This Syllabus is brought to you for free and open access by the Course Syllabi at ScholarWorks at University of Montana. It has been accepted for inclusion in Syllabi by an authorized administrator of ScholarWorks at University of Montana. For more information, please contact scholarworks@mso.umt.edu.
Syllabus – GEO 309 – Sedimentation and Stratigraphy – Spring Semester 2017 – 4 credits

**Lecture:** Tuesday and Thursday 2:00 to 3:50 PM; CHCB # 304

**Professor:** James R. Staub: Office hours are from 2:00 to 3:00 PM on Monday and Wednesday; other times by appointment. CHCB # 363; phone 243-4953; james.staub@umontana.edu

**Course Outcomes:** To provide you with a basic working knowledge of the characteristic features of sedimentary rocks and the physical and chemical processes responsible for their origins and diagenesis. A working knowledge of stratigraphic principles, methods of correlation, and methods of paleographic reconstruction will also be provided by this course. In addition, concepts of basin analysis are introduced. These outcomes are achieved through classroom lectures, a series of laboratory exercises and/or problem sets, and a field exercise.

**Class Format:** Many ideas and materials will be presented in lectures that are not covered in the course text. You are accountable for all ideas and materials covered in the text as well as those presented in lecture.

**Moodle Course Supplement:** Class announcements, lecture slides, and laboratory exercises and problem sets will be posted on Moodle.

**Course Content:**
Introduction
Weathering and Soils
Transport and Deposition of Siliciclastic Sediment
Sedimentary Textures
Sedimentary Structures
Siliciclastic Sedimentary Rocks
Carbonate Sedimentary Rocks
Chemical/Biochemical and Carbonaceous Sedimentary Rocks
Depositional Environments
  - Controls on Sea Level
  - Continental Environments
  - Marginal Marine Environments
  - Siliciclastic Marine Environments
Stratigraphy
  - Lithostratigraphy
  - Seismic and Sequence
  - Biostratigraphy

**Grading:** There will be two midterm exams (16% each). They will not be comprehensive. The final exam (30%) will be comprehensive. Exam questions will be short answer/essay, computational, hand specimen identification, photo analysis, etc. in format. Failure to take any of the exams at the scheduled time will result in a grade of zero (0), unless prior arrangements are made with the professor or a signed medical excuse from the attending physician is presented to the professor.
There will be seven (7) laboratory exercises and/or problem sets posted on Moodle which will be graded and count as part of your final grade (21% of total grade). Assignments must be completed in a timely manner to receive credit. Due dates will be posted on Moodle.

There is a field exercise as part of a weekend long field trip (Friday-Sunday) that is graded (17% of total grade). The field exercise is scheduled to start at 12 Noon on Friday, April 28th. We will Travel to the Billings area. We will return on the evening of April 30th. Your completed written field report is due on Friday, May 5th by 4:00 PM.

If you cannot participate in the field exercise/field trip for an acceptable reason (e.g., medical issue, National Guard duty) you must discuss this with the instructor by February 10th. In lieu of your participation, a research term paper is required to successfully complete this course using the following guidelines: The text of the paper (not including the abstract, figures, and references) should be 10 to 12 pages in length (one and one-half spaces for text) and follow is the Geological Society of America Bulletin format. Schedule an appointment with the instructor to discuss your paper topic before February 22nd. The make-up term paper is due on the last day of class, Friday, May 5th, by 4:00 PM.

Individual letter grades and final letter grades will be based on the following percentages: 100-90% A, 89-80% B, 79-70% C, 69-60% D, 59% and below F. Plus and minus scores will be assigned to letter grades following university guidelines.

**Exam Dates:** First midterm exam (90 minutes) is on Thursday, March 2nd; second midterm exam (90 minutes) is on Tuesday, April 18th; the final exam (two hours) is on Wednesday, May 10th from 1:10 to 3:10 PM.

**STUDENT CONDUCT CODE:** Please be familiar with the UM Student Conduct Code. The Student Conduct Code can be found on the Vice President for Student Affairs website [here](http://life.umt.edu/vpsa)

**COURSE ACCOMMODATIONS (DDS):** Students with disabilities will receive reasonable accommodations in this course. To request course modifications, please contact me as soon as possible. I will work with Disability Services in the accommodation process. For more information, visit the Disability Services website [here](http://life.umt.edu/dss) or call 406.243.2243 (Voice/Text).
