ADMINISTRIVIA

Text and other materials: Readings should be read before coming to class.

Skelton, RR. 2011. *A Survey of the Forensic Sciences*. www.Lulu.com. ISBN 978-1-4357-6762-1. You can purchase it from the bookstore, purchase it cheaper from www.lulu.com (search for “A Survey of the Forensic Sciences”, with quotes) or download it as a .pdf file from Moodle.

Lecture notes for this class are accessible through a Moodle supplement. Your instructor only provides content for Moodle and is not involved with its administration. If you need help with computing or with accessing Moodle Tech Support (243-4999, umonline-help@umontana.edu).

Student Conduct: Students are expected to be familiar with and abide by the student conduct code, which can be found at http://www.umt.edu/vpsa/policies/student_conduct.php.

Disability Accommodations: Students with disabilities are welcome. I assume that accommodation services will be provided by the Disability Services for Students office. See <http://www.umt.edu/dss/> for details.

Exams and Grading: Grades will be based on the three best of four exams offered over the semester. The four exams will consist of three midterms, and a cumulative final. I use this grading scale: A = 100-90, B = 89-80, C = 79-60, D = 59-50, F = 49-0. I reserve the right to modify these basic grades with a + or - in special circumstances. The grading mode is “open” meaning that you can take the class for a traditional grade or CR/NCR. If you take a class CR/NCR you cannot count it toward specific major, minor, option, or certificate requirements that require a minimum grade.

Graduate Increment: In addition to the other requirements of the class graduate students will produce a 10 to 15 page term paper on one of the forensic sciences, which describes the breadth of the forensic science, the type of court cases in which it is use (e.g. criminal or civil cases), and required qualifications and certifications for professionals. The paper must be in scientific paper format and include at least 15 sources.
