To dance is to be out of yourself. Larger, more beautiful, more powerful. This is power, it is glory on earth and it is yours for the taking.

~ Agnes De Mille

COURSE PURPOSE
The Senior Project is an independently directed endeavor and in-depth experience that is meant to expand one's knowledge, expertise, sensitivity and ability in a specific area albeit choreography, teaching or research. This project is designed by the student and extends well beyond the typical classroom experience. Students gain first-hand knowledge of how to organize a dance production.

COURSE OBJECTIVE
To provide an ongoing forum through which students share creative and thought-provoking ideas, questions, solutions and constructive criticism in relation to the Senior Project.

METHODOLOGY
This is a high-level presentation/discussion course designed for upper-class students and is to follow previously completed course/creative work grounded in choreography, pedagogy and/or special topics in dance. Learning devices may supplement the class meetings, including: in class activities, readings, video presentations and discussions of works in progress to aid students in achieving set project goals. Students will be mentored toward organizing and producing a Senior Performance of their work.

REQUIREMENTS

- **Submit your application and proposal** to your project advisor and to the instructor of record for this course.
  - Feb 3  
  - Feb 10  

- **Present work-in-progress as well as final product** throughout the course of the term. Set a timeline to prepare program order, publicity, press release, programs, technical rehearsals and critics for Senior Performance.

- **Final Paper** timeline:
  - April 14  
  - May 8  
  - May 12  

- The parameters of each project will ultimately be determined by the student and their project advisor. Some of the requirements will likely include:

  - **Maintain a journal** devoted specifically to this project. Write in it regularly throughout the creative process, documenting your ideas, questions and the feedback received through the
course as well as periodic public showings. This will be submitted along with your final paper due at the conclusion of the semester.

- **Maintain a video/digital log** of your process in rehearsals or while teaching. This too will be submitted along with journal and final paper.
- **Provide critical feedback** to Junior/Senior Project class members.
- **Participate in critiques** when appropriate.

**GRADING**

**Attendance**
Grades will ultimately be determined by your project advisor. However, students are expected to attend every class and arrive on time. Only one absence is excusable. Each additional absence will lower the grade 1/3 point (e.g. A -> A-).

**Participation**
As a portion of this course is designated for presentation, students are expected to attend class prepared to show work, discuss and ask questions regarding the progress of her/his Senior Project. Additionally, the course is designed to stimulate discussion, feedback and creative problem solving and therefore, students are expected to equally participate in this process.

*The project advisor will establish the grading criteria for each individual project. Project grades are generally based on some combination of the project, the paper and supporting documentation. It is important that you speak early in the semester with your project advisor to confirm the timeline, requirements and grading guidelines for your project.*

There is inherent risk involved in many Theatre & Dance classes as they are very physical in nature. Please proceed through class, shop time, or rehearsal with caution. Always be mindful of your personal safety and the safety of others. Students participating in class/shop/rehearsal/performance do so at their own risk.
Due to safety considerations, at no point during a student’s time spent in class or serving on a production (in any capacity) should non-enrolled persons be guests of that student without my consent. Presence of such unauthorized persons in a class, shop, or any backstage/off-stage area will negatively affect a student’s grade.
