measures Buried

In other committee action, the Political and Security Committee passed a resolution calling for disarmament measures, but the resolution was buried on the Assembly agenda as well. Roy Malahowski, MSU's delegate to the Committee of 24, reported that the resolution was passed by a vote of 24 to 0, a resolution actually passed would be the only resolution passed by the group but was buried on the Assembly agenda.

Resolution Must Be Passed

Delegates Nina Byrd and Dave McKean reported that a copy of the resolution was passed to the group but was buried on the Assembly agenda as well. Roy Malahowski, MSU's delegate to the Committee of 24, reported that the resolution was passed by a vote of 24 to 0, a resolution actually passed would be the only resolution passed by the group but was buried on the Assembly agenda.

Sentinel Applications Due

Applications for Sentinel associate editorships and committee positions must be filed on or before March 15. All applications will be reviewed by the staff and the Sentinel Staff will announce their selections on March 20. The Sentinel will publish a list of all students who have been accepted as associate editors and committee members on March 21.

Positions Lack Student Entries

No applications for Board of Regents positions on the Sentinel have been received. Dr. Robert Ackerlund, MSU provost, has proposed bylaw changes regarding the Board of Regents that, if accepted, will remove the possibility of providing additional representation to student organizations.

Cheerleader Application Deadline Is Thursday

All persons interested in serving as cheerleaders for the upcoming season are encouraged to apply by Thursday, March 12. Applications should be submitted to the MSU Athletic Department.

Ticket Sales Total $5,600

Ticket sales for the Christie Minstrel will total $5,600. The Christie Minstrel, a nationally-known singing group, will be performing in the Field House on April 23. More than a third of the money raised will be used to support the school's athletic programs.

Elections, Budget To Be Discussed

Plans for AMSU elections and the tentative budget will be discussed at the next meeting of the AMSU Affairs Committee. The meeting will be held in Conference Room 2 of the Lodge, Thursday, March 12, at 2 p.m.

All candidates are expected to be present at the meeting, and additional funds for student loans will be discussed as well.

Other reports on the agenda include the Budget Committee, Special Events Committee, and the AMSU Affairs Committee. The special committee concerning Montana Farm Bureau Chairmen will also be discussed, and an ad hoc committee appointed to look into the formation of a central office will also meet.

HeLENA (AP)—The Board of Regents approved the 1965-66 Training Corps programs.

Of the five state universities and Boisean units of the state's unified system, RITC is now the dominant pattern, followed by the University of Montana, the Rocky Mountain and West Coast states, only three states, Montana, Nevada and Arizona have required programs.

Salary Raises May Receive Regent Okay

HELENA (AP)—Raise pay of at least $2,000 a year for the president of the state's nine-campus university system units and at least $1,500 for the other four top administrators of the system, was approved by the Board of Regents Wednesday.

Gov. Donald E. Calhoun had been urged by the legislature to recommend a salary increase to the board for the president and other administrators.

The president, replying to newsmen's questions about why Ackerlund's contract was picked up ahead of the contract deadline set by the legislature, said:

"I felt his judgment as dean of students was not what was required for the job." Mr. Ackerlund had been dean of students at Montana State College.

The attorney general's motion, made March 10, to suspend discussion of the background panel, is to remain open until the end of the session, at which time it appears that Ackerlund's salary raise will not be adopted, although his leave began Tuesday.

Ticket Sales for the Christie Minstrel will total $5,600. They have been going at the rate of $500 a week.

The Christie Minstrel, a nationally-known singing group, will be performing in the Field House on April 23. More than a third of the money raised will be used to support the school's athletic programs.

No applications for Board of Regents positions on the Sentinel have been received. Dr. Robert Ackerlund, MSU provost, has proposed bylaw changes regarding the Board of Regents that, if accepted, will remove the possibility of providing additional representation to student organizations.

Charlie Brown is Write-in Candidate To the Kaimin:

This letter announces Charlie Brown's candidacy for the office of ASMSU President. Since we feel that Charlie Brown is a representative of the students' desire for improved student government, it is sincerely hoped that the candidacy of Charlie Brown can serve as a useful constructive purpose.

It is obvious that the student government has dramatically failed to meet the demands that confront the MSU student. In that the present student government has been incompetent and the future gives no indication of anything but a continuation of its status quo, it appears that there is no alternative to the organization of the students to seek better leadership by means of Charley Brown.

By this means, we intend to have a student government that the students of MSU are dissatisfied with. We believe that the leadership of student leaders, with the present form of student government, and with other matters too numerous to mention, the Students for Improvement of MSU, J. B. KERKVLIKT, ED WALSH, RALPH BENNETT

Mackey Suffering To the Kaimin:

In last Thursday's Kaimin Mr. (Donald) Mackey stated his belief that the true relationship of races is "separate and mutually superior" to this by saying that we are "dealing with human beings, not merely a national entity." I dare say his corollary that races are not equal ("psycho- logically, ethnically, socially, culturally, and characteristics") was based on "rational validation."

Or Mackey feels people are telling him it is a rather impudent thing to know what, I suspect Mr. Mackey and I are both wrong under a common delusion that belief in a common delusion is the root of all sin.

Actually there are very few first principles in ethics and morals (what we are dealing with). But those that can be discovered or constructed stand somewhat apart from social creeds. And one of these basic principles is: people are not objects and should not be treated as such. This

Mackey Skeptical About Birth Control: Terms Viet Nam Editorial 'Excellent'

To the Kaimin:

Regarding Nancy Engelbach's article in the April 2 issue, I do not believe birth control can work in the United States. These are the reasons:

1) World-wide birth control can be only a temporary solution at best. It may slow down or stop population increase, but to continue it indefinitely would undoubtedly create such disincen-

2) The extensive colonization of other planets. Though we cannot get away from the Earth to other planets the prospect has possibilities. We'd better get with it.

