BATTELLE INSTITUTE
EXECUTIVE TO SPEAK
AT UM ON FEB 12

MISSOULA, MONT.---

Dr. Ronald S. Paul, senior member on the corporate staff of Battelle Memorial Institute, Seattle, Wash., will be third guest lecturer at the University of Montana on Feb. 12 in a series on business management and relationships of business to science.

Dr. Paul's lecture, entitled "The Science Business--Pure and Applied Research and Its Support," originally was scheduled for Feb. 7, but due to the public Grand Opening Weekend of the new University Center on Feb. 7-9, the speech has been rescheduled for Feb. 12.

The lecture by Dr. Paul, one of five sponsored under a \$2,000 grant from the Sperry and Hutchinson Co., begins at 8 p.m. Feb. 12 in the UM Music Recital Hall. It is open to the public without charge. Dr. George J. Brabb, professor of business administration and management on the Missoula campus, is coordinating the lecture series.

Dr. Paul is author of a number of technical papers in physics, focusing much of his attention on instrumentation and testing in atomic physics. He holds three degrees, including a doctorate in physics, from the University of Oregon, Eugene.

Battelle is one of the largest nonprofit research centers in the world.
