BOLLE NAMED ADVISER
TO CONGRESSIONAL COMMITTEE

MISSOULA, Mont.---

Dr. Arnold W. Bolle, Missoula, has been named an adviser to the Congressional Ad Hoc Committee on the Environment, according to Richard L. Ottinger, Congressman from New York's 25th District.

Dr. Bolle, dean of the University of Montana School of Forestry, is one of a number of distinguished scientists, businessmen and members of the general public invited to advise the Congressional committee on a continuing basis.

The list of advisers includes John Kenneth Galbraith, A. Starker Leopold, Marston Bates and Robert W. Sarnoff among others.

The committee was formed in fall 1968 by 90 Representatives and Senators from both political parties.

They shared the conviction that Congress has too often had to make decisions which affect the quality of man's environment without first-hand knowledge, from authoritative sources, of the consequences of its decisions, Ottinger said.

Dr. Bolle holds a B.A. from Northwestern College, Wisconsin; a B.S.F. from the University of Montana, Missoula; and masters and doctorate degrees from Harvard University in public administration.

He served with the U.S. Forest Service, the Soil Conservation Service and operated a dude ranch in Wyoming before he joined the University of Montana faculty in 1955 as an associate professor of forest economics and policy.