Congratulations, Dave Rorvik, on your excellent editorial on Viet Nam policy. I agree with you completely.

DONALD MACKEY

Professor Commends Kaimin Stand Against U.S. 'Criminal Asian Policies' To the Kaimin:

Congratulations on your editorial about the situation in Viet Nam. It is an honest, forthright, accurate analysis of the war which puts to shame most of our professional editorial writers. MacBunk's immoral and morality in trying to justify Johnson's criminal Asian policies.

In support of your editorial I would like to refer briefly to the March 15, 1965 of the New Re-

The "White Paper" also fails to make its political points. It claims that hostilities began in 1959 and were inspired by Hanoi. The facts are that it was Dien's abolition of the elected village councils in 1956 which precipitated the rebellion, which began in 1957. It cites the International Commissar's criticism of Hanoi, but omits Item 30 of the Commission's report which charges both the United States and South Viet Nam with violating the 1954 Geneva Agreement on Indochina.

One wishes that some way could be found on this campus to raise the level of understanding of the Viet Nam civil war in which the United States is indirectly

New Assistant Coach

Robert Cope, MSU's greatest all-time basketball scorer, has been named assistant basketball coach at the University, effective July 1.

The announcement was made by Athletic Director Wally Schwank following approval of the move by the State Board of Regents yesterday in Helena.

Cope, 36, received a masters degree in physical education at MSU in 1955, four years after receiving his bachelors degree. He served for four years in the U.S. Air Force before beginning his coaching career for 14 years on the high school, junior college and armed service levels. His overall coaching record is 244 wins and 92 losses.

Cope attended Missoula County High School, where he starred in four-time basketball scorer, has been named assistant basketball coach.

track as well as basketball. After his senior year, he was named to the All-American Interscholastic Track team.

At MSU, Cope was a four-time letterman in basketball and baseball, and picked up two letters in track. He was a member of Silent Sentinel during his senior year.

Cope has attended summer track camp in California, through March, as well as basketball camp in the Bay Area in 1961.

His most recent coaching experience has been at Southwestern College, Chula Vista, Calif., for two seasons as basketball and cross-country coach. He also coached basketball at the Naval Training Center in San Diego.

Three Montana pitchers held the Carroll College Saints to only two hits as the Grizzlies won the second game of yesterday's doubleheader, 10-6.

The Tipps also won the opening game, by a score of 3-2. MSU garnered only three hits in that contest, with Carroll collecting five.

Boyt Dern was the winning pitcher in both contests. His record is now 2-1.

Dern pitched a total of four innings during the afternoon, giving up no runs, one hit, striking out four and walking one.

Montana struck early in the second game, collecting four runs by means of two walks, a hit batsman, a double and a single.

Dewey Allen, Grizzly second sacker, picked a home run over the left field fence for the Tipps' single score in the fourth inning.

Another freshman, catcher Brian Cloutier, hit the second MSU homer of the game during a two-run, two hit fifth inning volley which moved the Grizzlies ahead, 3-2.

Allen, Cloutier, Arne Myssae, Frank Spear and Lee Levknecht each got two hits in the second game.

J.V. Baseball Set

Any freshman or sophomore men interested in baseball at the Junior Varsity at MSU are to attend a meeting at 7 p.m. today in the Century Club Room of the University Field House.

The announcement was made by Milt Schwank, Grizzly baseball coach.

ONE LOSS IN 28 YEARS

The University of Southern California track team, through March, 1965, had won 122 of 123 dual meets dating back to 1945.

When Cope closed out his college career in 1956, he was ranked 15th on the all-time Intercollegiate Scoring listings. He was captain of the Montana team which finished third in the nation in scoring, and first in average scoring margin over opponents.

In 1948, sophomon Cope scored 500 points, which made him top scorer in the Pacific Coast Conference that year. It also earned him a post-season honor from the All-America Track Association.

The 390 point total of 1948 ranks second only to his own 701 point total on MSU's one-season individual scoring records. His 701 points came during the 1949-1950 season.

Cope attended Missoula County High School, where he starred in 1951-1955.

Cope has attended summer school sessions at five other colleges since then.

The new assistant has been coaching for 14 years on the high school, junior college and armed service levels. His overall coaching record is 244 wins and 92 losses.

Rain, Snow Threat Increases Northern Montana Flood Peril

By the ASSOCIATED PRESS

The threat of more rain and snow added to the flood threat in northern Montana's Milk River Valley Tuesday.

The Milk River continued to rise Tuesday and flooded its banks Monday as some families evacuated lowland homes and workers bolstered dikes protecting Havre.

The Weather Bureau said a two-pronged storm, one from Wyoming and the other from Canada, would dump additional rain and snow on Montana beginning late Tuesday and continuing Wednesday. Western snow may get up to three inches of snow and high temperatures in the 30s were forecast for Wednesday across Montana.

Temperatures near 60, warmest of the season along the winter-weary Hi-Line, caused rapid snow melting Monday and made the country north of the Milk River Valley look like a vast lake country to persons flying over it.

This water will reach streams later and help meet predictions by the U.S. Weather Bureau that river levels will approach 1993 records when damage totalled $6.5 million.

OUTER SPACE CIVILIZATION MAY BE SENDING SIGNALS

THE ASSOCIATED PRESS—

Soviet astronomers stirred scientists around the world Monday by suggesting that mysterious radio signals from outer space may indicate a highly intelligent civilization exists unknown to earth man.

Many Western scientists—although cautious—refuse to dismiss the possibility.

The Soviet news agency Tass said scientists at Moscow's Sternberg Astronomical Institute believe the throbbing signals may be "the first evidence that we are not alone in the universe."

Gold was discovered in Australia in 1851.
