NRSG 234
Adult Nursing I

Course Description

This course builds upon the knowledge and skills acquired in Foundations of Nursing, and places them in the context of patient-centered care. Social, cultural, ethical, rural and legal issues, end-of-life and palliative care across diverse adult populations are introduced. Health promotion and prevention throughout the adult lifespan, with specific focus on the geriatric patient, is emphasized. Normal aging, health alterations associated with aging, and their implications are addressed.

Expected Student Course Outcomes and Objectives

Upon completion of this course, the student will be expected to:

1. Promote an environment conducive to **Human Flourishing**, characterized by building a relationship with the patient in an effort to maintain human dignity, self-determination and growth, while meeting the healthcare needs of patient characterized by the student being able to:
   a. Identify disease processes and chronic conditions related to the adult patient.

2. Understand rationale for **Nursing Judgments** used in planning and providing safe and effective patient care characterized by the student being able to:
   a. Identify common diagnostic measures and treatment related to the health problems presented with emphasis on nursing assessment and responsibilities.
   b. Demonstrate ability to develop, implement and evaluate nursing interventions and standardized teaching plans to meet the needs of adult patients with stable and chronic conditions.

3. Demonstrate **Professional Identity** characterized by assessing personal behavior strengths and values affecting one’s identity as a nurse while being responsible for personal actions, performance, and contributions as a member of the health care team, characterized by the student being able to:
   a. Discuss a holistic approach and appropriate nursing interventions, including the physical, nutritional, psychosocial,
cultural, and ethical/legal aspects for adult patients with stable and chronic conditions.

4. In *Spirit of Inquiry*, function as a member of multidisciplinary health care team demonstrating the ability to evaluate self and work ethically with others in a diverse population, characterized by the student being able to:
   a. Function effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision making to achieve quality patient care.

**Course Policies and Course Evaluation**

1. Policies related to attendance, tardiness, class participation, missed examinations or assignments, academic dishonesty, grading, Grade Appeal Procedure, and support services are included in the Nursing Student Handbook. It is the responsibility of each individual student to read and be familiar with the student handbook. You will be required to acknowledge that you have read and understand the student handbook.

2. Course requirements listed must be completed in order to pass the course. A student must have a grade of at least 80% in order to receive a passing grade and continue in the nursing program.

3. Regular attendance is expected at each class as part of professional behavior. In the event of a student being unable to attend class, prior notification to the faculty is appreciated and requested. Repeated absences from class will affect the student’s professionalism grade.

4. Tests/quizzes are to be taken at the times they are scheduled. In the event a test must be missed, prior notification to faculty member is required. Any quiz/exam missed without prior notification of the instructor will be graded as a “zero”. No makeup exam/quiz will be allowed in this instance. Arrangements will need to be made for testing with faculty member or testing center and will be allowed at the discretion of the instructor. Exams will be held in class or on Moodle at specified times listed in course outline. Unless specifically announced by the instructor, unit test, quizzes or exams are NOT open book or open note tests. Moodle quizzes/exams will be open for 24 hours.

5. Paperwork Due Dates: Late assignments will only be accepted if the student notifies the instructor before the due date- at the discretion of the instructor. An assignment that is more than 24 hours late, regardless of prior notification, will have a minimum 10% reduction to the final grade for that assignment.

6. All email correspondence must be made through an official university email account. No private emails will be responded to.

7. File naming protocol: When submitting files online (i.e. assignments) use the following protocol: last name followed by underscore followed by the week followed by short title of document. For example: Sillars_W2_assignment#1

8. Note: Instructor reserves the right to modify syllabi and assignments as needed based on faculty, student, and/or environmental circumstances.
Recording of Classes:

Lecture recording is not allowed without prior consent of the instructor. In blended classes or distance learning classes, recorded lectures are not allowed to be re-broadcast in any way and any material discussed, in face to face classes or in on-line discussion groups, is considered confidential. If a student breaks this policy, it will be considered academic misconduct. It is an expectation that students will not share case studies/recorded case studies or recorded lectures with other classes as this is considered cheating and deprives the incoming class of valuable learning experience.

Students with Disabilities:

Eligible students with disabilities will receive appropriate accommodations in this course when requested in a timely way. Please speak with me after class or in my office. Please be prepared to provide a letter from your DSS Coordinator and to make appropriate testing arrangements. The University of Montana assures equal access to instruction through collaboration between students with disabilities, instructors, and Disability Services for Students (DSS). "Reasonable" means the University permits no fundamental alterations of academic standards or retroactive modifications. For more information, please consult http://www.umt.edu/disability or call 406-243-2243 (voice/text).

QSEN:

QSEN (Quality and Safety Education for Nurses) is being integrated throughout the curriculum. This was initiated in fall 2012 with safety and will continue until all competencies have been integrated. QSEN has evolved from the landmark IOM report “To Err is Human” published in 2000.* The six QSEN competencies are: safety, patient-centered care, teamwork & collaboration, evidenced-based practice, quality improvement, and informatics. There are a total of 162 KSAs (knowledge, skills and attitudes) associated with these six competencies that will be introduced throughout the curriculum. There will be QSEN classroom, clinical and/or simulation assignments that will be address these competencies throughout the semester.

Methods of instruction:

Online instruction: ATI learning series & testing
Case studies
Text and Selected reference readings
Lecture and class discussion

Method of Evaluation of Student Learning:

Unit quizzes and exams
ATI learning assessments
Case Study discussion
QSEN assignments
Professionalism/participation
Breakdown of Grade

*TBD by instructor:*

- Prelecture Quizzes = 30%
- Exams (4) = 40%
- Assignments = 25%
- Participation/Professionalism = 5%

**Grading Scale**

- 90-100% = A
- 80-89% = B
- 70-79% = C
- 60-69% = D
- Below 60% = F

NOTE: In order to successfully complete this course and proceed in the RN program a student must earn a minimum of 80%.
