**Training Seminar, MICB 580, CRN 70387 1 credit**  
**BIOC 580, CRN 70027**

**Purpose:**

The purpose of this course is to prepare students to present their research data in oral presentation format (seminar - 50 min presentation, 30 min and 10 min presentations) and in poster format.

**Evaluation:**

Students will be evaluated on attendance, participation in class and an oral presentation which incorporates the skills and techniques learned in the class.

**Course Outline:**

**Oral Presentations:**

1. Preparation for an oral presentation
  - Organize information specific to the seminar subject
  - Identify the audience (lay, UG/G, professional)
  - Identify the venue (small, med., large room)
2. Technical Aspects
  - Written material
  - Slide preparation
    - Old fashioned slide making
    - Computer slide making
3. Presentation - preparatory
  - Preview of slides
  - Technical aspects of presentation
  - Adjustments for 10/30 min presentations
4. Presentation - practical
  - Have students give a seminar

**Poster Presentation:**

1. Preparation for a poster presentation
  - Organize information specific to the seminar subject
  - Identify the audience (lay, UG/G, professional)
  - Identify the venue (size of poster, location of poster, backboard support)
2. Poster Format
  - Title/Authors
  - Abstract
  - Introduction
  - Results
  - Conclusions
  - Methods
  - Figure legends
  - Acknowledgements
3. Technical Aspects
  - Written material
  - Text printing
  - Figure preparation/printing
  - Use of colors
4. Presentation
  - Active vs passive presentation
  - Guidance of viewers
